ORIGIN:

On Monday, November 21, 2005, at approximately 1535 hours, Homicide Sergeant Empson (#0819) requested I conduct an investigation into the death of a prisoner who was in the custody of the Sheriff's Department. The deceased prisoner was identified as being Vanessa Facen (01-03-1970). Facen was pronounced deceased at UCSD Medical Center in San Diego on Monday, November 21, 2005 at approximately 1530 hours by Doctor (b)(5)(B).

INVESTIGATION:

On Monday, November 21, 2005, at approximately 1535 hours, I attended a briefing conducted by Homicide Sergeant Empson. The briefing occurred in the office of the Homicide Detail, located at 9621 Ridgehaven Court in San Diego. The briefing was attended by Detective Goldberg (#1110) and Detective Jenkins (#2267).

BRIEFING:

On Thursday, November 17, 2005, at approximately 0536 hours, a person later identified as Vanessa Facen jumped through a second story window of a residence at (b)(5)(A) Terracina Circle in Spring Valley. Facen was naked when he jumped through the window and he fell to the first story of the residence. The deputies from the Lemon Grove Sheriff Station responded to the incident and they took Facen into custody at gunpoint. Facen became cooperative with the deputies and he was taken into custody for a mental evaluation. Facen was also arrested for residential burglary. Facen was injured when he jumped through the window of the residence. Therefore, paramedics responded to the scene and they began to transport Facen to Grossmont Hospital for treatment of his injuries.

While Facen was being transported to Grossmont Hospital, Facen became violent in the rear of the ambulance. Due to Facen's violent behavior, a Deputy Sheriff sprayed Facen with Oleoresin Capsicum (OC). Facen continued to be violent and a La Mesa Police Officer responded to the scene with a taser. The La Mesa Police Officer deployed his taser and activated it twice on Facen. After Facen was subdued, the paramedics continued to transport him to Grossmont Hospital.

On Thursday, November 17, 2005, Facen was medically cleared by Grossmont Hospital staff for booking into the county jail. Facen was transported to the San Diego Central Jail for booking. The medical staff at San Diego Central Jail refused to accept Facen at the

jail and requested that Facen be taken to County Mental Health for an evaluation. While in the vehicle sally port at the San Diego Central Jail, Facen again became violent and he kicked the rear window out of a patrol vehicle. The deputies restrained Facen on a gurney and he went into Cardiac Arrest. Facen was transported to UCSD Medical Center for treatment. While Facen was at UCSD Medical Center, the hospital staff reported that Facen's organs were functioning.

On Monday, November 21, 2005, at approximately 1530 hours, Facen was pronounced deceased by Doctor (b)(5)(B).

INVESTIGATION: (Continued)

On Monday, November 21, 2005, at approximately 1705 hours, Detective Goldberg and I arrived at UCSD Medical Center where we contacted Medical Examiner Investigator (b)(5)(B) (#25), Medical Examiner Investigator (b)(5)(B) (#6), and Deputy Hudson (#1443) in the Medical Intensive Care Unit (MICU) on the 9th floor of UCSD Medical Center in San Diego. Facen was in MICU Bed #1. Forensic Evidence Technician (FET) (b)(5)(B) arrived at the hospital a short time later to take photographs of Facen. Medical Examiner Investigator (b)(5)(B) processed Facen's body for evidence.¹

Facen was dressed in a blue hospital gown and his left ankle was chained to the bed. Medical intervention was obvious. Facen had what appeared to be a band-aid on the big toe of his right foot, a bandage on his left middle finger, stitches on his left little finger, a bandage on his left forearm, two abrasions on his right knee, an abrasion on his upper right shin, and a scratch above his right hip.

Facen's head, hands, and feet were bagged for evidentiary purposes. Facen was placed inside a white vinyl body bag and the body bag was sealed at approximately 1825 hours with a red plastic tamper proof seal bearing number "0106117." HS&B Transportation Service representative (b)(5)(B) transported Facen's body to the San Diego County Medical Examiner's Office (ME's Case# 05-2270).

Detective Goldberg and I cleared from UCSD Medical Center at approximately 1835 hours.

On Wednesday, November 23, 2005, at approximately 0935 hours, Doctor (b)(5)(B) from the Medical Examiner's Office conducted an autopsy on Vanessa Facen's body (ME Case# 05-2270). The cause of death was later determined to be **HYPOXIC / ISCHEMIC ENCEPHALOPATHY DUE TO CARDIOPULMONARY ARREST**

¹ See Investigative Report by MEI Black for details.

DURING PRONE RESTRAINT FOR AGGRESSIVE AND PSYCHOTIC BEHAVIOR. The manner of death was determined to be ACCIDENT.² The Toxicology Report indicated Facen's blood tested presumptive positive for [REDACTED]
³

On Tuesday, November 29, 2005, at approximately 0855 hours, I arrived at the Lemon Grove Sheriff Station and met with FET [REDACTED] and FET [REDACTED]. FET [REDACTED] took photographs of patrol vehicle #20130 (License# 1170616), which was parked in the rear parking lot at the station. Facen had been transported from Grossmont Hospital to San Diego Central Jail in the patrol vehicle on November 17, 2005. Facen damaged the patrol vehicle during an incident that occurred in the vehicle sally port of the San Diego Central Jail.

The following damage to patrol vehicle #20130 was noted:

1. The left rear door window was smashed out. Glass was seen on the left rear floorboard of the vehicle. (As seen in the two photographs below.)

² See autopsy report by Doctor [REDACTED] for details.

³ See Toxicology Report from the Medical Examiner's Office for details.

7. What appeared to be spittle was on the small window of the left rear door. (As seen in the photograph below.)

On Wednesday, February 01, 2006, (b)(5)(B) of the Medical Examiner's Office faxed me a copy of the laboratory report from Grossmont Hospital and UCSD Medical Center in reference to Facen. Based on the laboratory report from Grossmont Hospital, it appeared Facen's urine (which was collected on November 17, 2005) tested presumptive positive for (b)(5)(C). Based on the laboratory report from UCSD Medical Center, it appeared Facen's urine (which was collected on November 17, 2005) tested presumptive positive for (b)(5)(C).

The investigation also revealed that a phlebotomist, LVN (b)(5)(B), from American Forensic Nurses collected a sample of blood from Facen while Facen was at Grossmont Hospital. The blood specimen was tested by Pacific Toxicology Laboratories and a laboratory report was generated. I obtained a copy of the laboratory report and I saw that the results of the drug panel were all negative. The drug panel included the following drugs:

1. Amphetamines
 - a. Amphetamine
 - b. Methamphetamine

-
- 2. Methyleneidioxymethamphetamine
 - 3. Cocaine
 - a. Cocaine
 - b. Benzoylecgonine
 - 4. Opiates
 - a. Codeine
 - b. Morphine

I obtained a cassette tape that contained the two 911 calls made to the Sheriff's Communication Center in reference to Facen entering the residence at (b)(5)(A) Terracina Circle in Spring Valley. The callers were identified as being (b)(5)(B) and (b)(5)(B) from (b)(5)(A) Terracina Circle in Spring Valley. I transferred the two 911 calls from the cassette tape to a digital recorder. I then transferred the digital recording to an access controlled server on the Sheriff's Department computer network. I later transferred the digital recording from the Sheriff's Department computer network onto a compact disc. I later placed the compact disc and the cassette tape into Sheriff's Evidence. The Sheriff's Communication Center was unable to provide a recording of the radio traffic due to an equipment malfunction.

A check of Vanessa Facen's Criminal History revealed that (b)(5)(C)
(b)(5)(C)
(b)(5)(C).

On Monday, November 21, 2005, at approximately 1630, I was contacted by the San Diego Sheriff's Communications Center and asked to respond to UCSD hospital, in San Diego. I arrived at approximately 1730 and met Sheriff's Homicide Detective W. ALTENHOF. This incident occurred at San Diego Central Jail and the suspect was transported to UCSD hospital.

After the briefing and under the direction of Detective ALTENHOF, I proceeded to take overall and specific photographs of the suspect VANESSA FACEN. I finished and left UCSD at approximately 1845. I took all photographs with a Nikon N80 camera, a 24-85 variable lens and Kodak 200 ISO film. I released two CD's with thirty-six color images to Detective ALTENHOF.

AUTOPSY OF VANESSA FACEN:

On Wednesday 11-23-2005, at 0935 hours, Detective Altenhof and I attended an autopsy at the San Diego County Medical Examiner's Office. Dr. (b)(5)(B) performed the autopsy on the body of Vanessa Facen. Medical Examiners number 05-02270. Forensic Autopsy Assistant (b)(5)(B) of the Medical Examiner's Office and Forensic Evidence Technician (b)(5)(B) of the Sheriff's Crime Lab were also in attendance. FET (b)(5)(B) collected the appropriate evidence and took photographs.

A white body bag sealed with red tag #0106117 was found on the medical examiners table. Upon breaking the seal and opening the bag, the decedent was found in a supine position wrapped in a white sheet. The sheet was removed revealing the decedent's remains.

The decedent's height was recorded as 69 inches and weight was 196 pounds.

During the external examination, the decedent was wearing a blue hospital gown. Dr. (b)(5)(B) removed the hospital gown. FET (b)(5)(B) seized the clothing item. Dr. (b)(5)(B) noted a contusion on Facen's right upper arm and numerous abrasions on the body.

An internal examination was conducted of Facen's body. During the autopsy, blood and a portion of a rib bone were removed from the body. FET (b)(5)(B) seized the items.

At the conclusion of the autopsy, FET (b)(5)(B) took possession of all the evidence and later placed the items into evidence at the Sheriff's Crime Laboratory. Dr. (b)(5)(B) was unable to determine the cause of death at this time. The results are pending toxicology and laboratory results.

EVIDENCE:

See evidence list composed by FET (b)(5)(B).

INVESTIGATIVE NARRATIVE

Decedent: Vanessa Facen

Antemortem Events:

The following information was provided by the San Diego Sheriff Office (SDSO) Detectives Altenhof #1874 and Detective Goldberg #1110 on 11/21/2005 at 1655 hours while at University of California San Diego Medical Center in the Medical Intensive Care Unit (MICU). More information was obtained by Investigator [REDACTED] (b)(5)(B) #6 and Detective Altenhof #1874 during a telephone conversation on 11/22/2005. On 11/17/2005 at 0536 hours Deputies were dispatched to [REDACTED] (b)(5)(A) Terracina Circle for a prowler who broke through a 2nd story window, fell to the first floor, and was running around naked and bleeding in the house. It was not known how she gained access to the window. Deputies arrived minutes later and arrested the nude decedent at gun point and placed her on a 72 hour psychiatric hold. Due to lacerations on her arms from breaking the house window, she was transported via paramedics to Sharp Grossmont Hospital with a Deputy in the back of the ambulance. She became violent and combative during the transport on the freeway. The ambulance made a stop on the side of the freeway where she was pepper sprayed twice and locked inside. She proceeded to kick out a window of the ambulance. The La Mesa Police Dept. (LMPD) was requested as their officers carried Tazers. When LMPD officers arrived the decedent remained non-compliant. She was "tazed" with instructions to cooperate each time but refused to do so until the fourth stun. They arrived at Sharp Grossmont Hospital Emergency Room and the decedent's arms were treated and she became combative again. She was sedated, restrained and a spit sock was placed over her head. She later became compliant with medical staff and the spit sock was removed.

The decedent was discharged to the Deputies from Sharp Grossmont. The legs were secured with leg-chains and arms secured to a waist chain. While enroute to the Correctional Detention Facility (CDF), the decedent began kicking the floor board of the patrol vehicle. They arrived at the CDF sally port at 1657 hours and the decedent appeared calm. She became agitated and began to kick the cage of the patrol car while attempting to spit through the sock. She then removed the spit sock using the cage of the vehicle. She was pepper sprayed again but it had no effect and began to spit inside the vehicle. The deputies requested two bed sheets to put over her head to prevent being spat on. A second Deputy assisted with the removal and she was then pulled out of the driver side passenger door. She remained aggressive and non-compliant and was struck with a baton to the thigh and bicep. Deputies removed the sheet to replace the spit sock. She was then placed prone on the floor and handcuffed behind her back. While struggling she was placed prone onto a gurney and pressure was placed to the legs, head and torso to control her movement. After a few minutes of struggling she became unresponsive and pulseless. Paramedics arrived and took her to UCSD Medical Center Emergency Room.

The detectives also provided additional information that the decedent had [REDACTED]

(b)(5)(C)

Past Medical History and Surgery:

The following information was obtained by the decedent's mother, Diane Facen during a personal interview on 11/21/2005 at 1730 hours at the hospital. The decedent had been born a male. She had her name legally changed and began living as a female at the age of 20. She began taking hormones 10 years ago. The decedent was noted to take a prescribed medication. The decedent's mother declined to discuss any mental issues.

The decedent's mother called the Medical Examiner's Office on 11/23/2005 and advised that her daughter was prescribed premarin 0.9 mg once a day per Dr. [REDACTED] (b)(5)(B). The prescription was filled on 11/1/2005.

Medical Intervention and Hospitalization:

The following information was provided by (b)(5)(B) Registered Nurse and from medical records from UCSD Medical Center on 11/21/2005 while at the MICU. The decedent was brought into the emergency room on 11/17/2005 from the downtown CDF unresponsive. The decedent was brought into the ER via paramedics and successfully resuscitated. Lab results showed she tested positive to a/an unknown benzodiazapene(s). The decedent was then intubated and later transferred to the MICU while artificially ventilated. A computed tomography (CT) scan was done on 11/17/2005 and 11/19/2005 and showed no visible perfusion intracranially. The pattern was consistent with brain death. The decedent was finally pronounced brain dead on 11/21/2005 at 1530 hours per Dr. (b)(5)(B). She was taken off the artificial ventilator with family at bedside. Registered Nurse (b)(5)(B) confirmed the death at 1530 hours.

The following information was provided by Sharp Grossmont Hospital medical records that were faxed to the Medical Examiner's Office on 11/23/2005. The decedent was brought to the emergency room via American Medical Response Medic 254 on 11/17/2005 at 0627 hours. She was given versed in the field and arrived semi-conscious. The initial chief complaint was combativeness and possible head trauma along with psychosis. In the emergency room she appeared conscious, disoriented, combative and drowsy and did not answer to questions. She had multiple lacerations to her left hand and forearm. Two Tazer darts that were on her back were removed by the attending physician. She was noted to be (b)(5)(C). She was given sedatives and placed in four point leather restraints with a spit sock over her head for being combative and spitting on staff during her stay in the emergency room. Her wounds were treated and she was discharged into the custody of the Sheriff Deputies. The lab results indicated that she tested positive for marijuana and benzodiazepines. Her primary diagnosis was lacerated finger and secondary was psychosis.

Body and Scene Description:

The following was observed by this investigator and Investigator (b)(5)(B) #6 on 11/21/2005 at 1800 hours while at UCSD Medical Center Medical Intensive Care Unit (MICU). The decedent was lying on her back on a hospital bed in bed #1 covered from the neck to the feet with numerous white sheets and a white plastic cover underneath. She was wearing only a hospital gown and had numerous medical artifacts attached. The decedent was intubated with an endotracheal tube that connected to a ventilator. Intravenous lines were in place on her bilateral hands. The torso had electrode pads and a Foley catheter was evident in the penis. The left ankle was chained to the hospital bed. Bilateral lower extremities were covered by venodynes.

An exam revealed that the decedent was warm to the touch with no dependent lividity. No petechia was noted to the eyes. The breasts presented like that of a female. There were numerous healing superficial cuts to the right torso, right thigh, and upper extremities. The left "pinky" finger had apparent stitches and bandages were apparent to the left middle finger, wrist and inner forearm. There were no other visible signs of trauma noted to the body.

The decedent had white paper bags placed on each hand at 1815 hours, each foot at 1818 hours, and brown paper bag over the head at 1819 hours. She was then placed in a new white sheet and placed into a new white vinyl body pouch and red-sealed #0106117 at 1825 hours by HSB crew (b)(5)(B) and transported directly to the Medical Examiner's Office.

Special Requests:

San Diego Sheriff Office (SDSO) Homicide Team #2 would like to have the autopsy conducted on 11/23/05 Wednesday at 0930 hours.

Identification:

The decedent was identified by SDSO Deputy R. Huson #1650.

Tissue Donation:

Not pursued.

Antemortem Blood:

5 clear-top vials were collected and brought to the Medical Examiner's Office and properly secured.

Public Administrator:

Not applicable.

Other Important Factors:

None.

AUTOPSY REPORT

Name of deceased: VANESSA FACEN ME#: 05-2270
Place of residence: (b)(5)(A) TERRANCIA CIRCLE Age: 35 YEARS
SPRING VALLEY, CA 91977
Place of death: UCSD MEDICAL CENTER Sex: MALE
SAN DIEGO, CA 92103
Date and time of death: NOVEMBER 21, 2005; 1530 HOURS
Date and time of autopsy: NOVEMBER 23, 2005; 0930 HOURS - 1340 HOURS
CAUSE OF DEATH: HYPOXIC/ISCHEMIC ENCEPHALOPATHY
Due To: CARDIOPULMONARY ARREST DURING PRONE RESTRAINT
FOR AGGRESSIVE AND PSYCHOTIC BEHAVIOR
MANNER OF DEATH: ACCIDENT

AUTOPSY SUMMARY:

- I. History of cardiopulmonary arrest following prone restraint for aggressive and psychotic behavior.
 - A. Multiple healing abrasions and superficial glass cuts of skin of face, back and extremities.
 - B. Large contusion of right upper arm.
 - C. Subcutaneous and muscular hemorrhages of back and right retroperitoneum.
 - D. Thin focal scalp hemorrhage.
 - E. Evidence of post-arrest hypoxia and shock.
 1. Diffuse hypoxic encephalopathy.
 2. Pulmonary edema and congestion with early pneumonia.
 3. Hepatic necrosis (shock liver).
- II. Remote thoracotomy with lobectomy of left lower lung.
 - A. Diffuse left fibrous pleural adhesions.
 - B. Elevation of left hemidiaphragm.
- III. General edema of organs and tissues.

IV. See also Toxicology Report.

V. Medical therapeutic intervention (hospitalized 4 days).

OPINION: According to the Investigative Report, available medical records and additional information, this 35 year old man was apparently living as a woman and taking hormones. On the morning of November 17, 2005, he broke through the glass window of a residence in his complex. He was naked, delusional and combative. He was restrained and handcuffed by Sheriff's deputies. While in the ambulance, he again was combative and began spitting, saying that he was [REDACTED] (b)(5)(C). He was pepper sprayed with little effect. He kicked out the back window of the ambulance, and was subsequently shot several times with tasers. His wounds, including cut wounds of the left forearm and hand, were treated at the emergency room of Sharp Grossmont Hospital. At that time he was noted to be agitated and appeared psychotic and delusional.

After release from the emergency room, he was taken to the detention facility in waist and ankle chains, but again became agitated and was spitting. While in the patrol car he kicked the passenger window hard enough to break the glass. He was pepper sprayed again with no effect, and was removed from the car with the aid of a sheet. During the struggle he was hit with a baton in the thigh and upper arm. His hands were handcuffed behind his back. He was placed prone on the ground and leg chains were applied. He was then placed prone on a gurney, and at least one deputy was applying pressure to his back to keep him down. Another deputy applied weight on the legs. Shortly thereafter he stopped struggling and was noted to be unresponsive. No pulse or respiration was detected and resuscitated efforts were begun. He was taken to UCSD Medical Center. He was resuscitated, but remained comatose throughout his hospitalization. Ultimately he was determined to be brain dead. Toxicological testing of urine at the hospital was positive for benzodiazepines. His medical history was reportedly negative for [REDACTED] (b)(5)(C). He was [REDACTED] (b)(5)(C).

The autopsy findings were consistent with the history. There were multiple superficial cutaneous skin injuries, many of which could be from glass. In addition, there was a large contusion of his right upper arm. He had focal muscular hemorrhages of the back and retroperitoneum and one area of scalp hemorrhage. There were no fractures or injuries of the internal organs. There were no petechiae or other evidence of neck compression. Additional findings included diffuse hypoxic encephalopathy of the brain and pulmonary changes resulting from his arrest and subsequent coma. Postmortem toxicologic studies revealed only the presence of

cannabinoids. Benzodiazepines and common drugs of abuse were not detected in antemortem blood from 11/18/05.

Based on the findings and the history and circumstances of the death as currently known, it is classified as an accident.

(b)(5)(B)

[REDACTED] D.
Deputy Medical Examiner

Date signed: 1/27/06

IDENTIFICATION: The body is received in a white plastic body bag closed with a red seal numbered 0106117. Through the loop is a Medical Examiner's band with the name Vanessa Facen and the case number 05-2270.

WITNESSES: Detectives Altenhof, Enyeart and Forensic Specialist (b)(5)(B) from the San Diego Sheriff's Office Homicide Division and laboratory are present. I am assisted by Forensic Autopsy Assistant (b)(5)(B).

WITNESSING PATHOLOGIST:

(b)(5)(B)

M.D.

Deputy Medical Examiner

Date signed: 27 Jan 06

CLOTHING AND INITIAL OBSERVATIONS: There is a sheet around the body and paper bags are on the head, hands and feet. The body is clad only in a blue print hospital gown.

EVIDENCE OF MEDICAL INTERVENTION: The mouth contains an endotracheal intubation tube and an orogastric tube, both of which are taped in place. Written on the tape below the nose is: "#7.5 ETT 27 cm @ teeth 11/19/05 @ 2200 K.F." There is a bandage over the chin. In the left side of the neck is a triple lumen central intravenous line. There is a bandage covering a needle puncture on the right side of the neck. EKG pads are on the torso.

An intravascular line is in the anterolateral right wrist. A pulse oximeter is on the right middle finger. There is an intravenous line in the dorsal left hand. There is a bandage covering needle punctures in the anterolateral left wrist. The left wrist has two hospital bands; one of which has the name VANESSA FACEN on it, and the other has the letters NKA. There is a bandage around the dorsal left forearm. There is some tape in the medial left antecubital fossa. A bandage is around the left middle finger. There are needle punctures in both antecubital fossae.

The urethra contains a catheter connected to a urinary collecting bag containing a couple hundred milliliters of clear yellow-tan urine. There is a square bandage on the upper back just right of the midline labeled 11/18 0330. A bandage is on the dorsolateral right lower leg. Inflatable anti-embolism devices are around both lower legs. There is a bandage over the right large toe.

EXTERNAL DESCRIPTION

GENERAL: The body is that of a well developed, well nourished, nonembalmed Black male with the listed age of 35 years, measuring 69 inches in length and weighing 196 pounds as received.

HEAD AND NECK: The head hair is black and curly measuring 7 to 8 inches in length on top. The facial hair is shaved. The sclerae are off-white, and the irides are brown. There is mild corneal opacification. No scleral or conjunctival petechiae are noted. The nose and ears are normally formed. The earlobes are pierced. The mouth shows the natural teeth to be intact and contains a moderate amount of opaque tan mucoid fluid. The tongue is slightly edematous and protruding. There is no intraoral evidence of injury. The neck is straight and symmetric.

TORSO: The thorax and back are symmetrical. The abdomen is round and soft. The breasts appear feminine and are without palpable masses. The external genitalia are those of a circumcised adult male with palpable testes.

EXTREMITIES: The extremities have no edema, deformities or amputations. The toenails are short, and there are tiny remnants of white polish on the distal large toenails.

Most of the fingernails are artificial and broken so that the ends are short and irregular. The left index and fifth finger and the right middle fingernails do not have the artificial nails on them and the natural nails are short. The left thumbnail is the only artificial nail that is fully intact and has a 5/16 inch overhang. The artificial nails have a design on them with white coloring distally and foci of metallic glitter.

BODY MARKINGS: There is a well healed thoracotomy scar on the lateral left side of the chest extending to the back, which is slightly curved and measures 10 inches in length. On the left upper chest above the breast is an irregular 5/8 x 3/8 inch slightly hypertrophic scar. There is an irregular superficial 1-1/4 x 3/4 inch scar on the right knee. On the lateral left side of the mid back are two slightly irregular scars measuring 3/4 to 1 inch in length. These are below the thoracotomy scar. On the dorsal left thigh is a curved transverse very superficial 2-1/2 inch linear scar. No wrist scars, needle tracks or tattoos are noted.

POSTMORTEM CHANGES: Rigor mortis is generally well developed, but partially broken in the arms. Lividity is posterior, unfixed and relatively difficult to discern because of the decedent's dark skin color.

EXTERNAL EVIDENCE OF INJURY

Note: Many of the injuries described as superficial linear scabbed abrasions or scrapes may represent superficial glass cuts.

HEAD:

On the left side of the forehead are three linear slightly irregular, almost vertical, dark red-brown scabbed abrasions. These measure 1/2 to 7/8 inch in length. There is a pinpoint scab near one of these.

Just below the left brow and on the left side of the nose are several irregular superficial partly denuded abrasions. The one beneath the brow measures 1/2 x 3/16 inch, and those on the nose are up to 1/8 inch in maximum dimension.

Just below the left nostril is an irregular 1/4 x 3/16 inch denuded skin erosion.

Just below the lower lip in the midline is a vertical crescent-shaped 3/8 inch laceration or cut. The edges are fairly sharp. The injury undermines slightly to the right and is about 3/8 inch in depth. It does not extend into the inner oral mucosa.

On the inner oral mucosa of the left side of the lower lip is a very superficial rounded mucosal tear, which probably relates to medical intervention and measures about 1/4 inch.

On the lateral right upper eyelid is a superficial partly scabbed irregular 1/8 inch abrasion.

NECK:

There are no external injuries on the neck.

ANTERIOR CHEST AND ABDOMEN:

No external injuries noted.

BACK:

On the right upper back near the shoulder is an angulated thin denuded red abrasion or superficial cut. The upper portion measures 1 x 3/8 inch, and the lower diagonal extension is 2-1/2 inches in length. Just medial to this is a diagonal very thin linear 1-3/4 inch red-brown scabbed abrasion.

On the left upper lateral back extending to the shoulder are several very superficial linear red-brown scrapes which are up to 2-1/2 inches in length. Similar scrapes are seen on the right

side of the back more medially and inferiorly. These are generally horizontal and up to 1/2 inch in length.

On the dorsal left shoulder are two slightly diagonal parallel linear discontinuous superficial scabs measuring 3/4 - 1 inch in length. Below these on the left upper back is a tiny superficial abrasion.

On the upper back just right of the midline is a denuded pink 1/4 x 1/8 inch abrasion which has pink scarred edges.

On the mid back 1-3/4 inches left of the midline is an ovoid partly scabbed 1/8 inch abrasion.

On the left lower back are a couple of irregular 3/16 - 1/8 inch red-brown scabbed abrasions. Above these is a 1-3/4 inch horizontal linear discontinuous scabbed abrasion.

On the right lower lateral back in the flank area are several mostly diagonal red-brown linear abraded marks that are up to 3 inches in length. Below these on the posterior hip are two parallel linear diagonal scrapes measuring 1-3/4 and 2-1/4 inches in length. There are several additional tiny very superficial linear scabbed scrapes on the lateral right buttock, which are up to about 1/2 inch in length.

On the dorsal left buttock is a 1/2 x 5/16 inch dark red skin blister, which appears to be from an abrasion.

LEFT ARM:

On the medial left elbow is an irregular superficial roughly ovoid 1/2 x 3/8 inch dark red-brown scabbed abrasion. There are a few other tiny scabbed abrasions around the elbow measuring up to 3/8 inch in maximum dimension. More medially is a horizontal linear 5/8 inch dark red-brown scabbed abrasion.

On the dorsomedial proximal left forearm is a horizontal superficial 1-1/2 inch linear scabbed abrasion. Adjacent to this are several other tiny superficial linear scrapes measuring up to 3/4 inch in length.

On the dorsolateral proximal left forearm is a more irregular slightly curved 9/16 x 1/16 inch partly scabbed abrasion.

On the dorsal mid left forearm is a horizontal 2-3/8 inch linear cut or scrape which is partly scabbed and contains several sutures. The wound is superficial extending only into the subcutaneous facial about 1/16 inch.

On the dorsomedial distal left forearm and wrist are several mostly horizontal, superficial linear scabbed scrapes. The longest is slightly diagonal and curved with a total length of 2-1/2 inches. The others range from 5/16 to 1 inch.

On the anterior left forearm just below and over the antecubital fossa are several tiny punctate and linear red-brown scabbed scrapes which range up to 3/8 inch in length. Below these is a diagonal slightly curved very superficial linear 1-1/8 inch red-brown scabbed scrape. This has a faint surrounding area of blue-purple contusion measuring 2 x 1-1/4 inches.

On the lateral left wrist are several adjacent linear scabbed red-brown scrapes, which are slightly diagonal from horizontal and cover an area up to 2-3/8 inch in length and 3/8 inch in width.

On the anterior left wrist is a horizontal superficial 7/8 inch linear bifurcated cut. A similar parallel superficial linear 1 inch scrape is on the adjacent base of the hand. Slightly distal to this is a horizontal linear superficial 1/2 inch horizontal scrape.

On the dorsolateral base of the left hand are a couple of similar linear scrapes measuring 3/8 - 1/2 inch in length.

On the dorsomedial left hand is another linear scabbed scrape measuring 1/2 inch. This is slightly irregular.

On the lateral edge of the left thumb proximal to the joint is a slightly curved horizontal 5/8 inch scabbed linear scrape. A 1/8 inch very superficial linear scrape is distal to this.

On the lateral left middle finger is an angulated 1-inch sutured laceration or cut. This is at the level of the proximal joint and there is surrounding skin discoloration, swelling and slippage. The distal finger pad is swollen and slightly ecchymotic. The wound is about 1/4 inch in depth and extends nearly to the bone.

On the palmar side of the left fifth finger is a vertical slightly curved 1-3/8 inch red-brown linear scabbed scrape. Lateral to this at the proximal joint is a similar diagonal 3/8 inch scrape. Medial to it is a sutured slightly curved 1/2 inch cut which is about 1/8 inch in maximum depth and undermines posteromedially.

RIGHT ARM:

On the lateral right upper arm is a diffuse area of dark red-purple contusion. It measures approximately 10 x 6 inches, but is ill-defined because of the decedent's skin color and because posteriorly it blends with the lividity. Within this area are

several small mostly linear and horizontal dark red-brown scabbed scrapes measuring up to 1/4 inch in length.

On the dorsolateral proximal right upper arm slightly above the axilla and partly overlapping the contusion is a diagonal 3 inch linear red-brown scab. Below this is a parallel discontinuous 3/4 inch linear scrape. There are several other tiny linear scrapes on the dorsal right arm that measure up to 3/4 inch in length.

Medial to the right elbow is an irregular denuded 3/8 x 1/8 inch partly scabbed abrasion.

On the anterior right upper arm is a slightly diagonal from horizontal 3/4 inch linear cut, which is partly scabbed and through the epidermis. Below this is a very thin superficial 3/4 inch linear scabbed scrape.

On the anteromedial forearm just below the antecubital fossa is a diagonal discontinuous scabbed 3-1/4 inch linear scrape. Intersecting this is a similar 1-1/2 inch scrape. There are several tiny similar linear scrapes around this. Medially is an almost vertical linear 1 inch scabbed scrape, and there is a 3/4 inch scrape below this.

There appears to be diffuse, but ill-defined ecchymosis of the anteromedial right forearm, although this may relate to medical intervention.

On the lateral distal right forearm are a couple of horizontal very superficial linear scabbed scrapes measuring 3/8 to 1/2 inch in length.

On the anteromedial right wrist is an irregular 3/4 x 1/2 inch dark tan-brown scabbed abrasion. There are a few tiny superficial abrasions on the anterior wrist and base of the hand near this, which are up to 1/4 inch in maximum dimension.

On the dorsomedial right wrist are two series of very superficial, scabbed, parallel linear scrapes, which measure about 1/2 inch in length. The parallel marks are 1/16 inch apart and the two series of marks are approximately 1/4 inch apart. There are suggestive of marks from handcuffs.

On the palm of the right hand is a pinpoint scabbed abrasion.

On the right middle finger on the palmar surface of the proximal joint is a vertical linear 1/4 inch superficial cut. On the palmar surface of the finger over the distal tip are a 5/8 inch series of several tiny superficial brown linear scabbed scrapes.

On the dorsal right wrist and hand are several additional scattered dark red-brown, superficial, mostly linear scrapes, which are up to 1/4 inch in length.

On the lateral edge of the index finger near the distal joint is a 1/8 x 1/16 inch red abrasion.

LEFT LEG:

On the dorsolateral proximal left thigh just below the gluteal fold are several vertical slightly curved very superficial linear red-brown scrapes measuring up to 1-3/4 inch in length.

On the anterior left upper thigh are two parallel discontinuous dark red-brown scabbed scrapes. These measure about 1-1/4 inches in length and are 1/4 inch apart. Around these are several additional tiny superficial linear scabbed scrapes. Below these are a couple of deeper, more irregular, scabbed abrasions measuring 1/4 and 3/8 inch in length.

On the slightly more medial and distal anterior left thigh is a diagonal 2-1/4 inch discontinuous linear red-brown scab. Medial to this is an ill-defined 2-1/2 x 1-1/4 inch blue-purple contusion.

Also on the thigh more medially are discontinuous additional linear horizontal scabbed scrapes, which are up to 1-1/2 inches in length.

There are several tiny irregular scabbed abrasions on the left upper knee measuring up to 1/4 inch in maximum dimension.

On the left shin is a vertical linear 3/16 inch red-brown scabbed abrasion. There is a 1/16 inch similar scab on the anterolateral distal lower leg.

On the dorsomedial distal left lower leg are several tiny irregular red-brown scabbed abrasions measuring up to 1/4 inch in maximum dimension.

On the dorsal left ankle is a 1/4 inch irregular superficial abrasion. On the medial left ankle are a couple of pinpoint brown scabs.

RIGHT LEG:

On the proximal anterior right thigh is a slightly curved diagonal from vertical 3-3/8 inch linear scabbed scrape.

On the anterolateral proximal right thigh extending nearly to the hip are multiple linear discontinuous superficial scabbed

scratches, some of which are vertical and some horizontal. They measure from 1/16 to 3 inches in length.

On the lateral right knee is a horizontal dried dark red-brown 5/8 x 1/8 inch abrasion.

On the anterolateral right lower leg are several adjacent tiny red-brown abrasions measuring up to 1/8 inch in maximum dimension.

On the dorsal right lower leg are a few slightly deeper irregular partly scabbed abrasions. These measure up to 3/4 inch and are in the vicinity of one of the bandages.

On the dorsolateral right lower leg extending to the ankle are several irregular and linear dried red-brown superficial scabbed abrasions. They measure up to 5/8 inch in maximum dimension.

On the medial top of the base of the right large toe are three partly scabbed linear superficial cuts measuring 1/8 - 1/4 inch in length. More distally is an irregular 1/16 inch red-brown abrasion.

INTERNAL EXAMINATION

BODY CAVITIES: There are diffuse fibrous pleural adhesions around the left lung. The right pleural cavity has no adhesions and contains about 50 ml of tan fluid. The pericardial sac is intact, free of adhesions and contains a moderate amount of tan liquid. The diaphragm is intact. The left hemidiaphragm is elevated by the adhesions, and there are adhesions to the underlying spleen. The peritoneal cavity contains a very small amount of free tan fluid. The organs are in their normal anatomic positions. There is general edema of the organs and tissues. The abdominal subcutaneous fat measures 2.5 cm in thickness.

CARDIOVASCULAR SYSTEM: The heart weighs 420 grams and is slightly enlarged. The epicardium is smooth. The muscular right ventricular wall measures 0.3 cm in thickness, and the left measures up to 1.4 cm. The myocardium is pink-brown, soft and uniform. The ventricular septum is not disproportionately thickened and has no defects. The endocardium is smooth. The valves have a normal caliber with thin intact leaflets of normal number. There are no vegetations or calcifications. The foramen ovale is closed.

The coronary arteries have a right dominant branching pattern and are all widely patent. There is mild focal atherosclerosis with a maximum narrowing of about 25% in the proximal left anterior

descending branch. The aorta has minimal, if any, atherosclerosis. There are no aneurysms or thromboses.

RESPIRATORY SYSTEM: The right lung weighs 1100 grams, and the left 580 grams. There are diffuse fibrous adhesions around the left lung, and it appears that the lower lobe has been removed. The pleura of the right lung is smooth. There is an accessory lobation of the right lower lobe. The subpleural parenchyma is dark red-purple with a slightly lighter anterior edge and a small amount of anthracotic pigment.

The bronchial tree and pulmonary arteries are otherwise patent. The bronchial mucosa on the right is mottled dark red, and the bronchi contain foamy tan fluid bilaterally. The lung parenchyma is dark maroon and moist exuding large amounts of tan and bloody fluid. The right lung is heavy and relatively airless, but there is no gross consolidation. No tumors, hemorrhages or other focal lesions are noted within the lungs. There is a caseous granulomatous-like node in the hilar region of the left lung.

HEPATOBILIARY SYSTEM: The liver weighs 1540 grams. The capsule is smooth and thin. The right lobe has a focal area of capsular thickening and opacification. The parenchyma is dusky red-tan, moderately firm, moist and uniform. There is no gross fibrosis, tumor, hemorrhage or other focal lesions. The gallbladder is intact with a large amount of bile and no stones. The wall is thin and uniform.

The pancreas has a normal size, shape and location. The parenchyma is dark pink-tan, firm and shows the usual lobulated structure without tumor or hemorrhage.

HEMOLYMPHATIC SYSTEM: The 140 gram spleen is not enlarged. The capsule has focal fibrous adhesions. The parenchyma is dark red-purple, firm and uniform. There is mild nonspecific enlargement of the retroperitoneal lymph nodes. There is moderate enlargement of the inguinal lymph nodes, which are pink-tan and uniform on sectioning. They measure up to 2.5 cm in maximum dimension. The thymus gland is partly replaced by fatty tissue. The intravascular blood is dark red and mostly liquid.

GASTROINTESTINAL SYSTEM: The orogastric tube is traced to and looped within the stomach. The stomach otherwise contains about 150 ml of watery tan mucoid fluid without food, pills or other solid matter. The gastric mucosa is intact. There is mild edema of the bowels, which are otherwise unremarkable to inspection and palpation. The appendix is intact and normally located.

UROGENITAL SYSTEM: The kidneys weigh 210 grams each. The cortical surfaces are smooth. The parenchyma is purple-brown and shows a normal corticomedullary structure with general edema. There are no tumors or other focal lesions. The pelvis and ureters are not dilated or thickened.

The bladder contains the catheter and is otherwise empty. The bladder wall is not hypertrophied. The mucosa is variably pink-tan and congested.

The prostate gland is not enlarged and has no nodularities or tumors. There is a small hemorrhagic focus on one side. The testes are grossly unremarkable.

ENDOCRINE SYSTEM: The thyroid gland is not enlarged and the lobes are symmetrical. The parenchyma is dark red-purple, firm, glossy and uniform. The adrenals are of normal size and slightly softer than usual. They have thin uniform yellow-tan cortices and red-brown medullae without hemorrhage or tumor. The pituitary is grossly unremarkable.

MUSCULOSKELETAL SYSTEM: The musculoskeletal system is well developed and grossly free of fractures or deformities. The ribs are not brittle. The skeletal muscle is slightly edematous.

Dissection of the back shows a superficial 2-1/4 x 1-1/4 inch muscular hemorrhage over the mid back centered just left of the midline. Below this in the midline over the lower thoracic spine is an irregular 2 x 3/4 inch subcutaneous hemorrhage.

On the right lower back centered approximately 2 inches right of the midline is a deeper irregular muscular hemorrhage measuring 4-1/2 x 1 inch. This overlies the lower ribs. At about the same level just right of the spine is a very thin hemorrhage of the medial musculature, which covers a vertical area of 7-1/2 inches and extends to about waist level. The hemorrhage has a width of up to about 1/2 inch.

There is soft tissue hemorrhage in the lateral right psoas muscle extending down to the level of the hip and covering a total area of about 20.0 cm. It is thin and up to about 3.0 cm in width. This appears to be at the same level as hemorrhage in the back. The hemorrhage partly surrounds the right 12th rib, but the ribs are free of fracture.

NECK: The tongue has no hemorrhages or other focal lesions. There is soft tissue hemorrhage on the right side of the neck, which appear to be associated with the needle puncture. Similar

hemorrhage on the left appears to be associated with the catheter, which is traced to the left subclavian vein.

The anterior neck muscles are pink-tan and have general edema, but no hemorrhages. The hyoid bone is intact with slightly mobile joints, but no evidence of fracture. The thyroid, cricoid and tracheal cartilages are all intact and without fracture. The endotracheal tube is in its proper place. The larynx and trachea are otherwise patent and have a smooth moist congested mucosa. There is blanching in the mid trachea. The airway contains small amounts of bloody mucus, but there is no evidence of obstruction. The cervical vertebrae have no hypermobility or crepitance.

HEAD: The top of the head in the parietal region has a thin subgaleal and subperiosteal hemorrhage measuring up to 7.0 x 4.0 cm. This is centered within the midline. No other focal lesions are noted. There is general edema of the scalp. The skull is slightly thicker than average and has no fractures. There is a yellow discoloration of the inner table of the skull. The dura is intact, and there are no epidural or subdural hemorrhages.

CENTRAL NERVOUS SYSTEM: The unfixed brain weighs 1500 grams. The brain is diffusely softened and swollen with narrowing of the sulci. The cerebral hemispheres are symmetrical. There is cerebellar tonsils are soft and hemorrhagic around the posterior medulla. The leptomeninges are congested, but otherwise thin and clear without underlying hemorrhages. There are no cerebral contusions. The cerebral arteries at the base of the brain have minimal, if any, atherosclerosis.

Sections through the cerebral hemispheres show a uniform cortical ribbon. There is general softening and edema, but the internal structures are symmetrical and appear normally formed. The ventricles are not enlarged. There is congestion of the small vasculature, but no intracerebral hemorrhages, tumors, infarcts or other focal lesions. The brainstem and cerebellum are also soft. Sections through the brain stem and cerebellum reveal no additional abnormalities.

SPECIMENS

TOXICOLOGY: Samples of central blood, peripheral blood, vitreous, urine (from bag), liver and stomach contents are saved.

HISTOLOGY: Representative sections of organs and tissues are retained. Sections of heart, lungs, liver, kidney and brain (hippocampus) are submitted for microscopic examination.

PHOTOGRAPHS: Numerous external body photographs are taken by the Sheriff's Office and Medical Examiner's Office. Photographs are also taken of some of the internal hemorrhages.

X-RAYS: None.

MICROSCOPIC EXAMINATION

HEART (2 sections): No significant histopathology.

LUNGS (2 sections RIGHT, 1 section LEFT): The lungs have congestion and increased septal cellularity with scattered chronic interstitial inflammation. There are variable intra-alveolar macrophages and desquamated cells. In addition there are foci of acute inflammation (pneumonia).

LIVER (1 section): There is diffuse autolysis/necrosis with centrilobular structural breakdown and inflammation. There appears to be some mild portal inflammation without fibrosis. No steatosis is noted.

KIDNEY (1 section): Autolysis of proximal tubules and edema. There are a few small foci of chronic inflammation and minimal fibrosis.

BRAIN (HIPPOCAMPUS, 1 section): There are diffuse ischemic cell changes of the neurons.

TOXICOLOGY REPORT

Name: **FACEN, Vanessa**

Medical Examiner Number: **05-02270**

Date of Death: **11/21/2005**

Pathologist: **(b)(5)(B), M.D.**

Specimens Received: **Antemortem Blood, Central Blood, Gastric, Liver, Peripheral Blood, Urine, Vitreous**

<u>Test Name (Method of Analysis)</u>	<u>Specimen Tested</u>	<u>Result</u>
<u>Alcohol Analysis (GC)</u> Alcohol (Ethanol) Acetone, Methanol, Isopropanol	Antemortem Blood	Not Detected Not Detected
<u>Drugs of Abuse Screen (ELISA)</u> Cocaine metabolites Opiates Amphetamines Benzodiazepines Fentanyl Cannabinoids	Antemortem Blood	Not Detected Not Detected Not Detected Not Detected Not Detected Presumptive Positive
<u>Base Screen (GC/MS)</u>	Peripheral Blood	Not Detected
<u>Benzodiazepines (HPLC-DAD)</u>	*Antemortem Blood	Not Detected
<u>Cannabinoids (GC/MS)</u> Delta 9-THC Delta 9-Carboxy THC	Peripheral Blood	not detected 14 ng/mL

Antemortem blood was collected on 11/17/2005 at 1831 hours.

*Antemortem blood was collected on 11/18/2005 at 0800 hours.

End Results

Comments:

1. There were insufficient antemortem specimens available for further testing.
2. These results would be consistent with the use of cannabis.

MEDIC RUN SHEET (1.3)

Page 03

NOTES FOR RUN #: 2342299

I:
AMR 254 RESPONDED C-3 TO A PRIVATE RESIDENCE FOR A 35 Y/O TRANSVESTITE MALE FOUND LAYING PRONE ON THE LIVING ROOM FLOOR IN MILD DISTRESS, A&OXO, W/ HALLUCINATIONS. S.M. ME-16 & SO ON SCENE PTA.

C:
ALOC W/ LACS TO HEAD, BACK & EXTREMITIES S/P JUMPING THROUGH A WINDOW

H:
PER OWNERS OF THE RESIDENCE- THE PT (UNKNOWN TO THE RESIDENTS) HAD JUMPED UP ONTO THE ROOF OF THE GARAGE & THEN JUMPED THROUGH A SECOND STORY WINDOW. LAW ENFORCEMENT WAS CALLED IMMEDIATELY TO THE SCENE. THE SHERIFF'S DEPUTIES FOUND THE PT IN THE LIVING ROOM FULLY NUDE BLEEDING FROM A LAC TO HER CHIN & THE TOP OF HER HEAD. THE SHERIFFS ACTIVATED EMS. UPON ARRIVAL, PT WAS HANDCUFFED IN THE PRONE POSITION & WAS BEING EXTREMELY COMBATIVE. THE PT ADMITTED TO BEING (b)(5)(C). THE PROPER BST EQUIPMENT WAS USED. THE PT APPEARED TO BE UNDER THE INFLUENCE OF SOME UNKNOWN CONTROLLED SUBSTANCE & WAS HAVING HALLUCINATIONS. THE PT WOULD NOT ANSWER ANY QUESTIONS APPROPRIATELY, & CONTINUALLY THREATENED THE SHERIFF'S DEPUTIES, THE FIRE DEPARTMENT, & EMS THAT HE WOULD GIVE US (b)(5)(C) IF GIVEN THE CHANCE. BYSTANDERS ON SCENE STATED THAT THEY DID NOT KNOW WHO THE PT WAS.

A:
UNABLE TO FULLY ASSESS THE PT DUE TO HIS EXTREME COMBATIVE NATURE. ANY TIME PERSONNEL GOT CLOSE TO THE PT HE WOULD BECOME VERY AGITATED & THREATEN TO (b)(5)(C) ON US. PT APPEARED TO HAVE MULTIPLE SUPERFICIAL LACS TO HIS CHIN, HEAD, EXTREMITIES & BACK. BLEEDING WAS CONTROLLED UPON ARRIVAL. THE LAC TO THE PT'S CHIN CONT'D TO MILDLY BLEED. PT'S V/S WERE UNOBTAINABLE DUE TO HIS EXTREME COMBATIVE NATURE. UNKNOWN LOC. B- 24 S/E NL. R- A&OXO, W/ HALLUCINATIONS. I- ?. M-X4. NEURO INTACT. S/S WNL. (-)N/V. (-)INCONTINENCE. NO OTHER VISIBLE SIGNS OF TRAUMA.

R:
INTIAL ASSESSMENT. PT'S MOUTH WAS PROTECTED W/ A HEPA SHIELD INTIALLY. PT WAS SHEETED W/ A BLANKET FROM THE GROUND TO THE GURNEY. PT PLACED IN A SUPINE POSITION & THEN BOTH HANDS WERE HANDCUFFED TO THE GURNEY BY SO. THE PT WAS THEN PLACED IN 4 POINT SOFT RESTRAINTS. PT CONT'D TO BE COMBATIVE THE ENTIRE TIME EN ROUTE. SO ACCOMPANIED THE PT IN THE AMBULANCE. PT WAS GIVEN 10MG VERSED IM. PT WAS INTIALLY GOING TO BE TRANSPORTED TO SHARP MEMORIAL FOR FURTHER ASSESSMENT, BUT DUE TO HIS COMBATIVE NATURE THE PT WAS TAKEN TO GROSSMONT ED WHICH WAS THE CLOSEST.

T:
WHILE EN ROUTE TO THE HOSPITAL THE PT BECAME EVEN MORE COMBATIVE. HE WAS ABLE TO BREAK THROUGH THE SOFT RESTRAINTS. HE WAS ALSO ABLE TO SHAKE THE PROTECTIVE SHIELD FROM HIS FACE. THE PT THEN BEGAN TO MASTURBATE. WHEN THE PT WAS ASKED TO PLEASE STOP MASTURBATING IN THE BACK OF THE AMBULANCE HE BEGAN TO (b)(5)(C) AT THE SO & MYSELF. AT THAT TIME THE AMBULANCE WAS PULLED TO THE FAR RIGHT SHOULDER OF THE FREEWAY & THE SO & MYSELF EXITED THE AMBULANCE LEAVING THE COMBATIVE PT INSIDE. THE SO ACTIVATED A COVER NOW & WITHIN MINUTES SEVERAL POLICE CARES ARRIVED AT THE SCENE. THE SO HAD PEPPER SPRAYED THE PT SEVERAL TIMES UPON THERE ARRIVAL. ANOTHER ALS AMBULANCE WAS ACTIVATED FOR MORE PROTECTIVE GEAR & FOR POSSIBLE ASSISTANCE IN TRANSPORTATION OF THE PT DUE TO THE HEAVY AMOUNT OF PEPPER SPRAY RELEASED IN THE AMBULANCE. DURING THAT TIME THE PT WAS ABLE TO LIFT THE GURNEY OFF THE HARNESS & KICK OUT THE LEFT REAR WINDOW OF THE AMBULANCE W/ HIS RIGHT FOOT. THE PT WAS THEN SHOT W/ A TAVER GUN BY THE SO & THEN PHYSICALLY HELD DOWN BY SEVERAL OFFICERS. THE PT STILL REMAINED VERY COMBATIVE. A BHPO WAS THEN ASKED FOR & GRANTED TO GIVE 10MG OF VERSED IM. SEVERAL MINUTES AFTER MED ADMINISTRATION THE PT CALMED DOWN. WITH THE PT STILL BEING PHYSICALLY RESTRAINED THE PT WAS TRANSPORTED IN THE ORIGINAL AMBULANCE TO GROSSMONT ED. PT CARE WAS TRANSFERED TO AN ED RN.

CHIEF COMPLAINT:

Altered mental status, psychotic.

MODE OF ARRIVAL:

Medic/police.

MOBILITY:

Stretcher restrained.

TIME OF ARRIVAL:

0720 hours

HISTORY OF PRESENT ILLNESS:

This is a 35-year-old male who goes by the name of Vanessa. The patient arrives disoriented. Initially unresponsive to painless stimuli and then fighting her restraints. She was reportedly found by police at a scene where she had jumped through a window. She was initially covered in blood and then was aggressive, combative and fought restraints. According to police, she was saving people from an earthquake and buying their houses. She told them at the scene that she is (b)(5)(C). She arrives with 2 "sit masks" in place, hyperventilating and fighting against the restraints. She reports no areas of pain. She has obvious lacerations to her left hand and forearm.

PAST MEDICAL HISTORY:

(b)(5)(C)

SURGICAL HISTORY:

(b)(5)(C)

SOCIAL HISTORY:

Nondrinker. Denies drugs. Denies smoking.

[REDACTED] (b)(5)(C)

PHYSICAL EXAMINATION:

VITAL SIGNS: [REDACTED] (b)(5)(C)

[REDACTED] (b)(5)(C)

GENERAL: The patient is restrained in 4 points secondary to her aggressive behavior.

HEENT: [REDACTED] (b)(5)(C) Eyes PERRLA. [REDACTED] (b)(5)(C)

[REDACTED] (b)(5)(C) Oropharynx, superficial tongue laceration.

Otherwise moist mucous membranes. Face, superficial laceration.

NECK: [REDACTED] (b)(5)(C)

CHEST: [REDACTED] (b)(5)(C)

CARDIAC: [REDACTED] (b)(5)(C)

ABDOMEN: [REDACTED] (b)(5)(C)

BACK: [REDACTED] (b)(5)(C)

[REDACTED] (b)(5)(C)

ABDOMEN: Soft and nontender. [REDACTED] (b)(5)(C)

EXTREMITIES: All extremities are uninjured except for the left upper extremity. Left upper extremity, the patient has lacerations to her left middle and pinky finger. Middle finger is across her PIP joint. It is U-shaped. The patient has full range of motion of her finger. Left pinky finger the patient has a 1 cm laceration that is U-shaped with full range of motion of her pinky finger as well. There appears to be no foreign body in

D: (b)(5)(B) [REDACTED], MD

FACEN, VANESSA

[REDACTED] (b)(5)(C)

the wound.

SKIN: Multiple abrasions, significant lacerations to left forearm and hand.

NEUROLOGIC: Disoriented. Tangential in thoughts. She stated she was getting ready for an earthquake, warning her neighbors, and buying their homes, and she decided she could fly. She stated she thought she could fly one previous time and was injured during that episode. Otherwise, neurologically nonfocal.

TEST RESULTS:

(b)(5)(C)

CT head without contrast is negative. Left hand, complete, also fourth finger proximal phalanx fracture. (b)(5)(C)

(b)(5)(C)

EMERGENCY ROOM COURSE AND DECISION MAKING:

The patient is a 35-year-old transgender male who presents to the emergency department with altered mental status. The patient arrives appearing psychotic and delusional. The patient apparently believes that the world is going to end by natural disaster. She states there is going to be an earthquake, and she was going around saving her neighbors. The patient states she was gathering money to buy houses for \$10. She then began warning people this morning and eventually went through her neighbors window to tell them of the earthquake. She had a questionable loss of consciousness with multiple abrasions and lacerations.

The patient's hand lacerations were sutured with 4-0 nylon. She had full range of motion. They were anesthetized locally. The lacerations were of the middle and pinky finger. The wounds were approximated well with simple interrupted sutures.

After evaluating the x-ray, I did reevaluate the patient's left ring finger. There does not appear to be any tenderness here. I doubt fracture. The patient states she did have a previous fracture in this area. Left forearm laceration was again approximated with simple interrupted 4-0 nylon. Wound approximation was approximately 4 cm. It involved skin and subcutaneous tissue.

The patient has remained neurologic nonfocal throughout her stay here, however she has continued to have tangential thinking, delusional thinking, but denies any suicidal or homicidal

D: (b)(5)(B) MD

FACEN, VANESSA

(b)(5)(C)

ideation. The patient will be put under the continued care of the San Diego Police Department. According to them, she will have a psych evaluation and treatment under their observation. The patient has been medically cleared. She has been IV rehydrated, and her heart rate has decreased. Her vital signs have been stable.

DISCHARGE INSTRUCTIONS:

Follow up with the family doctor or Sharp Physician Referral Service as soon as possible. The patient or individual responsible for the patient was advised to return to the Emergency Department immediately should the patient's condition deteriorate. The patient appears to be stable at the time of re-evaluation and discharge. The patient or the individual responsible for the patient's care appears to understand the aftercare instructions and plan for further medical workup. The diagnostic studies were discussed, and the rationale leading to the tentative diagnoses explained.

DISPOSITION:

Home under the care of San Diego Police Department.

DIAGNOSES:

1. Psychosis.
2. Laceration forearm approximately 4 cm.
3. Lacerations left middle finger approximately 1.5 cm.
4. Laceration left pinky finger approximately 1 cm.
5. Multiple superficial lacerations not requiring sutures.
6. [REDACTED] (b)(5)(C)
7. History of [REDACTED] (b)(5)(C)
[REDACTED] (b)(5)(C).

D: (b)(5)(B) [REDACTED], MD

FACEN, VANESSA
(b)(5)(C)

CONDITION:
Stable.

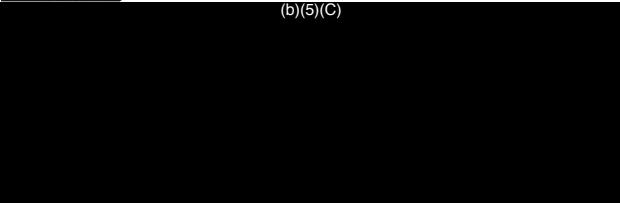

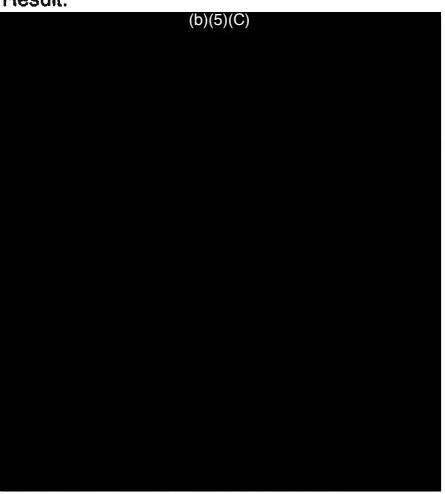

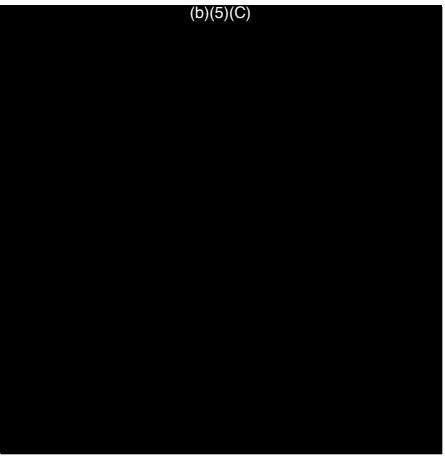

Please note: Unless specifically stated, all procedures mentioned, tests done, and medications given were performed/interpreted by the emergency physician, or were under the direct supervision of the emergency physician.

Assessment Sheet

MR # [REDACTED] Account # 80398998 Unit Code: B CRIT-
ICAL
Name: Facen, Vanessa
AKA: ,
Phone: (b)(5)(A)
Address: [REDACTED] TERRACIAN CR, SPRING VALLEY, CA 91977
Sex: Male DOB: (b)(5)(A) Age: 35

07:17 11/17/2005 - Vital Signs -- (b)(5)(B) RN
(b)(5)(C)

07:17 11/17/2005 - Pain Assessment -- (b)(5)(B) RN
Currently in Pain: Unknown

07:18 11/17/2005 - Vital Signs -- (b)(5)(B) RN
(b)(5)(C)

07:19 11/17/2005 - Oximetry -- (b)(5)(B) RN
Pulse Oximetry %: [REDACTED]
Oxygen Therapy: Room Air

07:20 11/17/2005 - Primary Survey -- (b)(5)(B) RN
Airway: Intact
Breathing: Present
Breath Sounds - Left: Breath sounds - Clear
Breath Sounds - Right: Breath sounds - Clear
Circulation: Pulses present rate, rhythm wnl
Radial - L: Present
Radial - R: Present
Dorsal Pedis - L: Present
Dorsal Pedis - R: Present
Exposure: "Monitor alarms set and confirmed, Pt in gown, Warm blankets
Note: unable to asses neuro strength after sedation given in route

07:28 11/17/2005 - Secondary Survey -- (b)(5)(B) RN
HEENT: Abrasion, Laceration, Contusion
Chest: No pain or trauma
Abdomen/Flank: Abdomen flat, soft, nontender
Pelvis: Stable to palpation
Genitourinary: No pain, trauma, bleeding
Extremities: See focused exam
Back: Log rolled for exam, Contusion, Laceration
Heart sounds: S1 - normal, S2 - normal
Bowel sounds - Left: Present
Bowel sounds - Right: Present
Note: pt. found by medics covered in blood after walking through 2 plate glass windows in a house. Pt. naked on scene, combative and screaming (b)(5)(C) Other history unknown. Pt. broke through hand cuffs in route, given 10mg versed and put in 4 point restraints. Pt. is transexual with breast implants. Pt. semi-conscious on arrival and calm after medication

07:29 11/17/2005 - Change Nurse -- (b)(5)(B) RN
Primary Nurse: (b)(5)(B)
Secondary Nurse: UNASSIGNED
Responsible Nurse: (b)(5)(B)

07:33 11/17/2005 - Trauma/Lacerations -- (b)(5)(B) RN
Note: pt. has multiple lacerations and abrasions all over body. Laceration to lower lip, skin avulsion to scalp. No drainage from ears, no battle sign. Multiple small abrasions to both hands and arms, lac to 5th left finger and 3rd left finger. Skin avulsion to right scapula and back of right hip. Two puncture wounds to back from taser gun. Removed by Dr. (b)(5)(B) on arrival. Multiple abrasions and small lacs to lower extremities. Pt.'s pupils 3 and sluggish. Responsive to painful stimuli, pt. medicated with versed in field.

07:36 11/17/2005 - Reassessment -- (b)(5)(B) RN
Note: TRIAGE, PRIMARY AND SECONDARY ASSESSMENTS CHARTED ABOVE BY (b)(5)(B), RN, NOT (b)(5)(B) RN

07:52 11/17/2005 - Document IV Placement -- (b)(5)(B) RN

Site #: Location 1
Site: Right Antecubital
Solution: NS
Catheter size: 18g
Solution Amount: 1000mL
Rate: W.O.

07:54 11/17/2005 - Foley -- (b)(5)(B) RN
Indications: for analysis
Education/Consent: supplies gathered
Equipment and Supplies: (b)(5)(C)

Post procedure assessment: clear yellow urine returned

07:57 11/17/2005 - Reassessment -- (b)(5)(B) RN
Note: While inserting foley, pt. woke up and asked me if I was trying to "kill her" Pt. reassured that she was in the hospital and that we were trying to help her, pt then stated, "well I could spit on you" Pt. then started spitting at me as I turned my back and exited the room. Security outside alerted and after proper face protection applied, we entered room and put spit mask on pt. Security and officers held pt. down until medicated with ativan

07:57 11/17/2005 - Medication Administered -- (b)(5)(B) RN
Medication: Lorazepam
Dose: 2
Units: mg
Increments: 1
Route: IVP
Note: 2mg given for sedation

08:06 11/17/2005 - Supporting Documentation -- (b)(5)(B) MD
Ordering Physician: (b)(5)(B)

08:06 11/17/2005 - Medication Administered -- (b)(5)(B) RN
Medication: Ativan
Dose: 2
Units: mg
Route: IVP

08:06 11/17/2005 - Supporting Documentation -- (b)(5)(B) RN
Ordering Physician: (b)(5)(B)

08:06 11/17/2005 - Medication Ordered -- (b)(5)(B) RN
Medication: Ativan
Dose: 2
Units: mg
Route: IVP
Special Instructions: Read back of verbal order by RN/LVN

08:07 11/17/2005 - Reassessment -- (b)(5)(B) RN
Note: Pt. remedicated with ativan for sedation, 1st dose not effective.

08:09 11/17/2005 - Vital Signs -- (b)(5)(B) RN
Temp: (b)(5)(C)

Primary: Laceration finger
Secondary: Psychosis
15:14 11/17/2005 - Discharge Instructions --(b)(5)(B) MD
Discharge Instruction: *GROSSMONT STANDARD
15:20 11/17/2005 - Restraints --(b)(5)(B) RN
Check restraints: Pt Observed Safely and securely, Every 15 Minutes
15:25 11/17/2005 - Dressings --(b)(5)(B) RN
Indications: Sutured wound
Education/Consent: Hand washing technique, Measures to prevent
infection, Procedure explained to patient, Proper disposal of con-
taminated material, Supplies gathered
Equipment and Supplies: bacitracin
Process/procedure: site cleaned, wound cleaned with saline
Post procedure assessment: Edges of wound well approximated, Distal
neurovascular intact, Patient comfort improved
Performed by: (b)(5)(B)
Note: dressing with telfa and ace wrap
15:32 11/17/2005 - Subjective/HPI --(b)(5)(B)
Note: Psychsocial: 35 y/o male (with breast implants) brought in by
ambulance and sheriffs after bizarre behavior at home. Pt. states
he was trying to save neighbors from an impending earthquake and
per report went through sliding glass doors as well as kicking out
the ambulance window. Pt. was covered in blood at the scene and
was combative with the sheriff and spit blood upon them while tell-
ing them he was (b)(5)(C). Pt. continued with combative
behavior in the ER and spit on the nurse. Met w/ pt. after hours
later after suturing completed by the physician. Pt. is oriented to
person and place, disheveled appearance, speech is pressured and
rapid, poor historian, grandiose mood, tangential thoughts with
delusional content. Pt. denies AH/VH. Pt. denies suicide ideation.
Pt. continues to maintain story about saving elderly neighbors from
the earthquake. Pt. thoughts shift rapidly with grandiose content,
states he is a publisher among other talents. Pt. denies current
substance abuse but states he has smoked marijuana and used
crystal meth. note con.
15:35 11/17/2005 - Subjective/HPI --(b)(5)(B)
Note: Psychsocial: Pt. denies psych. medication, states "they wanted
to put me on Prozac and lithium would make me kill myself." Per

ACC #: (b)(5)(C) SITE: GR ORD MD: [REDACTED]
EXAM: CT HEAD WO CON 70450/STAT

CPT-4 CODE(S) : 70450

HISTORY: head trauma

REASON FOR EXAM: Head trauma.

TECHNIQUE: Contiguous transaxial slices of the head were obtained from the foramen magnum through the vertex without the use of intravenous contrast.

FINDINGS: There are no extraaxial masses nor fluid collections. There is no intraparenchymal hematoma or subarachnoid hemorrhage. The gray/white matter attenuation pattern is normal. There is no mass nor edema. The ventricles are of normal size and configuration. The skull base and orbits are intact. The fourth ventricle is midline. Mild inflammatory changes evident in the right aspect of the sphenoid.

IMPRESSION:

Brain without abnormality. Mild inflammatory changes evident in the right aspect of the sphenoid.

218-58-91

Facen, Vanessa

(b)(5)(C)

35 M

Dictating Practitioner: (b)(5)(B), M.D.

Attending Physician: (b)(5)(B), M.D.

Date of Admission: 11/17/2005

Date of Discharge: 11/21/2005

DISCHARGE DIAGNOSES: (1) Anoxic brain injury. (2) Rhabdomyolysis. (3) Hypernatremia. (4) Hypoxic respiratory failure. (5) Sepsis. (6) Gastrointestinal bleed. (7) Acute renal failure.

CONSULTS: (1) Neurologic. (2) Gastroenterology. (3) Neurosurgery. (4) Toxicology.

PROCEDURES: (1) Multiple CT scans of the head. (2) Multiple chest x-rays. (3) Vascular flow study of the brain.

PRESENT ILLNESS: The patient is a 35-year-old transgender individual with a past medical history of psychiatric illness who was arrested previously for breaking and entering and in the process developed limb lacerations. The patient was at that time taken to Grossmont Hospital and discharged to police custody. In jail, the patient was noted to become agitated and needed to be put in four-point restraints by police and was apparently "hog tied." The patient then was noted to become apneic and pulseless for one minute. CPR was at that time initiated and EMS was called. In the field, the patient received both atropine and epinephrine with successful resuscitation at that time. The patient then was bolused 4 L normal saline and given 1 amp of D50 and brought to UCSD ER.

PAST MEDICAL HISTORY: (b)(5)(C)

ALLERGIES: NO KNOWN DRUG ALLERGIES.

MEDICATIONS: Unknown.

SOCIAL/FAMILY HISTORY: Unable to be obtained at this time.

Facen, Vanessa

(b)(5)(B)

35 M

ADMISSION PHYSICAL EXAMINATION:

(b)(5)(C)

INITIAL LABORATORY STUDIES:

(b)(5)(C)

(b)(5)(C)

HOSPITAL COURSE: The patient was admitted to the ICU following a cardiopulmonary arrest in the field of unclear etiology. Upon admission, the patient showed evidence of hypoxic respiratory failure and additionally had evidence of anoxic brain injury with negative corneal reflexes, unreactive pupils and no withdraw to pain. Following admission the patient was noted to be in rhabdomyolysis with elevated CPK in the 1000s. She was aggressively hydrated with IV fluids and also received bicarbonate for acidemia and worsening renal failure. There was evidence of anoxic brain injury and Neurology was consulted. A head CT scan showed diffuse brain edema in the process of herniation with a mild subarachnoid hemorrhage at which time Neurosurgery was called and no intervention was pursued at that time. Neurology evaluation was pursued given her evidence of anoxic brain injury. A diagnosis of brain death could not be made given significant metabolic abnormalities, at which time a cerebral perfusion scan was done to examine evidence of brain damage. Additionally, in the setting of the patient's rhabdomyolysis, she was also noted to have a large GI bleed at

(b)(5)(B)

35 M

which time GI was consulted. The patient was resuscitated with FFP and also started on a lansoprazole continuous infusion but endoscopy was held given other active medical issues including a non ST elevation MI with elevated troponins. Medical toxicology was also consulted given the suspicious circumstances in which the patient arrived at UCSD in police custody. Their recommendations included analyzing the urine for sympathomimetic and phenylethylamines. Toxicology workup was otherwise negative. Throughout the patient's hospitalization her mental status did not improve. A brain perfusion scan was performed on November 21 which showed absence of blood flow to the cerebrum and cerebellum consistent with brain death. There had been some difficulty contacting family up until that point. Given the findings of no cerebral perfusion and no evidence of any brain function, a conclusion of brain death was made. The patient was then declared dead at 3:30 p.m. on November 21, 2005, with two attendings concurring that the patient was clinically brain dead.

DISPOSITION: The patient expired.

PROBABLE CAUSE DECLARATION FOR WARRANTLESS ARREST

SUSPECT NAME : Facen, Vanessa		DOB: (b)(5)(A)
STATION: Lemon Grove	FAX: (b)(5)(A)	CASE #: 05080923-L
CHARGE(S): PC 459		
ARREST LOCATION: (b)(5)(A) Terracina Crl. Spring Valley	DATE OF ARREST: 11/17/2005	TIME OF ARREST: 0536
ARRESTING DEPUTY: D. Spillman		ARJIS: 0779

FACTS ESTABLISHING ELEMENT(S) OF THE MOST SERIOUS OFFENSE AND IDENTIFICATION OF SUSPECT:

The suspect who was later identified as, Vanessa Facen (DOB (b)(5)(A)) forcefully broke through the victim's bedroom window. Facen, while bleeding, ran throughout the victim's house damaging property with lockstains. Facen spit blood on deputies and cut a deputy.

Facen was arrested 459 P.C., 594(b)(1) P.C., 69 P.C., and 243.9 P.C.

Facen was transported to Grossmont Hospital for lacerations sustained while breaking through the victim's window.

I declare under penalty of perjury that the foregoing is true and correct to the best of my information and belief.

Executed on: 11-17-05 in the County of San Diego, State of California by: D. Spillman 0779
(SIGNATURE)

JUDICIAL REVIEW:

On the basis of the foregoing declaration and attached reports, I hereby determine that there IS IS NOT probable cause to believe this defendant has committed a crime.

Deputy Pata (#0864)

On November 17, 2005, at approximately 0536 hours, Deputy Pata responded to a call of a burglary in progress at (b)(5)(A) Terracina Circle in Spring Valley. According to CAD, Deputy Pata was the first unit that arrived at the residence. The following questions arose during a review of this case:

What did Deputy Pata do at the residence?

What did Deputy Pata observe while at the residence?

What was Facen doing when he was inside of the residence? (Describe his actions.)

What was Facen saying?

How was Facen acting?

Did it appear Facen was under the influence of drugs or did it appear he was 5150? And if so, why?

What did Deputy Pata see happen during the ambulance incident?

Did Deputy Pata see Facen damage the ambulance?

How did the deputies gain control of Facen inside of the ambulance?

How was Facen secured after the deputies entered the ambulance?

Did Facen get injured during this incident?

Deputy Davis (#0402)

On November 17, 2005, at approximately 0536 hours, Deputy Davis responded to a call of a burglary in progress at (b)(5)(A) Terracina Circle in Spring Valley. The following questions arose during a review of this case:

What did Deputy Davis do at the residence?

What did Deputy Davis observe while at the residence?

What was Facen doing when he was inside of the residence? (Describe his actions.)

What was Facen saying?

How was Facen acting?

Did it appear Facen was under the influence of drugs or did it appear he was 5150? And if so, why?

How was Facen handcuffed to the gurney? (one wrist or two?)

How was Facen strapped down on the gurney? (Was it just his legs or was his torso strapped down also?)

Did Facen get injured during this incident?

Did anyone take photographs of the damage to the ambulance?

Deputy Feistel (#4714)

On November 17, 2005, Deputy Feistel responded to a call of a burglary in progress at (b)(5)(A) Terracina Circle in Spring Valley. Deputy Feistel also responded to the incident in the ambulance on the freeway. However, I did not receive a report from Deputy Feistel in reference to the incident. Deputy Feistel should write a report in reference to what occurred at the residence and what occurred during the ambulance incident. The report should answer some of the following questions:

What did Deputy Feistel do at the residence?

What did Deputy Feistel observe while at the residence?

What was Facen doing when he was inside of the residence? (Describe his actions.)

What was Facen saying?

How was Facen acting?

Did it appear Facen was under the influence of drugs or did it appear he was 5150? And if so, why?

What did Deputy Feistel see happen during the ambulance incident?

Did Deputy Feistel see Facen damage the ambulance?

How did the deputies gain control of Facen inside of the ambulance?

Did Facen get injured during this incident?

Did Deputy Feistel use any force during the entire incident?

Deputy Farr (#2618)

On November 17, 2005, at approximately 1633 hours, Deputy Farr transported Facen from Grossmont Hospital to SDCJ. After Deputy Farr arrived at the jail, Facen became violent and force was used. The following questions arose during a review of this case:

While Facen was in the back seat of the patrol vehicle, Deputy Farr sprayed Facen with OC. How many bursts of OC were sprayed and for how long?

When Deputy Farr put the bed sheet over Facen's head, Facen lunged at Deputy Farr. Deputy Farr used his baton in a jabbing motion. Did the baton make contact with Facen? And if so, where was Facen struck and how many times was he struck?

As Facen was being removed from the patrol vehicle, Facen attempted to sit up and Deputy Farr hit Facen in the area of the bicep and thigh. Which thigh and bicep was hit with the baton and how many times?

Facen was on the gurney and Deputy Farr used his knee to prevent Facen from falling off the gurney. What part of Facen's body did Deputy Farr place his knee on and how long did Deputy Farr apply the downward pressure?

Deputy Hunrichs (#0985)

On November 17, 2005, at approximately 1633 hours, Deputy Hunrichs followed behind Deputy Farr as Deputy Farr transported Facen from Grossmont Hospital to SDCJ. After Deputy Farr arrived at the jail, Facen became violent and force was used. The following questions arose during a review of this case:

Deputy Hunrichs wrote that Facen was subdued and a bed sheet was placed over Facen's head. How was Facen subdued? Was any force used to subdue Facen? And if so, what type of force was used? How was Facen removed from the vehicle? Did the bed sheet restrict Facen's breathing at anytime during the incident?

Deputy Hunrichs wrote in his report that Facen continued to struggle as they tried to control him. How was Facen struggling and how was control gained?

Did Deputy Hunrichs have any direct contact with Facen, such as pulling him from the vehicle by the leg chains or controlling his head during the incident?

Deputy Hunrichs wrote in his report that Facen stopped struggling. Where was Facen when he stopped struggling? Was he on the ground or was he on a gurney? Did Deputy Hunrichs assist with placing Facen on the gurney? Did Deputy Hunrichs control Facen's head when Facen was on the gurney? If so, how?

Subject: CASE #05080923-L (FACEN)

Rick,

I received the request for Deputy Madden to provide information regarding the Homicide Investigation on Vanessa Facen. Deputy Madden is away at training until Friday night. I spoke with him on the phone tonight and he said he did not have any part of the report (the incident apparently took place on the prior working). When Madden's team came on shift, he was asked to go to the scene. Madden said he took approximately 20 pictures who brought Facen to SDCJ. He was told by Nosal that a DR

VICTIM INFORMATION:

Vanessa Facen (DOB) [REDACTED] (b)(5)(A)

(b)(5)(A)

(b)(5)(B)

SYNOPSIS:

On Thursday, November 17, 2005, at approximately 0127 hours, a reporting party called the Sheriff's Communication Center and complained of loud music coming from [REDACTED] Terracina Circle in Spring Valley. A deputy arrived at the location and reported that it was quiet on arrival.

On Thursday, November 17, 2005, at approximately 0434 hours, a reporting party called the Sheriff's Communication Center and complained of loud music coming from [REDACTED] Terracina Circle in Spring Valley. A deputy arrived at the location and reported that it was quiet on arrival.

On Thursday, November 17, 2005, at approximately 0434 hours, a reporting party called the Sheriff's Communication Center and reported that an unknown Black female adult came to her door at [REDACTED] Terracina Circle in Spring Valley and asked the resident for money. The resident stated the female was only wearing a jacket. The female was last seen walking up the hill towards Crofton Street. The deputies responded to the area and they were unable to locate the Black female adult.

On Thursday, November 17, 2005, at approximately 0521 hours, a reporting party called the Sheriff's Communication Center and reported that a barely clothed female from [REDACTED] Terracina Circle was walking around outside her residence. The female was screaming that the world was coming to an end and she was asking for people to bring her pills. The female took the cover off of the reporting party's vehicle and she went back inside of her residence at [REDACTED] Terracina Circle. The female was banging her cupboards and talking very loudly. Deputies were dispatched to the call for service.

On Thursday, November 17, 2005, at approximately 0536 hours, the resident at [REDACTED] Terracina Circle called the Sheriff's Communication Center to report that the female

Page 2 of 3

neighbor from (b)(5)(A) Terracina Circle broke through her front door and was in her house. (It was later determined the neighbor broke through the resident's bedroom window.) The resident told the Sheriff's Dispatcher that the female neighbor was lying on the couch bleeding. The reporting party told the dispatcher it sounded like her husband was arguing with the neighbor. The neighbor was heard yelling the word "Satan." The deputies arrived at the location and arrested the neighbor for burglary. The neighbor from (b)(5)(A) Terracina Circle was later identified as Vanessa Facen. The paramedics were called to the scene and they began to transport Facen to Grossmont Hospital for treatment of the lacerations Facen sustained when she broke through the bedroom window.

On Thursday, November 17, 2005, at approximately 0619 hours, Facen became violent in the ambulance while en route to Grossmont Hospital. Facen broke the straps that were securing his legs and he sat up on the gurney. Facen refused to cooperate with the deputy and the paramedics inside of the ambulance. Facen began spitting at the deputy and the paramedics. Facen stated he had (b)(5)(C) and that he was going to give it to the deputy and the paramedics. The deputy ordered the ambulance driver to pull over to the side of the freeway (Northbound State Route 125 at Lemon Avenue) and the deputy called for immediate assistance. Facen continued to resist and spit at the deputy. The deputy applied two, three seconds bursts, of Oleoresin Capsicum (OC) spray to the area of Facen's face. The OC agent had little to no effect on Facen. Facen continued with his violent behavior and kicked out the rear window of the ambulance. La Mesa Police Officers arrived and Facen was shot with a taser gun. Facen, who was bleeding from his prior injuries, continued to be violent and the taser was applied an additional two times. Facen was eventually subdued and restrained to the gurney. The paramedics injected Facen with medication and the ambulance continued to transport Facen to Grossmont Hospital. After arriving at Grossmont Hospital, Facen again became violent and hospital staff administered intravenous drugs to sedate Facen.

On Thursday, November 17, 2005, at approximately 1633 hours, Facen was medically cleared by Grossmont Hospital staff for booking into the county jail. Facen was transported to the San Diego Central Jail for booking.

On Thursday, November 17, 2005, at approximately 1657 hours, Facen arrived at the jail in the rear seat of a patrol vehicle. Soon after arriving, Facen became agitated. Facen was yelling and he was kicking the cage area of the patrol vehicle. Facen attempted to remove a spit sock that was placed on him at Grossmont Hospital. The deputies attempted to subdue Facen, but he continually spat and kicked at them. A deputy sprayed Facen with OC spray, but the OC spray had no affect on Facen. Facen was able to move the spit sock above his mouth and nose. Facen spat on the interior portion of the vehicle and he spat at the deputies as they attempted to subdue him. During the process of

Page 3 of 3

gaining control of Facen, a deputy hit Facen several times in the areas of his thigh and bicep with a baton. Eventually, the deputies were able to gain control of Facen and he was removed from the patrol vehicle. Facen was placed face down on a gurney and he continued to struggle for a few minutes. After Facen stopped struggling, deputies realized that Facen stopped breathing and he did not have a pulse. CPR was initiated and paramedics were requested. Facen was transported to UCSD Hospital for treatment.

On Monday, November 21, 2005, at approximately 1530 hours, Facen was pronounced deceased by UCSD Doctor (b)(5)(B). Sheriff's Homicide was notified of the death and investigators responded to UCSD Hospital.

Medical Examiner (b)(5)(B) was at UCSD Hospital when I arrived. (b)(5)(B) checked the body for trauma and no obvious signs of trauma were seen. I saw bandages on Facen's left middle finger and left forearm. I also saw stitches on Facen's left little (pinky) finger and abrasions in the area of his right knee.

On Wednesday, November 23, 2005, at approximately 0935 hours, Doctor (b)(5)(B) of the Medical Examiner's Office conducted an autopsy on Facen's body (ME Case# 05-2270). The autopsy did not reveal any significant injuries causing the death of Facen. The cause and manner of death is pending laboratory and toxicological tests.

(b)(5)(A) TERRACINA CIRCLE, SPRING VALLEY

REPORTING OFFICER
SPILLMAN

PRIMARY VICTIM'S NAME

(b)(5)(B)

PRIMARY SUSPECT'S NAME
FACEN, VanessaDATE OF REPORT
11/17/2005TIME
05:36**SYNOPSIS:**

The suspect forcefully broke through the victim's bedroom window. The suspect, while bleeding, ran throughout the victim's house damaging property with bloodstains. The suspect spit blood on deputies and cut a deputy. The suspect was arrested and transported to Grossmont Hospital for cuts sustained while breaking through the victim's window.

ORIGIN:

On 11-17-05, at about 0536 hours Deputy DAVIS (0402), Deputy PATA (0864), Deputy LICUDINE (4666), Deputy FIESTEL (4714) and I received a radio call of a residential burglary in progress at (b)(5)(A) Terracina Circle, Spring Valley.

INVESTIGATION:**BACKGROUND INFORMATION:**

None.

Upon arrival I saw the front door of the above house open. I could hear my partners, who were inside the house, shouting "get down, get down." I entered the house and saw a black male, later identified as Vanessa FACEN, lying face down on the living room floor. FACEN was completely naked and had blood stains over most of his body. I could see FACEN was still bleeding from cut wounds. I saw blood scattered on the furniture and carpet in the house.

Deputy LICUDINE had her duty weapon pointed at FACEN. FACEN was not following deputy orders, to stay down on the floor. Deputy LICUDINE was eventually able to settle FACEN down and listen to her orders. As I prepared to handcuff FACEN he said, "I'm (b)(5)(C), I'm suppose to let you guys know I have (b)(5)(C), so I don't spread it." I put on my gloves and handcuffed FACEN.

We requested paramedics respond to the scene. Deputy DAVIS and I searched the residence for victims. We located the resident, (b)(5)(B) and her son locked in an upstairs bedroom. I escorted (b)(5)(B) and her son out of the house.

Paramedic Unit 257 arrived on scene. Paramedics and Deputy DAVIS transported FACEN to Grossmont Hospital.

I contacted the victim, (b)(5)(B), who told me the following:

CODE SECTION: 459 PC BURGLARY

CASE NUMBER:

05080923-L

REPORT DATE:

11/17/2005

STATEMENTS:**Statement of (b)(5)(B) (VICTIM):**

(b)(5)(B) is the resident at the above address. (b)(5)(B) called the Sheriff to report her house being burglarized.

(b)(5)(B) said at about 0530 hours, she heard a loud banging noise in her house. (b)(5)(B) said she came out of her upstairs bedroom and saw her neighbor FACEN "come crashing through the upstairs window." (b)(5)(B) ran into her bedroom and called 911. (b)(5)(B) said she pushed her dresser in front of her bedroom door. (b)(5)(B) said she could hear FACEN moving around the house and screaming. (b)(5)(B) said she stayed in her room until we escorted her out.

I walked through the house and took photos of the damage. I provided (b)(5)(B) the case number.

At about 0620 hours, I heard over my hand held radio, Deputy DAVIS called for code cover. DAVIS gave a location of northbound Hwy 125 and Lemon Avenue. Deputies had to use additional force to bring FACEN under control. FACEN kicked out the ambulance window. FACEN spit on deputies and dug his fingernails into Deputy LICUDINE's forearm. Deputy PATA sustained a small cut on his arm. Deputy LICUDINE and PATA went to seek medical attention for their injuries.

○ put the photos into Lemon Grove Evidence

EVIDENCE:

Photos

INJURIES:

Deputy LICUDINE was cut and spit on
Deputy PATA was cut

PROPERTY DAMAGE:

Broken windows.
Damaged furniture.
Damaged carpet.

ORIGIN:

On 11-17-05, at approximately 0536 hours, I responded to [REDACTED] Terracina Cir. as a cover deputy for a 5150 person. I arrived at approximately 0550 hours at the above address.

INVESTIGATION:

The subject, who was later identified as, Vanessa Facen was arrested by Deputy Spillman #0779. See Spillmans Arrest Report.

Facen was transported by ambulance to Grossmont Hospital with Deputy Davis #0402. While in route to the hospital, Davis called for Code Cover at approximately 0619 hours while he was northbound Hwy 125 and Lemon Ave. I arrived and saw the ambulance had pulled over to the shoulder and Facen was yelling and kicking inside the ambulance.

Facen was very agitated and was screaming and kicking every time people tried to open the ambulance door. Facen was a health risk to deputies and paramedics due to the fact he stated he was (b)(5)(C) and was covered in his own blood.

I opened the rear door to the ambulance and secured his right leg with both my hands. Facen continued to kick as deputies secured him to the gurney. I maintained control of his right leg while the ambulance continued to Grossmont Hospital.

SUSPECT (IF NAMED)

Facen, Vanessa

PROPERTY TAG NO. (S)

ORIGIN:

On 10-17-06, I was given a Use of Force Death Investigation follow-up form by Sheriff's Homicide Unit regarding, Vanessa Facen. Facen was arrested on 11-17-05 for 459 P.C. Burglary in which I was one of the first units on scene, (see case #05080923-L).

INVESTIGATION:

I arrived at (b)(5)(A) Terracina Cir. At approximately 0539 hours. I noticed the window on the second floor over the garage was broken. The front door had a steel security screen door that was locked and the front door behind the screen was open. I could hear a subject inside the residence screaming, but could not understand what he was saying. I went to the rear of the residence and looked through the glass sliding door which was locked. I saw a black male adult running back and fourth in the living room. The subject, who was later identified as Vanessa Facen, was naked and covered in blood.

I went back to the front door and saw Deputy Feistel #4714 asking Facen to open the front door. Facen approached the front door and was opening and then slamming the door closed repeatedly. Facen was still yelling making statements about God and Satan. Facen left the front door and went to an unknown area inside the house.

The homeowner came to the front door and unlocked the screen. The home owner exited the house and told me his neighbor was inside the house breaking things and was out of control. I entered the residence along with Deputy Feistel who had his K9; I was carrying a less lethal shot gun loaded with bean bag rounds. I noticed the carpet was covered in blood and noticed a blood trail going up the stairs to the second floor. Other responding units arrived as we made contact with Facen who was down a hall on the first floor.

Facen was still yelling making statements about Satan and acting like he was under the influence of a controlled substance. Facen would not stand still and continued to pace up and down the hallway as he was attempting to pull his hair out from his head.

Facen was eventually talked into a prone position on the living room floor without using force. Facen stated he was (b)(5)(C) as deputies approached and handcuffed him. Facen was attended to by Paramedics and placed into an ambulance for transport to Grossmont Hospital for lacerations he sustained when he broke through the upstairs window.

I was still at the crime scene when Deputy Davis# 0402, called for Code Cover on north bound Hwy 125 in La Mesa from the ambulance. I responded to the call and saw the ambulance had stopped on the shoulder of the freeway. Facen was still inside the ambulance on the gurney, but was yelling and

Page __ of

kicking at the rear door. Facen was still handcuffed to the gurney, but he was able to sit up and slide down the hand rails of the gurney.

Facen was inside the ambulance kicking at the rear door and yelling when he kicked out the rear window breaking the glass. La Mesa police arrived with a taser gun and entered the side door of the ambulance and applied a contact stun to Facen. At the same time Deputy Davis and I opened the rear door and took control of Facen's legs. I applied downward pressure with my hands on Facen's ankles trying to stop him from kicking me and other deputies. Paramedics entered the ambulance and attempted to secure Facen with leather restraints to the gurney.

I maintained downward pressure on Facen's ankles as we continued to Grossmont Hospital without further incident.

ORIGIN:

On 11-17-05, at about 0536 hours, I received a radio call to investigate a report of a Burglary in progress at (b)(5)(A) Terracina Circle in Spring Valley. CAD #4782791.

INVESTIGATION:

I arrived on scene at about 0539 hours and noticed the upstairs window was broken. I grabbed my K-9 partner "Bonkas" from my patrol vehicle and walked towards the residence. As Deputy Pata #0846 and I approached the residence, the front door of the residence opened. I observed a male subject standing in the doorway behind the front security screen door. The subject, later identified as Vanessa Facen, was yelling and screaming in the door way. Facen appeared highly agitated. I gave Facen verbal commands to open the door and exit the residence with his hands in the air. Facen continued to yell while opening and closing the front door violently. Facen then walked to the rear of the residence. Deputy Pata and I tried to open the front door but the security screen door was locked.

A few seconds later, the homeowner opened the screen door and exited the residence. Deputy Pata, Deputy Licudine and I entered the residence. As I proceeded down the hallway I noticed there was blood on the hallway floor. It was unknown at this time exactly where Facen was. As I entered the living room area I noticed more blood on the couch, walls and the living room carpet. The light was on in the bathroom and the water was running. Facen was inside the bathroom and was still yelling and screaming. I took a position in the corner of the living room with my K-9 at a forty five degree angle from the bathroom door. Deputy Licudine was to my right and Deputy Pata was to my left.

Facen exited the bathroom and was bleeding profusely from the head. Facen was not wearing any clothes and was yelling and screaming about God and the Devil. I gave Facen verbal command s to get on the ground or he would be bitten by my K-9. Facen did not comply with my commands and continued to scream. Facen was covered in blood and appeared to be under the influence of a controlled substance. Facen was not making any sense as he continued to yell. Deputy Licudine began giving Facen verbal commands and was able to calm him down. Deputy Licudine told Facen to lie face down on the ground and he complied. Deputy Spillman placed Facen into handcuffs without further incident.

Paramedics arrived on scene and began treating Facen for his injuries. Facen was placed onto the gurney and handcuffed to the side rails. Paramedics secured Facen and placed him in to the rear of the ambulance. Deputy Davis rode in the rear of the ambulance with the paramedic and Facen. The ambulance left the scene and was en route to Grossmont Hospital. A few minutes later, Deputy Davis called for code cover on State Route Hwy 125 and Lemon Ave. I left the Terracina address and

responded to Hwy 125 and Lemon Ave. The ambulance had pulled over to the right shoulder of the freeway. Deputy Davis and the paramedics had exited the ambulance. Facen was still in the rear of the ambulance yelling and screaming. Facen continued to yell and began kicking the rear ambulance doors. La Mesa PD had responded to the scene with a taser gun as Deputies devised a plan to try and gain control of Facen. Facen then kicked out the rear window of the ambulance door as he continued to scream and yell. The La Mesa PD Officer then opened the side door of the ambulance and deployed his taser gun. Deputies and paramedics entered the ambulance and was able to subdue Facen. I did not enter the rear of the ambulance. Facen was then transported to the hospital.

ORIGIN:

On 11-17-2005, at approximately 0536 hours, I responded as a cover deputy to a call of a hot prowler at (b)(5)(A) Terracina Cir. in Spring Valley. I arrived at about 0555 hours.

INVESTIGATION:

Deputy's and I entered the above residence in an attempt to subdue the suspect. The suspect, who was later identified as Vanessa Facen, was naked and covered in his own blood. Facen was yelling and screaming and ran into a downstairs bathroom. Facen was not complying with Deputy's commands. I moved into the kitchen for better observation of Facen. Facen was still very combative and was making statement that he was [REDACTED] (b)(5)(C) and would spread his [REDACTED] (b)(5)(C). I pointed my duty weapon at Facen and gave verbal commands to get on the ground. Facen complied. Facen was arrested by Deputy Spillman (#0779). (see arrest report for details)

Facen was transported by ambulance to the hospital. Deputy Davis (#0402) rode in the ambulance with Facen. While en route to the hospital Deputy Davis called for code cover. Davis advised he had the ambulance pull over and his location was Hwy 125 North and Lemon Ave. I arrived shortly after. I observed Facen kicking and screaming inside the ambulance. I opened the door in an effort to calm Facen down. Before I could say anything Facen turned to me and spit in my face. I immediately closed the ambulance door and cleansed my face with a disinfectant provided to me by a paramedic.

Deputy's distracted Facen in the rear of the ambulance. I made entry from the side and placed a spit sock over Facen's face. Facen continued to fight and spit at me through the mask. Facen all though handcuffed to the gurney was able to reach up to his face and tear a hole in the spit sock. I immediately placed an additional spit sock over Facen's head. I maintained a constant grip with my right hand to the spit sock in an effort to prevent Facen from removing it and [REDACTED] staff and deputies any further. (b)(5)(C)

With my left hand and my body weight I maintained control of his left hand/arm while the ambulance continued to Grossmont Hospital. Facen was squeezing my left arm/ wrist. At some point Facen was able to break my skin on my left forearm by digging his nails into my arm. My arms were covered in Facen's blood.

Once at the hospital I was assisted by hospital staff in cleaning the affected areas and was placed on medication for possible exposure to [REDACTED] (b)(5)(C)

medication for possible exposure to [REDACTED]

ORIGIN:

On 11-17-2005, at approximately 0619 hours I was involved in a use of force with a male adult that was under arrest for 459 P.C. The subject Venessa Facen was being transported to Grossmont Hospital for treatment of injuries he sustained breaking through a window of his neighbors residence. During the transport to the hospital the following incident occurred.

INVESTIGATION:

On 11-17-2005, at about 0536 hours, I responded to (b)(5)(A) Terracina Circle, Spring Valley, to a call of a burglary in progress. My self and several other deputies arrived at the scene and a black male adult, later identified as Vanessa Facen was arrested by Deputy Spillman #0779 for 459 P.C. Burglary. Facen had sustained several lacerations to his body and was bleeding heavily. See Spillmans Arrest Report.

AMR responded to the scene to transport Facen to Grossmont Hospital for medical treatment. Due to Facen's agitated and combative state was handcuffed by me and Spillman to the gurney and his legs were strapped down by paramedics. The AMR personnel requested a deputy ride in the rear of the ambulance. I accompanied the paramedics in the rear of the ambulance for the safety of the ambulance personnel.

While en route to Grossmont Hospital Facen became more and more agitated and combative. Facen began to scream and kick his legs violently in an attempt to free his legs. Facen ignored repeated commands by me to stop resisting. Facen broke the straps that were securing his legs and sat up on the gurney. The paramedic and I tried to get Facen to lay back down by using downward pressure on both of his shoulders, to no avail. Facen twisted free of our grasp and began to spit at myself and the paramedic. Facen stated he had (b)(5)(C) and he was going to give it to us as well. I ordered the ambulance driver to pull over to the side of the freeway and via my handheld radio I called for Code Cover.

Once the ambulance stopped on the shoulder of State Route 125 North, I ordered both paramedics out of the vehicle. Facen was attempting to stand in the rear of the ambulance and continued to scream and spit at me. Fearing for my safety and that of the paramedics I applied two three second bursts of OC Agent to the facial area of Facen. I ensured that both paramedics were out of the vehicle and I exited the ambulance and waited for responding deputies to arrive. I maintained a visual on

Facen, who was still attempting to now break the handcuffs off the gurney. The OC Agent had little to no effect on Facen.

Once responding deputies arrived, I briefed them on what had transpired in the ambulance. While I was explaining the situation, Facen kicked out the rear window of the ambulance. La Mesa Police Officers arrived on the scene with a taser gun. We decided to use less lethal force to get compliance from facen so he could be transported safely to the hospital.

La Mesa Police entered the ambulance though the side door and deployed taser gun to immobilize Facen and myself and Pata #0864 made entry through the rear door of the ambulance to assist. I maintained control of Facen's left leg by using downward pressure with my right knee and right hand. Facen continued to fight and attempt to spit on deputies. Facen who was covered in his own blood attempted to kick and bite deputies as well. Due to the level of violence and disregard for his safety as well as that of law enforcement Facen was tased three more times by La Mesa Police in order for Facen to be resecured to the gurney. Facen was given a shot of medication by paramedics once secured. I had control of his right leg until we arrived at Grossmont Hospital. Once we arrived I had no further contact with Facen.

ORIGIN:

On 10-17-2006, I received a request from San Diego Sheriff's Department Homicide to answer several follow up questions reference a use of force that occurred on 11-17-2005, (see case # 05080923-L).

OFFICER'S OBSERVATIONS AND ACTIONS:

I arrived at the scene and took a position at the rear of the residence to ensure the suspect did not flee out the back door. After Facen was secured by Deputy Spillman I entered the residence and I observed blood throughout the house and broken glass on the stairs and floor. Facen was lying facedown on the living room floor, screaming obscenities and yelling about God. Facen was compliant but appeared to be under the influence of a controlled substance. Facen was sweating heavily and was not making any sense. He did not appear to know where he was or what was happening and was completely naked.

Once the Paramedics arrived Facen was uncuffed and placed on his back on a gurney. Deputy Spillman handcuffed both of Facen's wrists, each of them to the side rails of the gurney. Facen was told by paramedics where he was going to be transported to and at the time Facen appeared coherent and was compliant. The paramedics, before transporting Facen also secured him with restraints. One on each ankle, one on each wrist and one across his midsection.

Facen's injuries that I observed were multiple lacerations to his head and body that he sustained breaking though the window of the residence he entered and was bleeding profusely.

While being transported to Grossmont Hospital Facen became combative and broke all restraints except the handcuffs. Facen attempted to get off the gurney and began to spit at myself and the paramedic nurse that was in the rear of the ambulance. Facen stated he was **(b)(5)(C)** and was going to give it to us. Force was used so that I and the paramedics could exit the ambulance safely.

Facen was resecured to the gurney and transported to Grossmont Hospital and I had no further contact with Facen.

ORIGIN:

On 11-17-2005 at about 0619 hours, I was attending briefing preparing for a patrol shift when the following incident occurred. Event# S4782791.

Deputy's Observations and Actions:

I was monitoring Lemon Grove Dispatch when I heard Deputy Davis advise he needed emergency cover on northbound 125 at Lemon Street in the city of La Mesa. I drove code 3, lights and siren, to Davis' location.

I arrived at about 0622 hours and observed Davis and two paramedics standing outside the ambulance. I could smell the odor of pepper spray. The doors on the ambulance were closed and I could see a naked black male, later identified as Vanessa Facen, in the back of the ambulance jerking his arms up and down and violently thrashing from side to side. I could hear metal hitting metal and the ambulance was rocking back and forth. I could see what appeared to be spit hanging from his chin and spraying out of his mouth as he screamed.

I asked Davis what happened and he told me Facen began trying to get out of the gurney, pulled off his protective mask and began spitting at him and the paramedics. Davis told me he used pepper spray and verbal commands to overcome Facen's resistance but both had failed. Davis told me he had to stop the ambulance and get out to preserve his and the paramedic's safety. Davis told me Facen is (b)(5)(C)

As I stood outside the ambulance and Facen continued to violently thrash back and forth, apparently attempting to free himself, I became extremely concerned for my safety. I was afraid if Facen did manage to escape from the ambulance and advanced toward myself and Davis spitting at us, we would have no way of protecting ourselves against the (b)(5)(C) exposure to the (b)(5)(C)

At 0633 hours, I requested the assistance of La Mesa Police for the use of a taser. LMPD arrived at about 0640 hours.

While forming a plan to gain control of Facen, he continued to scream, thrash back and forth and kicked the rear window out of the ambulance.

CODE SECTION:	Deputy's Report	CASE NUMBER:	05080923-L
		REPORT DATE:	11/17/2005

When Facen's attention was focused toward the rear of the ambulance, a La Mesa Police Officer deployed the taser successfully contacting Facen in the back.

Deputies Licudinie, Pata, Davis and several paramedic personnel entered the ambulance and placed a spit sock over Facen's head. The taser was successful in assisting in control of Facen until the five-second burst stopped, then Facen immediately began fighting again. It took approximately five minutes to successfully restrain Facen.

Facen was transported to the Grossmont Hospital where he was treated for his injuries. Licudinie, Pata and Davis road in the ambulance. I assisted by following the ambulance.

At the hospital, I observed Licudinie cleaning wet and dried blood from her forearms. I observed Licudinie wash off a portion of dried blood on her left forearm exposing a break in her skin. Licudinie's injury was immediately reported to hospital staff and to Sgt. Robbins a short time later.

OFFICER'S REPORT

On 11/17/2005 at 0638 hours I was dispatched to SR-125 and Lemon Ave. to assist S.D.S.O. Deputies and AMR Paramedic Unit 255 with a combative subject. When I arrived I saw the left rear window of the ambulance was broken out. I met with the Deputies and Paramedics. They explained they had arrested a subject as a result of a "hot prowl" call that occurred in Lemon Grove. When the subject was contacted the subject was naked and had many lacerations to the head and body, the result of breaking into a second story window and falling onto the first story floor beneath it. During transport via ambulance the subject became violent. The subject broke out the left rear window, unsecured the gurney and loosened one of the arm restraints.

I looked into the ambulance from the rear passenger side door window. I saw a naked black adult, covered in blood. The subject had male genitalia and large breasts. The subject was screaming about "killing all the white women," black Greeks unite!" and "I'll spit on you! I'll kill you all!" One of the ambulance personnel told me the subject informed them earlier that the subject was diagnosed with (b)(6)(C)

The subject continued to thrash about and was spitting all over the ambulance. As Deputies opened the rear doors, I opened the passenger side door. The subject began spitting at the Deputies. I deployed my X-26 Tazer on the subject. The probes struck the subject in the back and the Tazer immobilized the subject for 5 seconds, allowing the Deputies and Paramedics to gain control of the subject, and place a "spit sock" over the subject's head. Prior to securing the subject to the gurney, the subject continued to fight with the Deputies and Paramedics. I told the subject to stop fighting or I would use the Tazer again. The subject ignored me by continuing to fight, scream and spit in the "spit sock." I activated the X-26 Tazer two more times before the Deputies and Paramedics were able to restrain the subject and administer an intravenous drug to sedate the subject.

I followed the ambulance to the Grossmont Emergency Room. While there, I was observing the subject, awaiting for a day-shift Deputy to arrive and take custody of the subject. During the wait, the subject became violent once again, this time spitting and threatening one of the nursing staff. With the help of Grossmont Hospital Security, I was able to restrain the subject and place a "spit sock" over the subject's head. We continued to restrain the subject until more intravenous drugs were administered by E.R. staff and the subject was sedated.

While at the E.R., I collected the X-26 Tazer cartridge and later impounded it into LMPD Property. See Property Tag #65527.

ORIGIN:

On 11/17/2005 at about 0719 hours I received a radio call to assist Deputy Spillman #0779 with a prisoner at Grossmont Hospital in La Mesa, CA.

INVESTIGATION:

I arrived at about 0743 hours. Vanessa Facen was arrested and was being treated at Grossmont Hospital for his injuries. I was assigned to stand by with Facen until the medical staff at Grossmont Hospital cleared him.

While at the Hospital Facen was kept sedated and restrained to his medical bed with a spit sock on his head by medical staff because he was (b)(5)(C) and was spitting blood at anyone that came near to him. Facen was also kicking and trying to break free of his restraints. Several times Facen told me he had (b)(5)(C) and he would spit on me because I was a "white devil" and needed to be saved.

Over the course of the hospital stay Facen became compliant with medical staff so the medical staff took off Facen's spit sock.

At about 1633 hours Facen was medically cleared by Grossmont Hospital. Because of Facen's earlier statement I put a new spit sock over Facen's face. I placed Facen in leg chains and waist chains. Facen was compliant.

While enroute to San Diego Central Jail Facen started to become agitated. He began kicking the floorboard of my patrol vehicle. I arrived at San Diego Central Jail at about 1657 hours and pulled into the Jail's vehicle Sallyport. Facen had once again calmed down. Deputy Hunrichs #0985 had followed me from the Hospital to assist if needed.

After being parked in the Vehicle Sallyport Facen became agitated again. No one had spoken to Facen to insight him he just started kicking the cage area of the back seat of my patrol vehicle and yelling. I opened the vehicle door to try and calm Facen down. Facen attempted to spit through the spit sock at me. Facen told me again that he had (b)(5)(C) and I would die. Several Deputies attempted to talk with Facen but each attempt was met with more yelling and spitting.

Facen became more agitated and started using the patrol vehicle cage to remove his spit sock. Facen also started kicking the rear driver's side door. I attempted to grab Facen at least 6 times to keep him from kicking the vehicle and from removing his spit sock. Each time Facen would spit at me and attempt to kick me. During one of my attempts I pepper sprayed Facen in the face. The pepperspray had no affect on Facen.

CODE SECTION: Use of Force Report

CASE NUMBER:

05080923-L

REPORT DATE:

11/17/2005

After several minutes Facen got his spit sock above his mouth and nose. Facen began spitting inside of my patrol vehicle. Facen had blood in his mouth from an earlier injury so Facen's spit was mixed with his blood, which Facen reminded me on several occasions contained the (b)(5)(C). I made two attempts to get Facen's spit sock back over his mouth. Each time Facen would spit a mouthful of bloody sputum at me. Facen also began kicking the rear driver's side window with his feet. Facen shattered the rear window. Then Facen stuck his head outside the vehicle window and started spitting at anyone near the window.

I requested two bed sheets from the San Diego Jail Staff. I gave one sheet to Deputy Hunrichs on one side of the vehicle and I took the second sheet to the passenger side of the vehicle. I opened the rear passenger side door and used the sheet to block Facen's spit. I was able to get the bed sheet over Facen's head. Facen lunged at me. I used my expandable baton in a jabbing motion to keep Facen from getting to me. While I had Facen's attention Deputy Hunrichs grabbed Facen by the leg chains and started dragging him out of the driver's side of the vehicle.

I came over to the driver's side of the vehicle. I saw Facen trying to kick at Deputy Hunrichs and then Facen attempted to sit up and reach Deputy Hunrichs. Fearing Facen would use his long fingernails to scratch Deputy Hunrichs and transmit the (b)(5)(C) I began to hit Facen with my baton in the thigh and bicep areas of his body.

Facen was dragged out onto concrete. Deputy Hunrichs had control of Facen's head. Facen still had bed sheet over his head. Deputy Hunrichs was attempting to remove the bed sheet and put a spit sock over Facen's face. Every time Deputy Hunrichs removed the bed sheet Facen would go into a rampage and start fighting and trying to spit on anyone near him. Facen was able to reach up with his hands to keep Deputy Hunrichs from putting the spit sock on. I grabbed Facen's right hand to put it behind his back. Facen refused to put his hand behind his back. Facen kept grabbing at the bed sheet and spit sock. I used the end of my baton to hit Facen in the right bicep about 6 times. I was then able to get both of Facen's hands handcuffed behind his back.

Deputy Hunrichs and I tried a few more times to remove the bed sheet and put a spit sock over Facen's head. Each time we started to remove the bed sheet Facen would start trying to resist and start trying to spit on everyone.

Facen was on his stomach with his hands cuffed behind his back and his legs chained. I assisted lifting Facen onto a gurney by lifting Facen by his left shoulder. Facen was placed face down on the gurney. Other Deputies held Facen's feet, Deputy Hunrichs controlled Facen's head, and I kept control of Facen's upper body. Facen kept trying to struggle. I had to used my right knee with a sufficient downward pressure to keep Facen from falling off of the gurney.

After a few minutes in this position Facen stopped struggling. Within a minute of Facen stopping the struggle I checked Facen for a pulse. I could not feel a pulse. Facen was taken off the gurney and put on the cement floor. The spit sock and bed sheet were removed along with Facen's restraints. I

SAN DIEGO REGIONAL NARRATIVE

OFFICER'S REPORT ONLY

ORIGIN:

On November 2006 I was directed by Lt Andrews to complete a Deputy's Report regarding some follow up questions Sheriff's Homicide Investigators had reference Event #S4782791 and Case #05080923-L. I was given a copy of the questions by Lt Andrews.

INVESTIGATION:

Question #1

While Facen was in the back seat of my patrol vehicle in the San Diego Central Jail Sallyport I utilized my OC Spray to attempt to gain control of Facen. I sprayed 1-2 bursts of about 2-3 seconds at Facen's upper torso and face.

Question #2

After I put the bed sheet over Facen, he lunged at me. I used my baton in a jabbing motion to keep him from getting to me. I did make contact with Facen, but I do not remember how many times. I do remember Facen was able to grab my baton at least twice and Facen tried to pull it out of my hands. I was unable to tell exactly where I contacted Facen because the bed sheet was over him and I could not see his body clearly.

Question #3

As Facen was being dragged out of the patrol vehicle by Deputy Hunrichs #0985 I was standing to the left of Facen. I used my baton in a striking motion to hit his left arm/bicep and left thigh area. I do not remember how many times I struck Facen.

Question #4

While Facen was on the gurney I used my knee to prevent Facen from falling off of the gurney. I placed my knee on Facen's lower back/buttock area. When Facen would start to struggle I would increase the downward pressure of my knee to prevent Facen from bouncing off of the gurney. When Facen would stop struggling I would keep my knee on Facen's lower back/buttock area, but I would release the downward pressure until Facen started struggling again. I do not remember how long this went on for.

LOCATION OF INCIDENT

San Diego Central Jail

PERSON(S) INVOLVED: VICTIM
(b)(5)(B)

CASE NUMBER 05080923-L			Page 1 of 1	
MONTH 11	DAY 17	YEAR 05	DAY OF WEEK THU	TIME 0539
CITY San Diego				BEAT
SUSPECT (IF NAMED) Facen, Vanessa			PROPERTY TAG NO. (S)	

On 11-17-05 at around 16:08 hours I was dispatched to assist Deputy Farr at Grossmont Hospital with a previously combative prisoner. The prisoner, Vanessa Facen, had been arrested earlier in the day for Hot Prowl Burglary and Assault w/ Deadly Weapon. Facen had been released from the hospital and needed to be transported to the San Diego Central Jail for booking. I arrived at the hospital and escorted Facen to Deputy Farr's patrol car. We had been advised to use Universal Precautions when handling this prisoner. Facen walked to the car without incident. Deputy Farr drove with Facen in his car and I followed in my patrol car.

When we arrived at SDCJ we both entered through the vehicle gate and parked. Farr had stopped his vehicle in the middle of the drive because Facen had become agitated and started spitting through the spit sock and surgical mask which had been placed on his head at Grossmont Hospital.

Facen was stomping his bare feet on the floor of Farr's patrol car and was rocking back and forth. Facen yelled out at any Deputy in the area "I'm going to kill you" as he spit on the interior of the back seat windows. Several Deputies were in the area waiting to book other prisoners and a transportation bus had delivered several inmates. Facen was able to lean to the side and kick at the door and window of the left passenger door in Farr's patrol car. Facen was eventually able to kick the window hard enough to break the glass and bend out the window frame.

Farr requested that some bed sheets from the jail laundry be provided to allow us to approach Facen without being spit upon. We were able to subdue Facen and a sheet was placed over his head when he was removed from the car. Facen was still in waist and ankle chains when we removed him from the patrol car. Facen continued to struggle with us as we tried to control him and prevent him from spitting on us. We were advised by jail staff that Facen would have to be seen at County Mental Health prior to being accepted at the jail. We were discussing how to transport the combative and spitting Facen when he stopped struggling. We observed his breathing and checked for a pulse. He had stopped breathing and a pulse could not be detected at his carotid artery. We called for jail medical staff and for paramedics. Deputy Farr and another deputy from the jail initiated CPR on Facen and continued until they were replaced by the paramedics. The paramedics transported Facen to UCSD Hospital and I followed in my patrol car. While enroute to the hospital Facen regained a pulse but was still not breathing on his own.

I remained at the hospital until relieved by a Jail Deputy who took custody of Facen at around 2100 hours on 11-17-05.

I returned to Grossmont Hospital and recovered vials of the suspect's blood which had been collected as evidence earlier in the day. The vials were placed in the refrigerated evidence locker at Las Colinas Detention Facility.

PERSON(S) INVOLVED: VICTIM

SUSPECT (IF NAMED)
Facen, Vanessa

PROPERTY TAG NO. (S)

On 10-26-2006 I received a series of follow up questions about the death investigation from November 17th, 2005. The following information is in response to those questions and is a supplement to my earlier Deputy's Report dated 11-17-05.

Deputy Hunrichs wrote that Facen was subdued and a bed sheet was placed over Facen's head. How was Facen subdued? Was any force used to subdue Facen? And if so, what type of force was used? How was Facen removed from the vehicle? Did the bed sheet restrict Facen's breathing at anytime during the incident?

Facen was able to kick out the rear passenger side window of Deputy Farr's patrol car even though he was restrained in waist chains and leg chains. He had also removed the spit sock that had been placed on his head. After the bed sheet was obtained we opened the damaged door and tried to remove Facen from the car by shielding ourselves with the bed sheet as we approached the car. As we approached the car Facen continued to threaten to kill us and spit in our direction. We were able to get close enough to the back seat of the car that when Facen tried to kick us we were able to throw the sheet over his head and grab him by the legs and leg chains. We pulled Facen out of the car and he slid out onto the ground. There was broken glass on the ground around the car and we moved him out of the area by lifting him and moving him to a clear area. The bed sheet was over his head and face but it did not restrict his breathing. Facen was yelling at us throughout the entire time.

Deputy Hunrichs wrote in his report that Facen continued to struggle as they tried to control him. How was Facen struggling and how was control gained?

Facen was removed from the car by Deputy Farr and myself. We were wearing surgical face shields and gloves. We used the bed sheet to stop Facen from spitting at us and we were able to get him out of the car and onto the ground. Since Facen was no longer a threat to spit on unprotected deputies, other deputies from the jail were able to safely approach Facen and assist in controlling him. Facen was held down by several deputies holding him. Facen still struggled and tried to get up but could not.

Did Deputy Hunrichs have any direct contact with Facen, such as pulling him from the vehicle by the leg chains or controlling his head during the incident?

Deputy Farr and I removed Facen from the vehicle. I controlled Facen's head using the bed sheet held over his head to prevent him from spitting on us. I used both hands to hold his head and position the sheet over his face. The bed sheet was held bunched up just under his chin.

Deputy Hunrichs wrote in his report that Facen stopped struggling. Where was Facen when he stopped struggling? Was he on the ground or was he on a gurney? Did Deputy Hunrichs assist with placing Facen on the gurney? Did Deputy Hunrichs control Facen's head when Facen was on the gurney? If so, how?

When Facen was first removed from the vehicle he was placed on the ground near the vehicle. He was there a short time until the gurney was brought out from the jail. Deputy Farr and I were helped by other deputies to move Facen onto the gurney while Facen continued to struggle and get up. He was unable to get up because there were several deputies holding him on the gurney.

I held Facen's head holding the bed sheet over his head and face. The sheet was bunched up under his chin and held in my right hand to keep the sheet in place. My left hand was behind Facen's head. Facen stopped struggling while he was on the gurney and he was checked after he stopped yelling and struggling. The bed sheet was removed from his face and no breathing or pulse was detected. Jail medical staff and paramedics were called.

San Diego Central Jail

PERSON(S) INVOLVED: VICTIM
Facen, Vannesa

CASE NUMBER				
05080923-L				
MONTH 11	DAY 17	YEAR 05	DAY OF WEEK THU	TIME 1645
CITY San Diego				BEAT 021
PROPERTY TAG NO. (S)				

ORIGIN:

On 11-17-05, at about 1645 hours I was working the Intake Control Deputy position at the San Diego Central Jail. I went out to the Vehicle Sally port to assist deputies with a combative inmate.

DEPUTY'S OBSERVATIONS AND ACTIONS:

Upon arriving to the Vehicle Sally port, I observed an inmate later identified as Facen, Vannesa in the back of a Sheriff's Unit yelling and kicking. Facen began spitting toward the deputies. In attempt to keep Facen from spitting I placed a bed sheet over his upper body and facial area.

To keep Facen from kicking deputies I secured his right ankle with my left hand. Using my right hand I applied sufficient downward pressure on Facen's right calf to secure his right leg while leg chains were applied. Once leg chains were applied, I used my left and right hands to secure Facen's right leg applying sufficient downward force to keep him from kicking. I used both hands placing them around Facen's right ankle and assisted with lifting him onto a gurney.

Facen was on the gurney on his stomach for 3 to 5 minutes. Sgt. Meeks 5411 instructed me to evaluate Facen to check if he was breathing. I checked Facen's left wrist for a pulse with negative results. I attempted to find a pulse on Facen's neck with negative results.

Failing to find a pulse, I obtained a PAM mask and decided to perform CPR on Facen. I performed rescue breathing continuing until medical staff and Paramedics arrived on scene. I assisted them by holding the Ambu bag on his face. I continued to hold the Ambu bag until I was relieved by a Paramedic.

I had no further contact with Facen.

PROPERTY TAG NO. (S)

ORIGIN:

On 11-17-05, at about 1645 hours I went out to the Vehicle Sally port to assist deputies with a combative inmate which resulted in a use of force.

DEPUTY'S OBSERVATIONS AND ACTIONS:

Upon arriving to the Vehicle Sally port, I was advised by the arresting deputy that Facen was (b)(5)(C). Facen was able to partially remove the spit sock from the lower part of his face. Facen began to spit attempting to get his saliva in the deputies' eyes. I instructed Corporal Wilcox (3297) to get me a bed sheet. Corporal Wilcox handed me the bed sheet through the intake window.

The arresting deputy opened the right rear passenger door of the unit attempting to move Facen toward the left rear passenger side. The deputies on the driver's side of the unit opened the left rear passenger door and attempted to remove Facen from the unit. I tossed the sheet with my right hand through the back of the unit as the deputies were pulling Facen out of the unit. The folded sheet landed on Facen's face and the upper part of his chest. This allowed the deputies to remove Facen from the unit without being spat on. The sheet was only on Facen's face for about 5-7 seconds. The sheet fell off of Facen and onto the floor as he was removed from the unit and placed onto his stomach.

The sheet did not restrict Facen from breathing at any time during the incident. The sheet was never secured to any part of Facen's body. I only used one sheet during the incident no additional sheets were used.

ORIGIN:

On 11-17-05, at approximately 1650 hours, I was assigned to the Transportation Deputy position at San Diego Central Jail (SDCJ). I entered Intake Control when I observed an uncooperative inmate refusing to exit the patrol unit. I assisted in handcuffing an inmate later identified as VANNESA FACEN, DOB: [REDACTED] (b)(5)(A)

DEPUTY'S OBSERVATIONS AND ACTIONS:

I exited Intake Control and observed FACEN resisting to exit the vehicle by spitting at the arresting officers. The arresting officers attempted to extract FACEN from both sides of the vehicle. The arresting officers deployed O.C. in attempt to get FACEN to comply. FACEN resisted and continued to spit at the arresting officers. FACEN began to kick the left rear door inside the vehicle. FACEN continued to kick the door with both feet, until FACEN broke the window.

The arresting officers used jail blankets to avoid contact from FACEN attempting to spit on them. The arresting officers opened the left rear door and extracted FACEN by his legs. FACEN attempted to use his legs to kick the arresting officers. FACEN was pulled from the vehicle to the sallyport driveway facedown. FACEN continued to spit. FACEN had a spit sock on his head that was positioned halfway, not covering his mouth.

Deputy Farr (ARJIS#2618) restrained FACEN's both hands while I assisted in placing the handcuffs. I placed my right knee on FACEN back and applied downward pressure to prevent FACEN from turning toward me.

I assisted in picking up FACEN onto the gurney, by lifting his right arm. I used no further force in this incident.

FORCE USED:

I placed my right knee on FACEN's back and applied downward pressure. I used arm strength necessary to lift and carry FACEN onto the gurney.

ORIGIN:

On 11/17/2005 at about 1715 hours, I was at the San Diego Central Jail processing a prisoner when the following incident occurred.

INVESTIGATION:

I was inside the sally port waiting to process a prisoner through the medical screening when Deputies Farr (ID #2618) and Hunrichs (ID #0985) had arrived with prisoner, Vanessa Facen. Facen was in the back seat of the patrol vehicle. He was yelling and kicking his feet inside the patrol vehicle.

Deputies Farr and Hunrichs were attempting to get Facen out of the patrol vehicle. Facen was yelling and spitting at the deputies and was inside the vehicle. He had somehow taken the spit sock off his face. I asked a transportation deputy, who was inside the medical processing area, to watch my prisoner while I assisted my partners. I got a face mask and put on a pair of latex gloves. Facen noticed me standing behind the patrol vehicle and requested to talk with me.

I went to the front passenger's side door. I told Facen that he better not spit on me. He replied, "I won't, I promise." I had asked him why he was acting so strangely. Facen had asked me what tribe I supervised and made some strange sound. I told Facen I was no longer in a tribe. Facen then spit through the screen in my direction, making strange sounds and yelling at me. He spit towards me once more, smiling and telling me I was going to die. I closed the front door at this time.

Facen began to kick the driver's side rear door and window several times with his feet. Facen broke out the window and damaged the door by kicking it with his feet.

Deputies attempted to get Facen out of the patrol vehicle using sheets and yellow blanket. Facen continued to spit at deputies while they were attempting to get him out of the patrol vehicle. Deputies obtained sheets from the jail deputies. The sheets and yellow blanket were used to block Facen from spitting on them. Facen continued to spit at deputies. Deputy Farr gained Facen's attention while Deputy Hunrichs grabbed the leg chains which were on Facen and pulled him out of the patrol vehicle and guided him to the ground, while the sheet was placed onto Facen's head preventing him from spitting on deputies.

ORIGIN:

On 11-17-05 at about 1730 hours, I was at the San Diego Central Jail processing my prisoner when the following occurred.

INVESTIGATION:

I was in the medical processing area of intake when I heard a loud yell. I looked outside the medical processing area and saw a Sheriff patrol car with a prisoner in the backseat. I saw two deputies attempting to take the prisoner (later identified as Vanessa Facen) out of the backseat of the patrol car. Facen was yelling and kicking his feet inside the patrol car.

I asked a transportation deputy who was inside the medical processing area to watch my prisoner while I went to assist the deputies. I spoke to Deputy Farr #2618 and asked if he needed any assistance. Deputy Farr said yes and told me Facen was **(b)(5)(C)** and gave me a face mask to wear. Facen had taken off his spit sock and was spitting at Deputy Bartlett #2486 who was outside the car attempting to speak with Facen.

Facen became upset and starting making strange sounds. Facen began to kick the driver's side rear window with his feet. Facen broke the window with his feet and damaged the door frame.

Deputy Farr went on the right side of the patrol car and Deputy Hunrichs #0985 and I went to the left side of the patrol car. Deputy Farr and Deputy Hunrichs open the doors and Facen attempted to spit on them. Deputy Farr gained Facen's attention. Deputy Hunrichs grabbed the leg chains which were on Facen and attempted to pull Facen out of the patrol car. I went and assisted Deputy Hunrichs. I grabbed onto the leg chains and pulled Facen out of the patrol car to gain control of Facen. Deputy Hunrichs and I pulled Facen out of the patrol car and guided him onto the ground.

Facen attempted to get up. I used my left knee and my body weight and placed it onto Facen's rear left thigh. Facen was not heeding to commands and was attempting to spit on deputies. Facen kept kicking his feet. I used my hands and placed them onto Facen's leg calves to control Facen's legs from kicking a deputy.

A gurney was brought out to place Facen on. I placed my hands under Facen's knees and lifted him onto the gurney.

LOCATION OF INCIDENT 1173 Front St. SDCJ Vehicle Sallyport		CITY San Diego CA. 92101		MONTH 09	DAY 13	YEAR 06	DAY OF WEEK WED	TIME 0930
PERSON(S) INVOLVED: VICTIM Facen, Vannesa		SUSPECT (IF NAMED)		PROPERTY TAG NO. (S)				
DOB: (b)(5)(A)								

ORIGIN:

On 11/17/2005, at approximately 1715 hours, I was working as the Processing Sergeant at San Diego Central Jail (SDCJ). I responded to the SDCJ Vehicle sally port to supervise the arrival of a combative arrestee later identified as Facen, Vanessa when the following occurred.

DEPUTY'S OBSERVATIONS AND ACTIONS:

When I arrived in the vehicle sally port I contacted the arresting deputies. Due to Facen's behavior and actions it was decided he would need to be cleared at County Mental Health (CMH) prior to being accepted at SDCJ. Deputy Farr #2618 and or Hunrichs #0985 informed me Facen was cleared by the Psychiatric Staff at Grossmont Hospital.

One of them provided me with Facen's release paper work from Grossmont Hospital. In the paper work it showed Facen had been seen by Grossmont's Psychiatric Unit. However, it was discovered the staff member from Grossmont's Psychiatric Unit that interviewed Facen was a Social Worker and not someone that met SDCJ's criteria for a psychiatric clearance.

During the time I talked to Grossmont Hospital staff and the arresting deputies Facen kicked the window out of the patrol car. When I returned to the vehicle where Facen was he had been removed from the car and was lying face down on the ground. Facen was resisting the deputies physically and wound not listen to their directions and orders to stop resisting. During this time Facen was yelling and screaming. Once Facen was placed into restraints he was placed onto a gurney.

Facen continued to yell during this time. Because Facen needed to be evaluated by CMH prior to him being accepted into SDCJ he needed to be transported to CMH. I went to the Intake Control area and asked for one of the deputies to call 911 and ask if the fire department would transport a combative prisoner. With in a few minutes I returned to where Facen was. I noticed Facen was now quiet and did not appear to be awake.

I asked Deputy Deering #0705 to check Facen's breathing and pulse. Deputy Deering told me Facen was not breathing and could not find a pulse. I instructed the deputies that were present to again check for Facen's pulse and breathing. They were unable to

CODE SECTION AND DESCRIPTION (ONE INCIDENT ONLY) Death Investigation		MONTH 11	DAY 21	YEAR 05	DAY OF WEEK MON	TIME 1830
LOCATION OF INCIDENT 200 West Arbor Drive		CITY San Diego			BEAT 009	
PERSON(S) INVOLVED: VICTIM		SUSPECT (IF NAMED)				PROPERTY TAG NO. (S)

SYNOPSIS:

I was assigned to guard an in custody suspect, named Vanessa Facen who was in the Intensive Care Unit at U.C.S.D. Hospital in Hillcrest. Facen was unconscious and was on life support. During my shift, the medical staff determined Facen to be unable to sustain life and pronounced her deceased at 1530 hours. I notified the Sheriff's Communications Center and the Central Detention Facility Lt. Birdsong of Facen's death. Sheriff's Homicide Detectives and the San Diego County Coroner's Medical Examiner were dispatched to the hospital. The investigation was relinquished to these two entities.

ORIGIN:

An investigation of death, at U.C.S.D. Hospital, 200 W. Arbor Dr. San Diego, CA 92103.

INVESTIGATION:

On 11-21-2005, at about 0600 hours, I arrived at the second floor Intensive Care Unit of U.C.S.D. Hospital in Hillcrest and relieved another Deputy Sheriff guarding suspect Vanessa Facen. Facen was unconscious and was on life support. Facen was being attended to by the on-duty I.C.U. medical staff.

At about 0930 hours, Facen was transferred to the ninth floor Intensive Care Unit where the medical staff on this floor maintained medical attention.

Throughout the late morning and afternoon, the medical staff discussed Facen's medical condition. Apparently, Facen had no brain activity and was unable to sustain life without life support. I was in communication with the Sheriff's Communications Center and Lt. Birdsong at the Central Detention Facility keeping them updated as to Facen's status.

At about 1530 hours, Doctor (b)(5)(B) determined Facen's brain unable to sustain life. He pronounced Facen deceased and the medical staff discontinued the life support.

At about 1534 hours, I made notification to Lt. Birdsong of Facen's death.

At about 1538 hours, I made notification to the Sheriff's Communications Center.

At about 1545 hours, I spoke with Sergeant R. Empson of the Sheriff's Homicide Division. He informed me that two Sheriff's Homicide Detectives would be enroute to conduct an investigation. At about the same time, Vanessa Facen's mother, (b)(5)(B) and two family friends, (b)(5)(B) arrived to see Vanessa. I had advised Lt. Birdsong of this and was told they could see Vanessa. I monitored their visit which lasted about forty-five minutes. (b)(5)(B) (b)(5)(B) were then directed to a ninth floor waiting room to wait for the Homicide Detectives and the Medical Examiner.

At about 1645 hours, Medical Examiner, (b)(5)(B) arrived.

At about 1705 hours, Sheriff's Homicide Investigators, Altenhof and Goldberg arrived and the scene was relinquished to them.

San Diego, CA 92123

Re: In-custody death of Vanessa Facen, arrested by San Diego Sheriff's deputies on November 17, 2005, Case #05081861-H; died at UCSD Medical Center on November 21, 2005; DA Special Operations Case No. 05-157CD; Deputy District Attorney assigned: A. Craig Rooten

Dear Sheriff Kolender:

We have reviewed the reports and other materials submitted by your department and the La Mesa Police Department concerning the arrest and subsequent death of Vanessa Facen.

The deceased, Vanessa Facen, was 35 years old. She resided at [REDACTED] in Spring Valley. [REDACTED]

(b)(5)(C)

(b)(5)(C)

At the

time of her death, Ms. Facen was living as a woman and taking hormones as part of a transgender procedure, although she was a male.

Law enforcement personnel involved in Ms. Facen's arrest and transport to Grossmont Hospital, San Diego Central Jail, and UCSD Medical Center included Sheriff's deputies Daryl Spillman, Michael Pata, Ken Feistel, Christi Lucidine, Garner Davis, Brian Hout, Brad Farr, Ken Hunrichs, Jonathan Deering, Roberto Martinez, Crystal Bartlett, Richard Sanchez, Ronnie Hudson, Sergeant Ed Meeks, and La Mesa Police Officer Jeffrey Chambers. Non-law enforcement witnesses to the series of incidents that preceded Ms. Facen's death include Ms. Facen's next door neighbors and transporting American Medical Response (AMR) ambulance personnel.

The reports indicate on November 17, 2005, at 5:36 a.m., your department received an emergency 911 call from a resident in the 1900 block of Terracina Circle. The caller reported his neighbor, Vanessa Facen, had broken into his home. Ms. Facen, who was naked at the time, forced her way into her neighbor's home by breaking through a second story bedroom window, breaking the glass and cutting herself in the process.

Sheriff William B. Kolender

February 1, 2007

Page 2 of 5

Earlier that evening, your department had received four calls for service over a four hour period complaining about loud music coming from Ms. Facen's residence, that a person matching Ms. Facen's description and wearing only a jacket was knocking on doors asking for money, and that Ms. Facen, who was barely clothed, was walking around her apartment screaming that the world was coming to an end and that she wanted pills. The deputies dispatched to these earlier calls were unable to locate Ms. Facen.

Two emergency 911 calls made that night reveal that Ms. Facen appeared to be incoherent when she broke into her neighbor's residence. Her neighbors reported she was naked and bleeding from lacerations she received when she broke through the window. She can be heard yelling incoherently on one of the 911 recordings. She can also be heard making statements that people were trying to kill her, that she had b(5)(C), that she had survived the earthquake, and that the next earthquake was going to wipe out all the white devils.

Ms. Facen's neighbor stayed on the phone with Sheriff's dispatch as he spoke face-to-face with Ms. Facen, trying to persuade her to leave the house. The neighbor's wife (who also made a 911 call) and 13 year-old child huddled together in a locked second story bedroom as her husband attempted to convince Ms. Facen to leave.

When deputies arrived, Ms. Facen began screaming violently at them. Ms. Facen's neighbor tried to calm her down and get her to open the door and go outside and talk to the deputies. Deputies Spillman, Licudine and Feistel entered the home and saw Ms. Facen naked and covered in her own blood. They arrested and handcuffed her at gunpoint. Ms. Facen told the deputies she was b(5)(C)

The deputies summoned paramedics to the scene to treat the cuts Ms. Facen sustained when she broke into the neighbor's home. An ambulance was summoned to transport Ms. Facen to Grossmont Hospital. At the request of AMR personnel, Deputy Davis accompanied Ms. Facen in the ambulance. Ms. Facen was secured to the gurney with handcuffs and soft leg restraints.

During transport Ms. Facen became combative. She began kicking her legs in an attempt to free herself from the restraints. She eventually succeeded in getting free and began spitting at Deputy Davis and the paramedic. Ms. Facen told Deputy Davis she had b(5)(C) and was going to give it to him. Deputy Davis and the paramedic tried physically restraining Ms. Facen but she twisted free from their grasps and continued spitting.

Deputy Davis called for emergency assistance and told the ambulance attendants to pull over and stop. Ms. Facen tried to stand up and spat at Deputy Davis, who sprayed Ms. Facen with two bursts of pepper spray. Fearing for their safety, Deputy Davis and the

Sheriff William B. Kolender

February 1, 2007

Page 3 of 5

two AMR paramedics got out of the ambulance, leaving Ms. Facen inside, and waited for assistance. Even though she was still cuffed to gurney's handrails, Ms. Facen was able to kick out the rear window of the ambulance.

Spillman, Licudine, Feistel and La Mesa Police Officer Chambers responded to Deputy Davis's call for help. When Deputy Licudine opened the ambulance door, Ms. Facen spat in her face. Officer Chambers reported that Ms. Facen was yelling statements like, "killing all the white women, black geeks unite, I'll spit on you, and I'll kill all of you."

When the ambulance doors were opened, Officer Chambers fired a Taser at Ms. Facen, striking her in the back and immobilizing her long enough for the deputies to place a spit sock over her head. However, before Ms. Facen could be secured to the gurney, she grabbed Deputy Licudine's left arm and dug her fingernails into her skin. Deputy Licudine's arms were covered with Ms. Facen's blood. Officer Chambers again shot Ms. Facen with the Taser. The deputies were then able to control and restrain Ms. Facen and the paramedics administered a sedative to Ms. Facen, which calmed her. AMR and Sheriff's personnel were then able to transport Ms. Facen to Grossmont Hospital.

AMR staff reported that because Ms. Facen was extremely combative they were unable to monitor her blood pressure or pulse. They noted Ms. Facen appeared to be under the influence of a controlled substance, was hallucinating, and was threatening to give Sheriff's, fire department, and AMR personnel the (b)(5)(C) AMR staff reported that Ms. Facen broke through the soft restraints, began masturbating, became combative, spit at staff, was pepper sprayed, kicked out the rear window of the ambulance, and was tasered.

At 4:33 p.m. Ms. Facen was cleared by Grossmont Hospital for booking. Deputy Farr secured Ms. Facen with leg and waist chains and transported her to County Jail. During transport, Ms. Facen again became agitated. At the jail Ms. Facen began kicking the rear door from inside the patrol car and spitting at Deputy Farr. In response, Deputy Farr pepper sprayed Ms. Facen, who then shattered and broke out the patrol car's rear passenger window. Deputies Farr and Hunrich used a bed sheet to shield themselves from Ms. Facen's spitting as they pulled her from the back seat.

While being removed from the car, Ms. Facen lunged at Deputy Farr, who jabbed at her with his baton to keep her away. As Ms. Facen was being pulled from the backseat, she tried to scratch Deputy Hunrichs in an apparent effort to infect him with (b)(5)(C) In response, Deputy Farr hit her with his baton in the thigh and bicep about six times until the other deputies were able to handcuff her behind her back. The deputies placed the bed sheet over Ms. Facen's head to keep her from spitting at them.

Sheriff William B. Kolender
February 1, 2007
Page 4 of 5

Ms. Facen was placed face down on a gurney. Her hands and feet were secured with cuffs. Deputies held Ms. Facen on the gurney by controlling her feet, head and upper body but she continued struggling. One deputy said he used his knee and applied pressure to Ms. Facen's back to keep her from falling off the gurney. Another deputy held her legs. Another Deputy held the bed sheet over Ms. Facen's head to prevent her from spitting on them.

While in this position Ms. Facen stopped struggling. The deputies checked for a pulse and breathing but found neither. They removed Ms. Facen from the gurney, placed her on the floor, removed the spit sock, bed sheet and restraints, and began CPR until paramedics arrived. She was revived and transported by ambulance to the UCSD Medical Center where she was treated in the Intensive Care Unit. She remained comatose throughout this hospitalization.

On November 21, 2005 at 3:30 p.m., four days after Ms. Facen's arrest, Dr. (b)(5)(B) (b)(5)(B) declared her brain dead and removed her from life support systems.

On November 23, 2005, Deputy Medical Examiner Doctor (b)(5)(B) performed an autopsy on Ms. Facen's body. Dr. (b)(5)(B) determined the cause of death to be Hypoxic/Ischemic Encephalopathy (lack of oxygen to the brain) due to cardiopulmonary arrest during prone restraint for aggressive and psychotic behavior. The manner of death was determined by Dr. (b)(5)(B) to be accident. Ms. Facen was (b)(5)(C) (b)(5)(C) and toxicological examinations revealed the presence of marijuana in her system.

There was evidence of blunt force trauma injuries (contusions and abrasions) and superficial cuts on Ms. Facen's face, back, scalp and extremities, which appear to be consistent with the force and restraining efforts reported by the arresting and transporting officers and jail personnel. Many of these injuries also appear to be consistent with the self-inflicted injuries Mr. Facen caused to herself during the burglary and by flailing around in the ambulance and patrol cars.

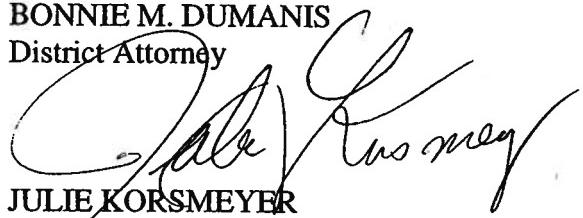

The autopsy also revealed there were no fractures or injuries of the internal organs, no evidence of petechiae, and no external evidence of a neck injury or evidence of neck compression. The hyoid bone and other throat structures were intact and there was no evidence of any fracturing. There was no evidence of rib or skull fractures. There was no epidural or subdural hemorrhaging, and there were no cerebral contusions.

In this case a number of circumstances came together and may have contributed to Ms. Facen's death—her mental condition at the time of the incident, violent struggling on numerous occasions, and the fact that she had to be forcibly restrained. Based upon our review of the facts and circumstances surrounding Ms. Facen's death, we conclude that the law enforcement personnel involved Ms. Facen's apprehension and restraint acted reasonably under the circumstances, and they bear no criminal liability for their actions.

Sheriff William B. Kolender
February 1, 2007
Page 5 of 5

Compliance with your department's policies and procedures, tactical considerations, possible ways to improve training, and issues involving civil liability were not considered in our review. Accordingly, such a review should not be interpreted as expressing any opinion on the propriety, if any, of further action by you in these or other related matters.

Sincerely,

BONNIE M. DUMANIS
District Attorney

SAN DIEGO SHERIFF'S DEPARTMENT
Follow-up Investigative Report

Crime: Death Investigation
Victim: Facen, Vanessa
Location: 1173 Front Street
Date Occurred: November 17, 2005

Case Number: 05081861-H
City: San Diego

Page 1 of 8

ORIGIN:

On Monday, November 21, 2005, at approximately 1535 hours, Homicide Sergeant Empson (#0819) requested I conduct an investigation into the death of a prisoner who was in the custody of the Sheriff's Department. The deceased prisoner was identified as being Vanessa Facen (b)(5)(A). Facen was pronounced deceased at UCSD Medical Center in San Diego on Monday, November 21, 2005 at approximately 1530 hours by (b)(5)(B)

INVESTIGATION:

On Monday, November 21, 2005, at approximately 1535 hours, I attended a briefing conducted by Homicide Sergeant Empson. The briefing occurred in the office of the Homicide Detail, located at 9621 Ridgehaven Court in San Diego. The briefing was attended by Detective Goldberg (#1110) and Detective Jenkins (#2267).

BRIEFING:

On Thursday, November 17, 2005, at approximately 0536 hours, a person later identified as Vanessa Facen jumped through a second story window of a residence at (b)(5)(A). Facen was naked when he jumped through the window and he fell to the first story of the residence. The deputies from the Lemon Grove Sheriff Station responded to the incident and they took Facen into custody at gunpoint. Facen became cooperative with the deputies and he was taken into custody for a mental evaluation. Facen was also arrested for residential burglary. Facen was injured when he jumped through the window of the residence. Therefore, paramedics responded to the scene and they began to transport Facen to Grossmont Hospital for treatment of his injuries.

While Facen was being transported to Grossmont Hospital, Facen became violent in the rear of the ambulance. Due to Facen's violent behavior, a Deputy Sheriff sprayed Facen with Oleoresin Capsicum (OC). Facen continued to be violent and a La Mesa Police Officer responded to the scene with a taser. The La Mesa Police Officer deployed his taser and activated it twice on Facen. After Facen was subdued, the paramedics continued to transport him to Grossmont Hospital.

On Thursday, November 17, 2005, Facen was medically cleared by Grossmont Hospital staff for booking into the county jail. Facen was transported to the San Diego Central Jail for booking. The medical staff at San Diego Central Jail refused to accept Facen at the

jail and requested that Facen be taken to County Mental Health for an evaluation. While in the vehicle sally port at the San Diego Central Jail, Facen again became violent and he kicked the rear window out of a patrol vehicle. The deputies restrained Facen on a gurney and he went into Cardiac Arrest. Facen was transported to UCSD Medical Center for treatment. While Facen was at UCSD Medical Center, the hospital staff reported that Facen's organs were functioning.

On Monday, November 21, 2005, at approximately 1530 hours, Facen was pronounced deceased by (b)(5)(B) [REDACTED]

INVESTIGATION: (Continued)

On Monday, November 21, 2005, at approximately 1705 hours, Detective Goldberg and I arrived at UCSD Medical Center where we contacted Medical Examiner Investigator (b)(5)(B) [REDACTED] Medical Examiner Investigator (b)(5)(B) [REDACTED] and Deputy Hudson (#1443) in the Medical Intensive Care Unit (MICU) on the 9th floor of UCSD Medical Center in San Diego. Facen was in MICU Bed #1. Forensic Evidence Technician (b)(5)(B) [REDACTED] arrived at the hospital a short time later to take photographs of Facen. Medical Examiner Investigator (b)(5)(B) [REDACTED] processed Facen's body for evidence.¹

Facen was dressed in a blue hospital gown and his left ankle was chained to the bed. Medical intervention was obvious. Facen had what appeared to be a band-aid on the big toe of his right foot, a bandage on his left middle finger, stitches on his left little finger, a bandage on his left forearm, two abrasions on his right knee, an abrasion on his upper right shin, and a scratch above his right hip.

Facen's head, hands, and feet were bagged for evidentiary purposes. Facen was placed inside a white vinyl body bag and the body bag was sealed at approximately 1825 hours with a red plastic tamper proof seal bearing number "0106117." HS&B Transportation Service representative (b)(5)(B) [REDACTED] transported Facen's body to the San Diego County Medical Examiner's Office (ME's Case# 05-2270).

Detective Goldberg and I cleared from UCSD Medical Center at approximately 1835 hours.

On Wednesday, November 23, 2005, at approximately 0935 hours, Doctor (b)(5)(B) [REDACTED] from the Medical Examiner's Office conducted an autopsy on Vanessa Facen's body (ME Case# 05-2270). The cause of death was later determined to be **HYPOXIC / ISCHEMIC ENCEPHALOPATHY DUE TO CARDIOPULMONARY ARREST**

¹ See Investigative Report by MEI (b)(5) for details.

(b)(5)(C) ³

On Tuesday, November 29, 2005, at approximately 0855 hours, I arrived at the Lemon Grove Sheriff Station and met with FET(b)(5)(B) FET(b)(5)(B) took photographs of patrol vehicle #20130 (License# 1170616), which was parked in the rear parking lot at the station. Facen had been transported from Grossmont Hospital to San Diego Central Jail in the patrol vehicle on November 17, 2005. Facen damaged the patrol vehicle during an incident that occurred in the vehicle sally port of the San Diego Central Jail.

The following damage to patrol vehicle #20130 was noted:

1. The left rear door window was smashed out. Glass was seen on the left rear floorboard of the vehicle. (As seen in the two photographs below.)

² See autopsy report by Doctor (b)(5)(B) for details.

³ See Toxicology Report from the Medical Examiner's Office for details.

7. What appeared to be spittle was on the small window of the left rear door. (As seen in the photograph below.)

On Wednesday, February 01, 2006, (b)(5)(B) of the Medical Examiner's Office faxed me a copy of the laboratory report from Grossmont Hospital and UCSD Medical Center in reference to Facen. Based on the laboratory report from Grossmont Hospital, it appeared Facen's urine (which was collected on November 17, 2005) tested presumptive positive for (b)(5)(C). Based on the laboratory report from UCSD Medical Center, it appeared Facen's urine (which was collected on November 17, 2005) tested presumptive (b)(5)(C).

The investigation also revealed that a phlebotomist, LVN (b)(5)(B), from American Forensic Nurses collected a sample of blood from Facen while Facen was at Grossmont Hospital. The blood specimen was tested by Pacific Toxicology Laboratories and a laboratory report was generated. I obtained a copy of the laboratory report and I saw that the results of the drug panel were all negative. The drug panel included the following drugs:

1. Amphetamines
 - a. Amphetamine
 - b. Methamphetamine

 - b. Morphine

I obtained a cassette tape that contained the two 911 calls made to the Sheriff's Communication Center in reference to Facen entering the residence at [REDACTED] (b)(5)(A) [REDACTED] (b)(5)(A) in Spring Valley. The callers were identified as being [REDACTED] (b)(5)(B) from [REDACTED] (b)(5)(A) in Spring Valley. I transferred the two 911 calls from the cassette tape to a digital recorder. I then transferred the digital recording to an access controlled server on the Sheriff's Department computer network. I later transferred the digital recording from the Sheriff's Department computer network onto a compact disc. I later placed the compact disc and the cassette tape into Sheriff's Evidence. The Sheriff's Communication Center was unable to provide a recording of the radio traffic due to an equipment malfunction.

A check of Vanessa Facen's Criminal History revealed that Facen had [REDACTED] (b)(5)(C) [REDACTED]

Suspect: FACEN, VANESSA

Service Requested: PHOTOGRAPHS

Narrative:

On Monday, November 21, 2005, at approximately 1630, I was contacted by the San Diego Sheriff's Communications Center and asked to respond to UCSD hospital, in San Diego. I arrived at approximately 1730 and met Sheriff's Homicide Detective W. ALTENHOF. This incident occurred at San Diego Central Jail and the suspect was transported to UCSD hospital.

After the briefing and under the direction of Detective ALTENHOF, I proceeded to take overall and specific photographs of the suspect VANESSA FACEN. I finished and left UCSD at approximately 1845. I took all photographs with a Nikon N80 camera, a 24-85 variable lens and Kodak 200 ISO film. I released two CD's with thirty-six color images to Detective ALTENHOF.

Service Requested: FIELD CALL - AUTOPSY OF FACEN

Narrative:

On Tuesday, November 22, 2005, at 1300 hours, I was advised by FET (b)(5)(B) respond to the San Diego County Medical Examiner's Office at 0930 hours on November 23, 2005, for the autopsy of Vanessa FACEN.

I arrived at the Medical Examiner's Office at 0930 hours and met with Detectives ALTENHOF and ENYEART and Dr. (b)(5)(B)

During the autopsy of FACEN, I collected and/or received items of evidence (evidence items #2 through #12) and I used seven rolls of film (evidence items #13 through #19) to take photographs.

I departed the Medical Examiner's Office at 1335 hours and transported the evidence to the SDSO Crime Laboratory.

On November 29, 2005, at the SDSO Crime Laboratory, I received one item of evidence (evidence item #20) from SDSO Latent Print Examiner (b)(5)(B).

SAN DIEGO SHERIFF'S DEPARTMENT
Follow-up Investigative Report

Crime: Death Investigation
Victim: Facen, Vanessa
Location: 1173 Front Street
Date Occurred: November 17, 2005

Case Number: 05081861-H
City: San Diego

Page 1 of 3

VICTIM INFORMATION:

Vanessa Facen (DOB: (b)(5)(A))
(b)(5)(A) [REDACTED]

Spring Valley, Ca. 91977
(b)(5)(A)
[REDACTED]

Phone: (b)(5)(A)
[REDACTED]

SYNOPSIS:

On Thursday, November 17, 2005, at approximately 0127 hours, a reporting party called the Sheriff's Communication Center and complained of loud music coming from (b)(5)(A) (b)(5)(A). A deputy arrived at the location and reported that it was quiet on arrival.

On Thursday, November 17, 2005, at approximately 0434 hours, a reporting party called the Sheriff's Communication Center and complained of loud music coming from (b)(5)(A) (b)(5)(A) in Spring Valley. A deputy arrived at the location and reported that it was quiet on arrival.

On Thursday, November 17, 2005, at approximately 0434 hours, a reporting party called the Sheriff's Communication Center and reported that an unknown Black female adult came to her door at (b)(5)(A) in Spring Valley and asked the resident for money. The resident stated the female was only wearing a jacket. The female was last seen walking up the hill towards Crofton Street. The deputies responded to the area and they were unable to locate the Black female adult.

On Thursday, November 17, 2005, at approximately 0521 hours, a reporting party called the Sheriff's Communication Center and reported that a barely clothed female from (b)(5)(A) (b)(5)(A) was walking around outside her residence. The female was screaming that the world was coming to an end and she was asking for people to bring her pills. The female took the cover off of the reporting party's vehicle and she went back inside of her residence at (b)(5)(A). The female was banging her cupboards and talking very loudly. Deputies were dispatched to the call for service.

On Thursday, November 17, 2005, at approximately 0536 hours, the resident at (b)(5)(A) Terracina Circle called the Sheriff's Communication Center to report that the female

Page 2 of 3

neighbor from (b)(5)(A) broke through her front door and was in her house. (It was later determined the neighbor broke through the resident's bedroom window.) The resident told the Sheriff's Dispatcher that the female neighbor was lying on the couch bleeding. The reporting party told the dispatcher it sounded like her husband was arguing with the neighbor. The neighbor was heard yelling the word "Satan." The deputies arrived at the location and arrested the neighbor for burglary. The neighbor from (b)(5)(A) was later identified as Vanessa Facen. The paramedics were called to the scene and they began to transport Facen to Grossmont Hospital for treatment of the lacerations Facen sustained when she broke through the bedroom window.

On Thursday, November 17, 2005, at approximately 0619 hours, Facen became violent in the ambulance while en route to Grossmont Hospital. Facen broke the straps that were securing his legs and he sat up on the gurney. Facen refused to cooperate with the deputy and the paramedics inside of the ambulance. Facen began spitting at the deputy and the paramedics. Facen stated he had (b)(5)(C) and that he was going to give it to the deputy and the paramedics. The deputy ordered the ambulance driver to pull over to the side of the freeway (Northbound State Route 125 at Lemon Avenue) and the deputy called for immediate assistance. Facen continued to resist and spit at the deputy. The deputy applied two, three seconds bursts, of Oleoresin Capsicum (OC) spray to the area of Facen's face. The OC agent had little to no effect on Facen. Facen continued with his violent behavior and kicked out the rear window of the ambulance. La Mesa Police Officers arrived and Facen was shot with a taser gun. Facen, who was bleeding from his prior injuries, continued to be violent and the taser was applied an additional two times. Facen was eventually subdued and restrained to the gurney. The paramedics injected Facen with medication and the ambulance continued to transport Facen to Grossmont Hospital. After arriving at Grossmont Hospital, Facen again became violent and hospital staff administered intravenous drugs to sedate Facen.

On Thursday, November 17, 2005, at approximately 1633 hours, Facen was medically cleared by Grossmont Hospital staff for booking into the county jail. Facen was transported to the San Diego Central Jail for booking.

On Thursday, November 17, 2005, at approximately 1657 hours, Facen arrived at the jail in the rear seat of a patrol vehicle. Soon after arriving, Facen became agitated. Facen was yelling and he was kicking the cage area of the patrol vehicle. Facen attempted to remove a spit sock that was placed on him at Grossmont Hospital. The deputies attempted to subdue Facen, but he continually spat and kicked at them. A deputy sprayed Facen with OC spray, but the OC spray had no affect on Facen. Facen was able to move the spit sock above his mouth and nose. Facen spat on the interior portion of the vehicle and he spat at the deputies as they attempted to subdue him. During the process of

gaining control of Facen, a deputy hit Facen several times in the areas of his thigh and bicep with a baton. Eventually, the deputies were able to gain control of Facen and he was removed from the patrol vehicle. Facen was placed face down on a gurney and he continued to struggle for a few minutes. After Facen stopped struggling, deputies realized that Facen stopped breathing and he did not have a pulse. CPR was initiated and paramedics were requested. Facen was transported to UCSD Hospital for treatment.

On Monday, November 21, 2005, at approximately 1530 hours, Facen was pronounced deceased by UCSD Doctor (b)(5)(B). Sheriff's Homicide was notified of the death and investigators responded to UCSD Hospital.

Medical Examiner (b)(5)(B) (#25) was at UCSD Hospital when I arrived. (b)(5)(B) checked the body for trauma and no obvious signs of trauma were seen. I saw bandages on Facen's left middle finger and left forearm. I also saw stitches on Facen's left little (pinky) finger and abrasions in the area of his right knee.

On Wednesday, November 23, 2005, at approximately 0935 hours, Doctor (b)(5)(B) of the Medical Examiner's Office conducted an autopsy on Facen's body (ME Case# 05-2270). The autopsy did not reveal any significant injuries causing the death of Facen. The cause and manner of death is pending laboratory and toxicological tests.

PRIMARY VICTIM'S NAME (b)(5)(A)	PRIMARY SUSPECT'S NAME FACEN, Vanessa	SUSPECT'S DOB (b)(5)(A)	AGE/RNG

SYNOPSIS:

The suspect forcefully broke through the victim's bedroom window. The suspect, while bleeding, ran throughout the victim's house damaging property with bloodstains. The suspect spit blood on deputies and cut a deputy. The suspect was arrested and transported to Grossmont Hospital for cuts sustained while breaking through the victim's window.

ORIGIN:

On 11-17-05, at about 0536 hours Deputy DAVIS (0402), Deputy PATA (0864), Deputy LICUDINE (4666), Deputy FIESTEL (4714) and I received a radio call of a residential burglary in progress at (b)(5)(A) Spring Valley.

INVESTIGATION:**BACKGROUND INFORMATION:**

None.

Upon arrival I saw the front door of the above house open. I could hear my partners, who were inside the house, shouting "get down, get down." I entered the house and saw a black male, later identified as Vanessa FACEN, lying face down on the living room floor. FACEN was completely naked and had blood stains over most of his body. I could see FACEN was still bleeding from cut wounds. I saw blood scattered on the furniture and carpet in the house.

Deputy LICUDINE had her duty weapon pointed at FACEN. FACEN was not following deputy orders, to stay down on the floor. Deputy LICUDINE was eventually able to settle FACEN down and listen to her orders. As I prepared to handcuff FACEN he said, "I'm (b)(5)(C), I'm suppose to let you guys know I have (b)(5)(C), so I don't spread it." I put on my gloves and handcuffed FACEN.

We requested paramedics respond to the scene. Deputy DAVIS and I searched the residence for victims. We located the resident (b)(5)(A), and her son locked in an upstairs bedroom. I escorted (b)(5)(A) and her son out of the house.

Paramedic Unit 257 arrived on scene. Paramedics and Deputy DAVIS transported FACEN to Grossmont Hospital.

I contacted the victim (b)(5)(A) who told me the following:

CASE NUMBER:

05080923-L

REPORT DATE:

11/17/2005

STATEMENTS:**Statement of (b)(5)(A), (b) (VICTIM):**

(b)(5)(B) is the resident at the above address. (b)(5)(B) called the Sheriff to report her house being burglarized.

(b)(5)(B) said at about 0530 hours, she heard a loud banging noise in her house.

(b)(5)(B) said she came out of her upstairs bedroom and saw her neighbor FACEN "come crashing through the upstairs window." (b)(5)(B) ran into her bedroom and called 911. (b)(5)(B) said she pushed her dresser in front of her bedroom door.

(b)(5)(B) said she could hear FACEN moving around the house and screaming.

(b)(5)(B) said she stayed in her room until we escorted her out.

I walked through the house and took photos of the damage. I provided (b)(5)(B) the case number.

At about 0620 hours, I heard over my hand held radio, Deputy DAVIS called for code cover. DAVIS gave a location of northbound Hwy 125 and Lemon Avenue. Deputies had to use additional force to bring FACEN under control. FACEN kicked out the ambulance window. FACEN spit on deputies and dug his fingernails into Deputy LICUDINE's forearm. Deputy PATA sustained a small cut on his arm. Deputy LICUDINE and PATA went to seek medical attention for their injuries.

put the photos into Lemon Grove Evidence

EVIDENCE:

Photos

INJURIES:

Deputy LICUDINE was cut and spit on

Deputy PATA was cut

PROPERTY DAMAGE:

Broken windows.

Damaged furniture.

Damaged carpet.

FOLLOW-UP:

As needed.

CODE SECTION AND DESCRIPTION (ONE INCIDENT ONLY)

Deputy's Report

LOCATION OF INCIDENT

(b)(5)(A)

CITY
Spring Valley

PERSON(S) INVOLVED: VICTIM

SUSPECT (IF NAMED)
Facen, Vanessa

ORIGIN:

On 11-17-05, at approximately 0536 hours, I responded to (b)(5)(A) as a cover deputy for a 5150 person. I arrived at approximately 0550 hours at the above address.

INVESTIGATION:

The subject, who was later identified as, Vanessa Facen was arrested by Deputy Spillman #0779. See Spillmans Arrest Report.

Facen was transported by ambulance to Grossmont Hospital with Deputy Davis #0402. While in route to the hospital, Davis called for Code Cover at approximately 0619 hours while he was northbound Hwy 125 and Lemon Ave. I arrived and saw the ambulance had pulled over to the shoulder and Facen was yelling and kicking inside the ambulance.

Facen was very agitated and was screaming and kicking every time people tried to open the ambulance door. Facen was a health risk to deputies and paramedics due to the fact he stated he was (b)(5)(C) and was covered in his own blood.

I opened the rear door to the ambulance and secured his right leg with both my hands. Facen continued to kick as deputies secured him to the gurney. I maintained control of his right leg while the ambulance continued to Grossmont Hospital.

MONTH 10 DAY 19 YEAR 06

DAY OF WEEK THU TIME 0220

LOCATION OF INCIDENT
(b)(5)(A) [REDACTED]

CITY
Spring Valley

BEAT
628

PERSON(S) INVOLVED: VICTIM

SUSPECT (IF NAMED)
Facen, Vanessa

PROPERTY TAG NO. (S)

ORIGIN:

On 10-17-06, I was given a Use of Force Death Investigation follow-up form by Sheriff's Homicide Unit regarding, Vanessa Facen. Facen was arrested on 11-17-05 for 459 P.C. Burglary in which I was one of the first units on scene, (see case #05080923-L).

INVESTIGATION:

I arrived at (b)(5)(A) [REDACTED] At approximately 0539 hours. I noticed the window on the second floor over the garage was broken. The front door had a steel security screen door that was locked and the front door behind the screen was open. I could hear a subject inside the residence screaming, but could not understand what he was saying. I went to the rear of the residence and looked through the glass sliding door which was locked. I saw a black male adult running back and fourth in the living room. The subject, who was later identified as Vanessa Facen, was naked and covered in blood.

I went back to the front door and saw Deputy Feistel #4714 asking Facen to open the front door. Facen approached the front door and was opening and then slamming the door closed repeatedly. Facen was still yelling making statements about God and Satan. Facen left the front door and went to an unknown area inside the house.

The homeowner came to the front door and unlocked the screen. The home owner exited the house and told me his neighbor was inside the house breaking things and was out of control. I entered the residence along with Deputy Feistel who had his K9; I was carrying a less lethal shot gun loaded with bean bag rounds. I noticed the carpet was covered in blood and noticed a blood trail going up the stairs to the second floor. Other responding units arrived as we made contact with Facen who was down a hall on the first floor.

Facen was still yelling making statements about Satan and acting like he was under the influence of a controlled substance. Facen would not stand still and continued to pace up and down the hallway as he was attempting to pull his hair out from his head.

Facen was eventually talked into a prone position on the living room floor without using force. Facen stated he was (b)(5)(C) [REDACTED] as deputies approached and handcuffed him. Facen was attended to by Paramedics and placed into an ambulance for transport to Grossmont Hospital for lacerations he sustained when he broke through the upstairs window.

I was still at the crime scene when Deputy Davis# 0402, called for Code Cover on north bound Hwy 125 in La Mesa from the ambulance. I responded to the call and saw the ambulance had stopped on the shoulder of the freeway. Facen was still inside the ambulance on the gurney, but was yelling and

REPORTING OFFICER <i>M. PATA</i>	ARJIS # 0864	DIVISION L.A.-PAT	APPROVED BY: <i>M. J. Shuey Jr.</i>	DATE OF REPORT: 10/19/06	MONTH 10	DAY 19	YEAR 06	TIME 0220
-------------------------------------	-----------------	----------------------	--	-----------------------------	-------------	-----------	------------	--------------

ARJIS-9C REV 8/01

kicking at the rear door. Facen was still handcuffed to the gurney, but he was able to sit up and slide down the hand rails of the gurney.

Facen was inside the ambulance kicking at the rear door and yelling when he kicked out the rear window breaking the glass. La Mesa police arrived with a taser gun and entered the side door of the ambulance and applied a contact stun to Facen. At the same time Deputy Davis and I opened the rear door and took control of Facen's legs. I applied downward pressure with my hands on Facen's ankles trying to stop him from kicking me and other deputies. Paramedics entered the ambulance and attempted to secure Facen with leather restraints to the gurney.

I maintained downward pressure on Facen's ankles as we continued to Grossmont Hospital without further incident.

ORIGIN:

On 11-17-05, at about 0536 hours, I received a radio call to investigate a report of a Burglary in progress at (b)(5)(A) in Spring Valley. CAD #4782791.

INVESTIGATION:

I arrived on scene at about 0539 hours and noticed the upstairs window was broken. I grabbed my K-9 partner "Bonkas" from my patrol vehicle and walked towards the residence. As Deputy Pata #0846 and I approached the residence, the front door of the residence opened. I observed a male subject standing in the doorway behind the front security screen door. The subject, later identified as Vanessa Facen, was yelling and screaming in the door way. Facen appeared highly agitated. I gave Facen verbal commands to open the door and exit the residence with his hands in the air. Facen continued to yell while opening and closing the front door violently. Facen then walked to the rear of the residence. Deputy Pata and I tried to open the front door but the security screen door was locked.

A few seconds later, the homeowner opened the screen door and exited the residence. Deputy Pata, Deputy Licudine and I entered the residence. As I proceeded down the hallway I noticed there was blood on the hallway floor. It was unknown at this time exactly where Facen was. As I entered the living room area I noticed more blood on the couch, walls and the living room carpet. The light was on in the bathroom and the water was running. Facen was inside the bathroom and was still yelling and screaming. I took a position in the corner of the living room with my K-9 at a forty five degree angle from the bathroom door. Deputy Licudine was to my right and Deputy Pata was to my left.

Facen exited the bathroom and was bleeding profusely from the head. Facen was not wearing any clothes and was yelling and screaming about God and the Devil. I gave Facen verbal commands to get on the ground or he would be bitten by my K-9. Facen did not comply with my commands and continued to scream. Facen was covered in blood and appeared to be under the influence of a controlled substance. Facen was not making any sense as he continued to yell. Deputy Licudine began giving Facen verbal commands and was able to calm him down. Deputy Licudine told Facen to lie face down on the ground and he complied. Deputy Spillman placed Facen into handcuffs without further incident.

Paramedics arrived on scene and began treating Facen for his injuries. Facen was placed onto the gurney and handcuffed to the side rails. Paramedics secured Facen and placed him in to the rear of the ambulance. Deputy Davis rode in the rear of the ambulance with the paramedic and Facen. The ambulance left the scene and was en route to Grossmont Hospital. A few minutes later, Deputy Davis called for code cover on State Route Hwy 125 and Lemon Ave. I left the Terracina address and

responded to Hwy 125 and Lemon Ave. The ambulance had pulled over to the right shoulder of the freeway. Deputy Davis and the paramedics had exited the ambulance. Facen was still in the rear of the ambulance yelling and screaming. Facen continued to yell and began kicking the rear ambulance doors. La Mesa PD had responded to the scene with a taser gun as Deputies devised a plan to try and gain control of Facen. Facen then kicked out the rear window of the ambulance door as he continued to scream and yell. The La Mesa PD Officer then opened the side door of the ambulance and deployed his taser gun. Deputies and paramedics entered the ambulance and was able to subdue Facen. I did not enter the rear of the ambulance. Facen was then transported to the hospital.

DATE OF REPORT 11/20/2005		TIME 02:00

ORIGIN:

On 11-17-2005, at approximately 0536 hours, I responded as a cover deputy to a call of a hot prowler at (b)(5)(A) Terracina Cir. in Spring Valley. I arrived at about 0555 hours.

INVESTIGATION:

Deputy's and I entered the above residence in an attempt to subdue the suspect. The suspect, who was later identified as Vanessa Facen, was naked and covered in his own blood. Facen was yelling and screaming and ran into a downstairs bathroom. Facen was not complying with Deputy's commands. I moved into the kitchen for better observation of Facen. Facen was still very combative and was making statement that he was (b)(5)(C) and would spread his (b)(5)(C). I pointed my duty weapon at Facen and gave verbal commands to get on the ground. Facen complied. Facen was arrested by Deputy Spillman (#0779). (see arrest report for details)

Facen was transported by ambulance to the hospital. Deputy Davis (#0402) rode in the ambulance with Facen. While en route to the hospital Deputy Davis called for code cover. Davis advised he had the ambulance pull over and his location was Hwy 125 North and Lemon Ave. I arrived shortly after. I observed Facen kicking and screaming inside the ambulance. I opened the door in an effort to calm Facen down. Before I could say anything Facen turned to me and spit in my face. I immediately closed the ambulance door and cleansed my face with a disinfectant provided to me by a paramedic.

Deputy's distracted Facen in the rear of the ambulance. I made entry from the side and placed a spit sock over Facen's face. Facen continued to fight and spit at me through the mask. Facen all though handcuffed to the gurney was able to reach up to his face and tear a hole in the spit sock. I immediately placed an additional spit sock over Facen's head. I maintained a constant grip with my right hand to the spit sock in an effort to prevent Facen from removing it and contaminating staff and deputies any further.

With my left hand and my body weight I maintained control of his left hand/arm while the ambulance continued to Grossmont Hospital. Facen was squeezing my left arm/wrist. At some point Facen was able to break my skin on my left forearm by digging his nails into my arm. My arms were covered in Facen's blood.

Once at the hospital I was assisted by hospital staff in cleaning the affected areas and was placed on medication for possible exposure to (b)(5)(C).

PRIMARY VICTIM'S NAME VENESSA FACEN	PRIMARY SUSPECT'S NAME (b)(5)(A)		AGE RNG 35	

ORIGIN:

On 11-17-2005, at approximately 0619 hours I was involved in a use of force with a male adult that was under arrest for 459 P.C. The subject Venessa Facen was being transported to Grossmont Hospital for treatment of injuries he sustained breaking through a window of his neighbors residence. During the transport to the hospital the following incident occurred.

INVESTIGATION:

On 11-17-2005, at about 0536 hours, I responded to (b)(5)(A) Spring Valley, to a call of a burglary in progress. My self and several other deputies arrived at the scene and a black male adult, later identified as Vanessa Facen was arrested by Deputy Spillman #0779 for 459 P.C. Burglary. Facen had sustained several lacerations to his body and was bleeding heavily. See Spillmans Arrest Report.

AMR responded to the scene to transport Facen to Grossmont Hospital for medical treatment. Due to Facen's agitated and combative state was handcuffed by me and Spillman to the gurney and his legs were strapped down by paramedics. The AMR personnel requested a deputy ride in the rear of the ambulance. I accompanied the paramedics in the rear of the ambulance for the safety of the ambulance personnel.

While en route to Grossmont Hospital Facen became more and more agitated and combative. Facen began to scream and kick his legs violently in an attempt to free his legs. Facen ignored repeated commands by me to stop resisting. Facen broke the straps that were securing his legs and sat up on the gurney. The paramedic and I tried to get Facen to lay back down by using downward pressure on both of his shoulders, to no avail. Facen twisted free of our grasp and began to spit at myself and the paramedic. Facen stated he had (b)(5) and he was going to give it to us as well. I ordered the ambulance driver to pull over to the side of the freeway and via my handheld radio I called for Code Cover.

Once the ambulance stopped on the shoulder of State Route 125 North, I ordered both paramedics out of the vehicle. Facen was attempting to stand in the rear of the ambulance and continued to scream and spit at me. Fearing for my safety and that of the paramedics I applied two three second bursts of OC Agent to the facial area of Facen. I ensured that both paramedics were out of the vehicle and I exited the ambulance and waited for responding deputies to arrive. I maintained a visual on

Facen, who was still attempting to now break the handcuffs off the gurney. The OC Agent had little to no effect on Facen.

Once responding deputies arrived, I briefed them on what had transpired in the ambulance. While I was explaining the situation, Facen kicked out the rear window of the ambulance. La Mesa Police Officers arrived on the scene with a taser gun. We decided to use less lethal force to get compliance from facen so he could be transported safely to the hospital.

La Mesa Police entered the ambulance though the side door and deployed taser gun to immobilize Facen and myself and Pata #0864 made entry through the rear door of the ambulance to assist. I maintained control of Facen's left leg by using downward pressure with my right knee and right hand. Facen continued to fight and attempt to spit on deputies. Facen who was covered in his own blood attempted to kick and bite deputies as well. Due to the level of violence and disregard for his safety as well as that of law enforcement Facen was tased three more times by La Mesa Police in order for Facen to be resecured to the gurney. Facen was given a shot of medication by paramedics once secured. I had control of his right leg until we arrived at Grossmont Hospital. Once we arrived I had no further contact with Facen.

ORIGIN:

On 10-17-2006, I received a request from San Diego Sheriff's Department Homicide to answer several follow up questions reference a use of force that occurred on 11-17-2005, (see case # 05080923-L).

OFFICER'S OBSERVATIONS AND ACTIONS:

I arrived at the scene and took a position at the rear of the residence to ensure the suspect did not flee out the back door. After Facen was secured by Deputy Spillman I entered the residence and I observed blood throughout the house and broken glass on the stairs and floor. Facen was lying facedown on the living room floor, screaming obscenities and yelling about God. Facen was compliant but appeared to be under the influence of a controlled substance. Facen was sweating heavily and was not making any sense. He did not appear to know where he was or what was happening and was completely naked.

Once the Paramedics arrived Facen was uncuffed and placed on his back on a gurney. Deputy Spillman handcuffed both of Facen's wrists, each of them to the side rails of the gurney. Facen was told by paramedics where he was going to be transported to and at the time Facen appeared coherent and was compliant. The paramedics, before transporting Facen also secured him with restraints. One on each ankle, one on each wrist and one across his midsection.

Facen's injuries that I observed were multiple lacerations to his head and body that he sustained breaking though the window of the residence he entered and was bleeding profusely.

While being transported to Grossmont Hospital Facen became combative and broke all restraints except the handcuffs. Facen attempted to get off the gurney and began to spit at myself and the paramedic nurse that was in the rear of the ambulance. Facen stated he was (b)(5)(C) and was going to give it to us. Force was used so that I and the paramedics could exit the ambulance safely.

Facen was resecured to the gurney and transported to Grossmont Hospital and I had no further contact with Facen.

REPORTING OFFICER
Hout ARJIS
2284 DIVISION
PATROLDATE OF REPORT
11/17/2005**ORIGIN:**

On 11-17-2005 at about 0619 hours, I was attending briefing preparing for a patrol shift when the following incident occurred. Event# S4782791.

Deputy's Observations and Actions:

I was monitoring Lemon Grove Dispatch when I heard Deputy Davis advise he needed emergency cover on northbound 125 at Lemon Street in the city of La Mesa. I drove code 3, lights and siren, to Davis' location.

I arrived at about 0622 hours and observed Davis and two paramedics standing outside the ambulance. I could smell the odor of pepper spray. The doors on the ambulance were closed and I could see a naked black male, later identified as Vanessa Facen, in the back of the ambulance jerking his arms up and down and violently thrashing from side to side. I could hear metal hitting metal and the ambulance was rocking back and forth. I could see what appeared to be spit hanging from his chin and spraying out of his mouth as he screamed.

I asked Davis what happened and he told me Facen began trying to get out of the gurney, pulled off his protective mask and began spitting at him and the paramedics. Davis told me he used pepper spray and verbal commands to overcome Facen's resistance but both had failed. Davis told me he had to stop the ambulance and get out to preserve his and the paramedic's safety. Davis told me Facen is (b)(5)(C).

As I stood outside the ambulance and Facen continued to violently thrash back and forth, apparently attempting to free himself, I became extremely concerned for my safety. I was afraid if Facen did manage to escape from the ambulance and advanced toward myself and Davis spitting at us, we would have no way of protecting ourselves against the spit, blood and exposure to the (b)(5)(C).

At 0633 hours, I requested the assistance of La Mesa Police for the use of a taser. LMPD arrived at about 0640 hours.

While forming a plan to gain control of Facen, he continued to scream, thrash back and forth and kicked the rear window out of the ambulance.

Deputy's Report

CASE NUMBER:

05080923-L

REPORT DATE:

11/17/2005

When Facen's attention was focused toward the rear of the ambulance, a La Mesa Police Officer deployed the taser successfully contacting Facen in the back.

Deputies Licudinie, Pata, Davis and several paramedic personnel entered the ambulance and placed a spit sock over Facen's head. The taser was successful in assisting in control of Facen until the five-second burst stopped, then Facen immediately began fighting again. It took approximately five minutes to successfully restrain Facen.

Facen was transported to the Grossmont Hospital where he was treated for his injuries. Licudinie, Pata and Davis road in the ambulance. I assisted by following the ambulance.

At the hospital, I observed Licudinie cleaning wet and dried blood from her forearms. I observed Licudinie wash of a portion of dried blood on her left forearm exposing a break in her skin. Licudinie's injury was immediately reported to hospital staff and to Sgt. Robbins a short time later.

OFFICER'S REPORT

On 11/17/2005 at 0638 hours I was dispatched to SR-125 and Lemon Ave. to assist S.D.S.O. Deputies and AMR Paramedic Unit 255 with a combative subject. When I arrived I saw the left rear window of the ambulance was broken out. I met with the Deputies and Paramedics. They explained they had arrested a subject as a result of a "hot prowl" call that occurred in Lemon Grove. When the subject was contacted the subject was naked and had many lacerations to the head and body, the result of breaking into a second story window and falling onto the first story floor beneath it. During transport via ambulance the subject became violent. The subject broke out the left rear window, unsecured the gurney and loosened one of the arm restraints.

I looked into the ambulance from the rear passenger side door window. I saw a naked black adult, covered in blood. The subject had male genitalia and large breasts. The subject was screaming about "killing all the white women," black Greeks unite!" and "I'll spit on you! I'll kill you all!" One of the ambulance personnel told me the subject informed them earlier that the subject was diagnosed with [REDACTED] (b)(5)(C).

The subject continued to thrash about and was spitting all over the ambulance. As Deputies opened the rear doors, I opened the passenger side door. The subject began spitting at the Deputies. I deployed my X-26 Tazer on the subject. The probes struck the subject in the back and the Tazer immobilized the subject for 5 seconds, allowing the Deputies and Paramedics to gain control of the subject, and place a "spit sock" over the subject's head. Prior to securing the subject to the gurney, the subject continued to fight with the Deputies and Paramedics. I told the subject to stop fighting or I would use the Tazer again. The subject ignored me by continuing to fight, scream and spit in the "spit sock." I activated the X-26 Tazer two more times before the Deputies and Paramedics were able to restrain the subject and administer an intravenous drug to sedate the subject.

I followed the ambulance to the Grossmont Emergency Room. While there, I was observing the subject, awaiting for a day-shift Deputy to arrive and take custody of the subject. During the wait, the subject became violent once again, this time spitting and threatening one of the nursing staff. With the help of Grossmont Hospital Security, I was able to restrain the subject and place a "spit sock" over the subject's head. We continued to restrain the subject until more intravenous drugs were administered by E.R. staff and the subject was sedated.

While at the E.R., I collected the X-26 Tazer cartridge and later impounded it into LMPD Property. See Property Tag #65527.

During the subjects spitting and fighting, I came into direct contact with his blood and spittle. My uniform also received numerous stains from the subject's blood and spittle.

The subject's full name is unknown. The subject was admitted to the hospital under the name ^{(b)(5)(C)} Vanessa Unknown. The subject's age is possibly 35 years old. The subject's admission number is ^{(b)(5)(C)} and the medical record number is ^{(b)(5)(C)}. The attending Emergency Room Doctor is Dr. ^{(b)(5)(B)}. The San Diego Sheriff's Supervisor on scene was Sgt. Robbins.

REPORTING OFFICER B. Farr	ID # 2618	DIVISION PATROL	DATE OF REPORT 11/17/2005	TIME 16:50
PRIMARY VICTIM'S NAME		PRIMARY SUSPECT'S NAME Facen, Vanessa	(b)(5)(A) ^{OB}	AGE RNG 35

ORIGIN:

On 11/17/2005 at about 0719 hours I received a radio call to assist Deputy Spillman #0779 with a prisoner at Grossmont Hospital in La Mesa, CA.

INVESTIGATION:

I arrived at about 0743 hours. Vanessa Facen was arrested and was being treated at Grossmont Hospital for his injuries. I was assigned to stand by with Facen until the medical staff at Grossmont Hospital cleared him.

While at the Hospital Facen was kept sedated and restrained to his medical bed with a spit sock on his head by medical staff because he was HIV positive and was spitting blood at anyone that came near to him. Facen was also kicking and trying to break free of his restraints. Several times Facen told me he had (b)(5)(C) and he would spit on me because I was a "white devil" and needed to be saved.

Over the course of the hospital stay Facen became compliant with medical staff so the medical staff took off Facen's spit sock.

At about 1633 hours Facen was medically cleared by Grossmont Hospital. Because of Facen's earlier statement I put a new spit sock over Facen's face. I placed Facen in leg chains and waist chains. Facen was compliant.

While enroute to San Diego Central Jail Facen started to become agitated. He began kicking the floorboard of my patrol vehicle. I arrived at San Diego Central Jail at about 1657 hours and pulled into the Jail's vehicle Sallyport. Facen had once again calmed down. Deputy Hunrichs #0985 had followed me from the Hospital to assist if needed.

After being parked in the Vehicle Sallyport Facen became agitated again. No one had spoken to Facen to insight him he just started kicking the cage area of the back seat of my patrol vehicle and yelling. I opened the vehicle door to try and calm Facen down. Facen attempted to spit through the spit sock at me. Facen told me again that he had (b)(5)(C) and I would die. Several Deputies attempted to talk with Facen but each attempt was met with more yelling and spitting.

Facen became more agitated and started using the patrol vehicle cage to remove his spit sock. Facen also started kicking the rear driver's side door. I attempted to grab Facen at least 6 times to keep him from kicking the vehicle and from removing his spit sock. Each time Facen would spit at me and attempt to kick me. During one of my attempts I pepper sprayed Facen in the face. The pepperspray had no affect on Facen.

CODE SECTION: Use of Force Report

CASE NUMBER:

05080923-L

REPORT DATE:

11/17/2005

After several minutes Facen got his spit sock above his mouth and nose. Facen began spitting inside of my patrol vehicle. Facen had blood in his mouth from an earlier injury so Facen's spit was mixed with his blood, which Facen reminded me on several occasions contained the (b)(5)(C). I made two attempts to get Facen's spit sock back over his mouth. Each time Facen would spit a mouthful of bloody sputum at me. Facen also began kicking the rear driver's side window with his feet. Facen shattered the rear window. Then Facen stuck his head outside the vehicle window and started spitting at anyone near the window.

I requested two bed sheets from the San Diego Jail Staff. I gave one sheet to Deputy Hunrichs on one side of the vehicle and I took the second sheet to the passenger side of the vehicle. I opened the rear passenger side door and used the sheet to block Facen's spit. I was able to get the bed sheet over Facen's head. Facen lunged at me. I used my expandable baton in a jabbing motion to keep Facen from getting to me. While I had Facen's attention Deputy Hunrichs grabbed Facen by the leg chains and started dragging him out of the driver's side of the vehicle.

I came over to the driver's side of the vehicle. I saw Facen trying to kick at Deputy Hunrichs and then Facen attempted to sit up and reach Deputy Hunrichs. Fearing Facen would use his long fingernails to scratch Deputy Hunrichs and transmit the HIV Virus I began to hit Facen with my baton in the thigh and bicep areas of his body.

Facen was dragged out onto concrete. Deputy Hunrichs had control of Facen's head. Facen still had bed sheet over his head. Deputy Hunrichs was attempting to remove the bed sheet and put a spit sock over Facen's face. Every time Deputy Hunrichs removed the bed sheet Facen would go into a rampage and start fighting and trying to spit on anyone near him. Facen was able to reach up with his hands to keep Deputy Hunrichs from putting the spit sock on. I grabbed Facen's right hand to put it behind his back. Facen refused to put his hand behind his back. Facen kept grabbing at the bed sheet and spit sock. I used the end of my baton to hit Facen in the right bicep about 6 times. I was then able to get both of Facen's hands handcuffed behind his back.

Deputy Hunrichs and I tried a few more times to remove the bed sheet and put a spit sock over Facen's head. Each time we started to remove the bed sheet Facen would start trying to resist and start trying to spit on everyone.

Facen was on his stomach with his hands cuffed behind his back and his legs chained. I assisted lifting Facen onto a gurney by lifting Facen by his left shoulder. Facen was placed face down on the gurney. Other Deputies held Facen's feet, Deputy Hunrichs controlled Facen's head, and I kept control of Facen's upper body. Facen kept trying to struggle. I had to used my right knee with a sufficient downward pressure to keep Facen from falling off of the gurney.

After a few minutes in this position Facen stopped struggling. Within a minute of Facen stopping the struggle I checked Facen for a pulse. I could not feel a pulse. Facen was taken off the gurney and put on the cement floor. The spit sock and bed sheet were removed along with Facen's restraints. I

ORIGIN:

On November 2006 I was directed by Lt Andrews to complete a Deputy's Report regarding some follow up questions Sheriff's Homicide Investigators had reference Event #S4782791 and Case #05080923-L. I was given a copy of the questions by Lt Andrews.

INVESTIGATION:**Question #1**

While Facen was in the back seat of my patrol vehicle in the San Diego Central Jail Sallyport I utilized my OC Spray to attempt to gain control of Facen. I sprayed 1-2 bursts of about 2-3 seconds at Facen's upper torso and face.

Question #2

After I put the bed sheet over Facen, he lunged at me. I used my baton in a jabbing motion to keep him from getting to me. I did make contact with Facen, but I do not remember how many times. I do remember Facen was able to grab my baton at least twice and Facen tried to pull it out of my hands. I was unable to tell exactly where I contacted Facen because the bed sheet was over him and I could not see his body clearly.

Question #3

As Facen was being dragged out of the patrol vehicle by Deputy Hunrichs #0985 I was standing to the left of Facen. I used my baton in a striking motion to hit his left arm/bicep and left thigh area. I do not remember how many times I struck Facen.

Question #4

While Facen was on the gurney I used my knee to prevent Facen from falling off of the gurney. I placed my knee on Facen's lower back/buttock area. When Facen would start to struggle I would increase the downward pressure of my knee to prevent Facen from bouncing off of the gurney. When Facen would stop struggling I would keep my knee on Facen's lower back/buttock area, but I would release the downward pressure until Facen started struggling again. I do not remember how long this went on for.

SUSPECT (IF NAMED)

Facen, Vanessa

PROPERTY TAG NO (S)

On 11-17-05 at around 16:08 hours I was dispatched to assist Deputy Farr at Grossmont Hospital with a previously combative prisoner. The prisoner, Vanessa Facen, had been arrested earlier in the day for Hot Prowl Burglary and Assault w/ Deadly Weapon. Facen had been released from the hospital and needed to be transported to the San Diego Central Jail for booking. I arrived at the hospital and escorted Facen to Deputy Farr's patrol car. We had been advised to use Universal Precautions when handling this prisoner. Facen walked to the car without incident. Deputy Farr drove with Facen in his car and I followed in my patrol car.

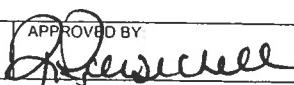

When we arrived at SDCJ we both entered through the vehicle gate and parked. Farr had stopped his vehicle in the middle of the drive because Facen had become agitated and started spitting through the spit sock and surgical mask which had been placed on his head at Grossmont Hospital.

Facen was stomping his bare feet on the floor of Farr's patrol car and was rocking back and forth. Facen yelled out at any Deputy in the area "I'm going to kill you" as he spit on the interior of the back seat windows. Several Deputies were in the area waiting to book other prisoners and a transportation bus had delivered several inmates. Facen was able to lean to the side and kick at the door and window of the left passenger door in Farr's patrol car. Facen was eventually able to kick the window hard enough to break the glass and bend out the window frame.

Farr requested that some bed sheets from the jail laundry be provided to allow us to approach Facen without being spit upon. We were able to subdue Facen and a sheet was placed over his head when he was removed from the car. Facen was still in waist and ankle chains when we removed him from the patrol car. Facen continued to struggle with us as we tried to control him and prevent him from spitting on us. We were advised by jail staff that Facen would have to be seen at County Mental Health prior to being accepted at the jail. We were discussing how to transport the combative and spitting Facen when he stopped struggling. We observed his breathing and checked for a pulse. He had stopped breathing and a pulse could not be detected at his carotid artery. We called for jail medical staff and for paramedics. Deputy Farr and another deputy from the jail initiated CPR on Facen and continued until they were replaced by the paramedics. The paramedics transported Facen to UCSD Hospital and I followed in my patrol car. While enroute to the hospital Facen regained a pulse but was still not breathing on his own.

I remained at the hospital until relieved by a Jail Deputy who took custody of Facen at around 2100 hours on 11-17-05.

I returned to Grossmont Hospital and recovered vials of the suspect's blood which had been collected as evidence earlier in the day. The vials were placed in the refrigerated evidence locker at Las Colinas Detention Facility.

CODE SECTION AND DESCRIPTION (ONE INCIDENT ONLY) Deputy's Report, Follow-up		LOCATION OF INCIDENT San Diego Central Jail		
		CITY San Diego	PERSON(S) INVOLVED: VICTIM Facen, Vanessa	
		SUSPECT (IF NAMED) Facen, Vanessa		
		PROPERTY TAG NO. (S)		

On 10-26-2006 I received a series of follow up questions about the death investigation from November 17th, 2005. The following information is in response to those questions and is a supplement to my earlier Deputy's Report dated 11-17-05.

Deputy Hunrichs wrote that Facen was subdued and a bed sheet was placed over Facen's head. How was Facen subdued? Was any force used to subdue Facen? And if so, what type of force was used? How was Facen removed from the vehicle? Did the bed sheet restrict Facen's breathing at anytime during the incident?

Facen was able to kick out the rear passenger side window of Deputy Farr's patrol car even though he was restrained in waist chains and leg chains. He had also removed the spit sock that had been placed on his head. After the bed sheet was obtained we opened the damaged door and tried to remove Facen from the car by shielding ourselves with the bed sheet as we approached the car. As we approached the car Facen continued to threaten to kill us and spit in our direction. We were able to get close enough to the back seat of the car that when Facen tried to kick us we were able to throw the sheet over his head and grab him by the legs and leg chains. We pulled Facen out of the car and he slid out onto the ground. There was broken glass on the ground around the car and we moved him out of the area by lifting him and moving him to a clear area. The bed sheet was over his head and face but it did not restrict his breathing. Facen was yelling at us throughout the entire time.

Deputy Hunrichs wrote in his report that Facen continued to struggle as they tried to control him. How was Facen struggling and how was control gained?

Facen was removed from the car by Deputy Farr and myself. We were wearing surgical face shields and gloves. We used the bed sheet to stop Facen from spitting at us and we were able to get him out of the car and onto the ground. Since Facen was no longer a threat to spit on unprotected deputies, other deputies from the jail were able to safely approach Facen and assist in controlling him. Facen was held down by several deputies holding him. Facen still struggled and tried to get up but could not.

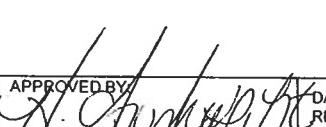

Did Deputy Hunrichs have any direct contact with Facen, such as pulling him from the vehicle by the leg chains or controlling his head during the incident?

Deputy Farr and I removed Facen from the vehicle. I controlled Facen's head using the bed sheet held over his head to prevent him from spitting on us. I used both hands to hold his head and position the sheet over his face. The bed sheet was held bunched up just under his chin.

Deputy Hunrichs wrote in his report that Facen stopped struggling. Where was Facen when he stopped struggling? Was he on the ground or was he on a gurney? Did Deputy Hunrichs assist with placing Facen on the gurney? Did Deputy Hunrichs control Facen's head when Facen was on the gurney? If so, how?

When Facen was first removed from the vehicle he was placed on the ground near the vehicle. He was there a short time until the gurney was brought out from the jail. Deputy Farr and I were helped by other deputies to move Facen onto the gurney while Facen continued to struggle and get up. He was unable to get up because there were several deputies holding him on the gurney.

I held Facen's head holding the bed sheet over his head and face. The sheet was bunched up under his chin and held in my right hand to keep the sheet in place. My left hand was behind Facen's head. Facen stopped struggling while he was on the gurney and he was checked after he stopped yelling and struggling. The bed sheet was removed from his face and no breathing or pulse was detected. Jail medical staff and paramedics were called.

CITY
San Diego

PERSON(S) INVOLVED; VICTIM
Facen, Vannessa

PROPERTY TAG NO. (\$)

ORIGIN:

On 11-17-05, at about 1645 hours I was working the Intake Control Deputy position at the San Diego Central Jail. I went out to the Vehicle Sally port to assist deputies with a combative inmate.

DEPUTY'S OBSERVATIONS AND ACTIONS:

Upon arriving to the Vehicle Sally port, I observed an inmate later identified as Facen, Vannessa in the back of a Sheriff's Unit yelling and kicking. Facen began spitting toward the deputies. In attempt to keep Facen from spitting I placed a bed sheet over his upper body and facial area.

To keep Facen from kicking deputies I secured his right ankle with my left hand. Using my right hand I applied sufficient downward pressure on Facen's right calf to secure his right leg while leg chains were applied. Once leg chains were applied, I used my left and right hands to secure Facen's right leg applying sufficient downward force to keep him from kicking. I used both hands placing them around Facen's right ankle and assisted with lifting him onto a gurney.

Facen was on the gurney on his stomach for 3 to 5 minutes. Sgt. Meeks 5411 instructed me to evaluate Facen to check if he was breathing. I checked Facen's left wrist for a pulse with negative results. I attempted to find a pulse on Facen's neck with negative results.

Failing to find a pulse, I obtained a PAM mask and decided to perform CPR on Facen. I performed rescue breathing continuing until medical staff and Paramedics arrived on scene. I assisted them by holding the Ambu bag on his face. I continued to hold the Ambu bag until I was relieved by a Paramedic.

I had no further contact with Facen.

SUSPECT (IF NAMED)

PROPERTY TAG NO. (S)

ORIGIN:

On 11-17-05, at about 1645 hours I went out to the Vehicle Sally port to assist deputies with a combative inmate which resulted in a use of force.

DEPUTY'S OBSERVATIONS AND ACTIONS:

Upon arriving to the Vehicle Sally port, I was advised by the arresting deputy that Facen was [REDACTED] (b)(5)(C). Facen was able to partially remove the spit sock from the lower part of his face. Facen began to spit attempting to get his saliva in the deputies' eyes. I instructed Corporal Wilcox (3297) to get me a bed sheet. Corporal Wilcox handed me the bed sheet through the intake window.

The arresting deputy opened the right rear passenger door of the unit attempting to move Facen toward the left rear passenger side. The deputies on the driver's side of the unit opened the left rear passenger door and attempted to remove Facen from the unit. I tossed the sheet with my right hand through the back of the unit as the deputies were pulling Facen out of the unit. The folded sheet landed on Facen's face and the upper part of his chest. This allowed the deputies to remove Facen from the unit without being spat on. The sheet was only on Facen's face for about 5-7 seconds. The sheet fell off of Facen and onto the floor as he was removed from the unit and placed onto his stomach.

The sheet did not restrict Facen from breathing at any time during the incident. The sheet was never secured to any part of Facen's body. I only used one sheet during the incident no additional sheets were used.

					PROPERTY TAG NO. (S)

ORIGIN:

On 11-17-05, at approximately 1650 hours, I was assigned to the Transportation Deputy position at San Diego Central Jail (SDCJ). I entered Intake Control when I observed an uncooperative inmate refusing to exit the patrol unit. I assisted in handcuffing an inmate later identified as VANNESA FACEN, DOB [REDACTED] (b)(5)(A)

DEPUTY'S OBSERVATIONS AND ACTIONS:

I exited Intake Control and observed FACEN resisting to exit the vehicle by spitting at the arresting officers. The arresting officers attempted to extract FACEN from both sides of the vehicle. The arresting officers deployed O.C. in attempt to get FACEN to comply. FACEN resisted and continued to spit at the arresting officers. FACEN began to kick the left rear door inside the vehicle. FACEN continued to kick the door with both feet, until FACEN broke the window.

The arresting officers used jail blankets to avoid contact from FACEN attempting to spit on them. The arresting officers opened the left rear door and extracted FACEN by his legs. FACEN attempted to use his legs to kick the arresting officers. FACEN was pulled from the vehicle to the sallyport driveway facedown. FACEN continued to spit. FACEN had a spit sock on his head that was positioned halfway, not covering his mouth.

Deputy Farr (ARJIS#2618) restrained FACEN's both hands while I assisted in placing the handcuffs. I placed my right knee on FACEN back and applied downward pressure to prevent FACEN from turning toward me.

I assisted in picking up FACEN onto the gurney, by lifting his right arm. I used no further force in this incident.

FORCE USED:

I placed my right knee on FACEN's back and applied downward pressure. I used arm strength necessary to lift and carry FACEN onto the gurney.

ORIGIN:

On 11/17/2005 at about 1715 hours, I was at the San Diego Central Jail processing a prisoner when the following incident occurred.

INVESTIGATION:

I was inside the sally port waiting to process a prisoner through the medical screening when Deputies Farr (ID #2618) and Hunrichs (ID #0985) had arrived with prisoner, Vanessa Facen. Facen was in the back seat of the patrol vehicle. He was yelling and kicking his feet inside the patrol vehicle.

Deputies Farr and Hunrichs were attempting to get Facen out of the patrol vehicle. Facen was yelling and spitting at the deputies and was inside the vehicle. He had somehow taken the spit sock off his face. I asked a transportation deputy, who was inside the medical processing area, to watch my prisoner while I assisted my partners. I got a face mask and put on a pair of latex gloves. Facen noticed me standing behind the patrol vehicle and requested to talk with me.

I went to the front passenger's side door. I told Facen that he better not spit on me. He replied, "I won't, I promise." I had asked him why he was acting so strangely. Facen had asked me what tribe I supervised and made some strange sound. I told Facen I was no longer in a tribe. Facen then spit through the screen in my direction, making strange sounds and yelling at me. He spit towards me once more, smiling and telling me I was going to die. I closed the front door at this time.

Facen began to kick the driver's side rear door and window several times with his feet. Facen broke out the window and damaged the door by kicking it with his feet.

Deputies attempted to get Facen out of the patrol vehicle using sheets and yellow blanket. Facen continued to spit at deputies while they were attempting to get him out of the patrol vehicle. Deputies obtained sheets from the jail deputies. The sheets and yellow blanket were used to block Facen from spitting on them. Facen continued to spit at deputies. Deputy Farr gained Facen's attention while Deputy Hunrichs grabbed the leg chains which were on Facen and pulled him out of the patrol vehicle and guided him to the ground, while the sheet was placed onto Facen's head preventing him from spitting on deputies.

CASE NUMBER:

05080923-L

REPORT DATE:

11/17/2005

Deputies were giving Facen orders to stop moving around and stay still, but Facen kept attempting to get up. A gurney was brought out to place Facen on because he was being rejected from the booking process. Facen was going to be transported to County Mental Health, via ambulance.

I got my prisoner and continued to process him through medical screening and into the sally port. I exited the sally port and observed several deputies standing over Facen. I observed several nurses were running around carrying oxygen tanks. Deputy Farr and another deputy were in the process of doing CPR. Deputy Farr was doing the compressions while another deputy was giving the breaths by using a CPR mask.

I rode inside the ambulance while transporting Facen to UCSD hospital. Deputy Hunrichs followed in a patrol vehicle. Deputy Hunrichs and I guarded Facen until we were relieved by a deputy from San Diego Central Jail.

REPORTING OFFICER

R.Sanchez

PRIMARY VICTIM'S NAME
State of CaliforniaORIGIN:

On 11-17-05 at about 1730 hours, I was at the San Diego Central Jail processing my prisoner when the following occurred.

INVESTIGATION:

I was in the medical processing area of intake when I heard a loud yell. I looked outside the medical processing area and saw a Sheriff patrol car with a prisoner in the backseat. I saw two deputies attempting to take the prisoner (later identified as Vanessa Facen) out of the backseat of the patrol car. Facen was yelling and kicking his feet inside the patrol car.

I asked a transportation deputy who was inside the medical processing area to watch my prisoner while I went to assist the deputies. I spoke to Deputy Farr #2618 and asked if he needed any assistance. Deputy Farr said yes and told me Facen was (b)(5)(C) and gave me a face mask to wear. Facen had taken off his spit sock and was spitting at Deputy Bartlett #2486 who was outside the car attempting to speak with Facen.

Facen became upset and starting making strange sounds. Facen began to kick the driver's side rear window with his feet. Facen broke the window with his feet and damaged the door frame.

Deputy Farr went on the right side of the patrol car and Deputy Hunrichs #0985 and I went to the left side of the patrol car. Deputy Farr and Deputy Hunrichs open the doors and Facen attempted to spit on them. Deputy Farr gained Facen's attention. Deputy Hunrichs grabbed the leg chains which were on Facen and attempted to pull Facen out of the patrol car. I went and assisted Deputy Hunrichs. I grabbed onto the leg chains and pulled Facen out of the patrol car to gain control of Facen. Deputy Hunrichs and I pulled Facen out of the patrol car and guided him onto the ground.

Facen attempted to get up. I used my left knee and my body weight and placed it onto Facen's rear left thigh. Facen was not heeding to commands and was attempting to spit on deputies. Facen kept kicking his feet. I used my hands and placed them onto Facen's leg calves to control Facen's legs from kicking a deputy.

A gurney was brought out to place Facen on. I placed my hands under Facen's knees and lifted him onto the gurney.

ORIGIN:

On 11/17/2005, at approximately 1715 hours, I was working as the Processing Sergeant at San Diego Central Jail (SDCJ). I responded to the SDCJ Vehicle sally port to supervise the arrival of a combative arrestee later identified as Facen, Vanessa when the following occurred.

DEPUTY'S OBSERVATIONS AND ACTIONS:

When I arrived in the vehicle sally port I contacted the arresting deputies. Due to Facen's behavior and actions it was decided he would need to be cleared at County Mental Health (CMH) prior to being accepted at SDCJ. Deputy Farr #2618 and or Hunrichs #0985 informed me Facen was cleared by the Psychiatric Staff at Grossmont Hospital.

One of them provided me with Facen's release paper work from Grossmont Hospital. In the paper work it showed Facen had been seen by Grossmont's Psychiatric Unit. However, it was discovered the staff member from Grossmont's Psychiatric Unit that interviewed Facen was a Social Worker and not someone that met SDCJ's criteria for a psychiatric clearance.

During the time I talked to Grossmont Hospital staff and the arresting deputies Facen kicked the window out of the patrol car. When I returned to the vehicle where Facen was he had been removed from the car and was lying face down on the ground. Facen was resisting the deputies physically and wound not listen to their directions and orders to stop resisting. During this time Facen was yelling and screaming. Once Facen was placed into restraints he was placed onto a gurney.

Facen continued to yell during this time. Because Facen needed to be evaluated by CMH prior to him being accepted into SDCJ he needed to be transported to CMH. I went to the Intake Control area and asked for one of the deputies to call 911 and ask if the fire department would transport a combative prisoner. With in a few minutes I returned to where Facen was. I noticed Facen was now quiet and did not appear to be awake.

I asked Deputy Deering #0705 to check Facen's breathing and pulse. Deputy Deering told me Facen was not breathing and could not find a pulse. I instructed the deputies that were present to again check for Facen's pulse and breathing. They were unable to

find either one. The deputies started rescue breathing and chest compressions (CPR) on Facen. I informed SDCJ Medical Staff of the medical emergency and asked for their assistance and then asked the Intake Control Deputy to again call 911 and inform them of the change in status and the need for their immediate response.

The deputies and SDCJ medical staff continued CPR until Paramedics arrived and they took over the scene.

LOCATION OF INCIDENT 200 West Arbor Drive		CITY San Diego	BEAT 009		
PERSON(S) INVOLVED: VICTIM		SUSPECT (IF NAMED)			PROPERTY TAG NO. (S)

SYNOPSIS:

I was assigned to guard an in custody suspect, named Vanessa Facen who was in the Intensive Care Unit at U.C.S.D. Hospital in Hillcrest. Facen was unconscious and was on life support. During my shift, the medical staff determined Facen to be unable to sustain life and pronounced her deceased at 1530 hours. I notified the Sheriff's Communications Center and the Central Detention Facility Lt. Birdsong of Facen's death. Sheriff's Homicide Detectives and the San Diego County Coroner's Medical Examiner were dispatched to the hospital. The investigation was relinquished to these two entities.

ORIGIN:

An investigation of death, at U.C.S.D. Hospital, 200 W. Arbor Dr. San Diego, CA 92103.

INVESTIGATION:

On 11-21-2005, at about 0600 hours, I arrived at the second floor Intensive Care Unit of U.C.S.D. Hospital in Hillcrest and relieved another Deputy Sheriff guarding suspect Vanessa Facen. Facen was unconscious and was on life support. Facen was being attended to by the on-duty I.C.U. medical staff.

At about 0930 hours, Facen was transferred to the ninth floor Intensive Care Unit where the medical staff on this floor maintained medical attention.

Throughout the late morning and afternoon, the medical staff discussed Facen's medical condition. Apparently, Facen had no brain activity and was unable to sustain life without life support. I was in communication with the Sheriff's Communications Center and Lt. Birdsong at the Central Detention Facility keeping them updated as to Facen's status.

At about 1530 hours, Doctor (b)(5)(B) determined Facen's brain unable to sustain life. He pronounced Facen deceased and the medical staff discontinued the life support.

At about 1534 hours, I made notification to Lt. Birdsong of Facen's death.

At about 1538 hours, I made notification to the Sheriff's Communications Center.

At about 1545 hours, I spoke with Sergeant R. Empson of the Sheriff's Homicide Division. He informed me that two Sheriff's Homicide Detectives would be enroute to conduct an investigation. At about the same time, Vanessa Facen's mother (b)(5)(B) and two family friends (b)(5)(B) arrived to see Vanessa. I had advised Lt. Birdsong of this and was told they could see Vanessa. I monitored their visit which lasted about forty-five minutes. (b)(5)(B) were then directed to a ninth floor waiting room to wait for the Homicide Detectives and the Medical Examiner.

At about 1645 hours, Medical Examiner, (b)(5)(B) arrived.

At about 1705 hours, Sheriff's Homicide Investigators, Altenhof and Goldberg arrived and the scene was relinquished to them.
